Interdorm Council Takes Up Annual Problems Raised By Duke-Carolina Battle

Members Decide In Favor Of Section Type Of Dormitory

Discussion of problems raised by the approaching Duke game held first place last night at the meeting of the Inter-dormitory council.

President Puddin' Wales pointed out that for the last few years the excitement and spirit caused by the Duke game have caused vandalism and invasion on both campuses, and at present the effort is being made to prevent such action before it has a chance to start by appealing to the sensibility of the student body. These acts of invasion have resulted in unfavorable publicity for the University, and because of that reason and others the administration desires that they be checked.

Other Discussion

Further discussion was held on the question of the new dormitories and dining hall, concerning the effect of their location—whether their nearness to classroom and dormitory buildings will seriously effect study.

The council went on record as approving the section type of dormitory and that telephones be placed in each section.

Charles Vilbrandt, chairman of a committee composed of Bill Hoyle and Al Rosen, reported on the committee's discussion of the keep-off-the-grass question, suggesting that the following moves be taken: publicity in the DAILY TAR HEEL, speeches in freshman assembly, and debates in the Di and Phi assemblies.

A constitution committee was appointed by President Wales to draw up an entirely new dormitory constitution. This committee, chaired by John Singletary, consists of W. B. Kleeman, Warren Barrett and Bob Milner.

Bill Pearson, president of Everett, reported that his dormitory had already collected its prize of a free movie, won for having the best homecoming display. Jack Hughes, Old West president, said the second prize, won by Old West, has not yet been claimed.

Men's Glee Club Sings For Frosh

The men's glee club, under the direction of John E. Toms, presented a varied program of musical selections in freshmen assembly yesterday. This was the first public appearance the glee club had made this fall.

A folk song, "All Through the Night," was the opening number. From this piece to the last one, the audience seemed to take a keen interest in the approximately 60 voices singing in unison. "The Nightingale," a seventeenth century madrigal, was the next selection and was followed by a French folk song, "There Was A Shepherd Maiden."

"Hame, Hame, Hame," a Scotch folk song, featuring John Henderson and Luther Strouse in a duet was scheduled to conclude the program. An encore, however, brought on "Tar Heels on Hand," composed by the University's own Kay Kyser.

Whether Science Or Football—

Newsman Must Understand His Topic, Reporter Says

Blakeslee Of Associated Press, And Thone Of Science Service, Covering Academy Meeting

"Whether it's football or science that the newsman is reporting, he must thoroughly understand his subject and interpret it in everyday language for the public," stated Howard Blakeslee, veteran Associated Press writer, in an interview yesterday in his room in the Carolina inn.

Blakeslee and Dr. Frank Thone of the Science Service, national syndicate, two of the four prominent reporters covering the meeting of the National Academy of Sciences, were the victims of exclusive Tar Heel interviews.

Blakeslee discussed football, praising the Duke team.

MITCHELL SPEAKS FOR ACADEMY OF SCIENCES GROUP

Virginia, Carolina, Duke Men Address Morning Session

Distances of 1350 stars have been determined by the method of trigonometric parallaxes at the University of Virginia, according to Dr. S. A. Mitchell, for 20 years director of the Leander McCormick observatory at that university.

Dr. Mitchell was the first speaker yesterday at the morning session of the National Academy of Sciences meeting here this week. He also delivered the second paper of the morning due to the absence of Dr. Harold D. Babcock, astronomer at Mount Wilson observatory in Pasadena, California.

Following Dr. Mitchell, L. W. Nordheim and M. H. Hebb of Duke presented papers on physics; James B. Fisk and Frank K. Cameron of the University gave papers next, and were followed by Paul Gross of Duke, O. K. Rice of Carolina, and R. W. Bost of Carolina.

Botany Section Meeting at the same time, a section on botany was held in 201 Vent.

DI HAS LIVELY DEBATE ON BILL

New Members Are Taken Into Senate

Members of the Di Senate discussed last night the bill that the United States government should allow the practice of teaching the art of birth control in the United States and voted in favor of it, 24 to 4.

Birth control should be practiced among the lower classes and this can be accomplished only through education of these people. It was pointed out that 65 per cent of the children born in the United States were born into the lower classes.

Points brought out against the bill were that birth control is murder in that it is in reality the destruction of human beings. Also, birth control leads to divorce and immorality among youth.

Senator Rittenberg proposed that the United States government set up a National Birth Control administration and that the government regulate all births in the United States. Young couples would have to apply to the board eleven months in advance before they could have children.

Senators Gaton, Gant, and Walker spoke for the bill and Senators Kleeman, Hutton, and Levey spoke against it.

Five new members were voted into the Senate: Raeford Adams, Tom Rogers, Mary Lewis, Mary Jane Yeatman, and Joe Efrid.

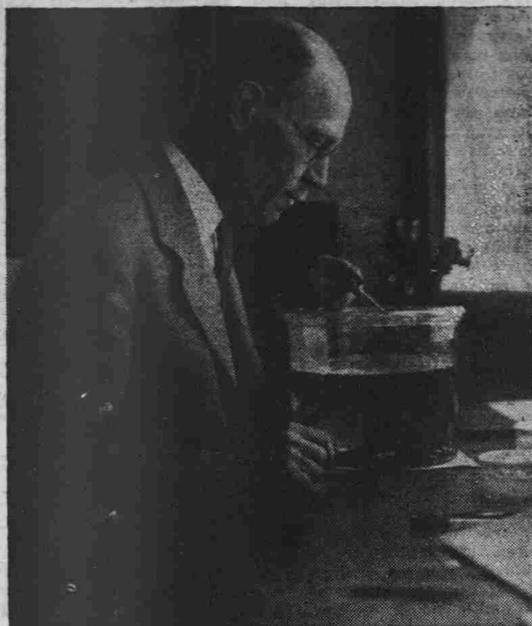

Relations Club To Meet Tonight

"Morality in International Politics" is the subject to be discussed at the weekly meeting of the International Relations club tonight at 8 o'clock in Graham Memorial lounge.

The Round Table discussion will be led by Dr. L. O. Kattsoff of the Philosophy department, who will explain the present ideologies of Fascism, Communism, and Democracy. He will point out the contradictions and conflicts in each and will then hold an open forum in which all the members will be allowed to participate.

Students who have applied for membership in the club will be voted on at the business meeting next week.

Research Council Chairman

Dr. R. G. Harrison, chairman of the National Research Council and prominent member of the National Academy of Sciences, who will be one of the leading speakers at meetings of the Academy here this week.

Tickets To Duke-Carolina Tilt Are All Gone Now - - 33,750 Sold

Duke-Carolina football tickets are all gone. This announcement was made yesterday by the University Athletic association when they also announced that a total of 33,750 tickets had been sold.

On Sunday, announcement was made in the leading newspapers of the state that 2,000 reserved seats in temporary bleachers were available. In two days these tickets have all been sold, making a record of ticket sales at Carolina.

No Ticket—No Game

University officials have asked that all persons anywhere without tickets stay away from Chapel Hill Saturday as there will be absolutely no tickets sold at the gates. Chapel Hill residents and students have also been requested to keep their cars off the streets on the game day to help avoid traffic congestion as much as possible.

At the game there will be no children's tickets sold, and every seat is reserved.

Memorial Board Names Committees

Yesterday in a meeting of the board of directors of Graham Memorial two committees were appointed, it was announced by Bob Magill, director of Graham Memorial.

The first committee appointed, to investigate the possibilities of a "night club" in Graham Memorial, is composed of Elizabeth Malone, Bill Hoyle, and Henry Nigrelli.

The second is a committee with full authority for the purchase of all equipment needed in the building. It is composed of H. F. Comer, chairman; Charles Wood, and Charles "Puddin'" Wales.

ARBORETUM SCENE OF HEART ATTACK

Walter Martin Is Better Now

A heart attack case occurred in the arboretum last Sunday night at about 11:30 p. m. behind the Episcopal church. It happened to Walter Martin, graduate student here from Mississippi, and the attack was of the serious kind.

He was discovered by Dick Shurz, of 220 E. Rosemary St., lying on the wet grass in an unconscious condition. Dr. Hedgepeth, on duty at the infirmary, was on the scene within 10 minutes. Martin had been there more than 20 minutes before he was discovered, but knew he should not move.

A group of boys, attracted to the scene carried him to the doctor's car after first aid was administered. Today the infirmary announced that he is in a greatly improved condition, but will probably not be permitted to leave for several weeks.

Coed Tea Party

Tea will be served in the New Woman's building on Thursday afternoon between 4 and 6 for the residents, other graduate women, and their friends. It is informal.

Photography Club Plans Expansion

The Photographic society of the University, formerly restricted to members of the faculty and townpeople, is opening its membership to students interested in the camera arts.

At the next meeting, on November 7, in the Grail room of Graham Memorial, there will be a lecture and discussion on composition and photography.

The officers of the club include: Dr. MacPherson, of the medical school, president; Paul Quinn, of the Playmakers, secretary-treasurer; and Dr. Russell T. Smith of the Department of fine arts; S. W. J. Welch of the Psychology department, Dr. Paul E. Shearrin and George Moulton, executive committee.

HIGH SCHOOL DAY TO BE HELD HERE

6,128 Students To Arrive November 5

Roy Armstrong, of the Pre-College Guidance division of the University, announced yesterday that 167 schools will be represented in the North Carolina High School Day, to be held at Chapel Hill on November 5. A total of 6,128 students will be the guests of the University at the VPI game to be played in the afternoon.

High school boys and girls from almost every country in the state will be here for the festivities. High Point will have the largest single representation, numbering 285. Greensboro is next with a total of 125. The senior class of Apex high school will be present en masse.

From All Parts

Students will come from as far west as Rutherford, as far north as Ashe, as far northeast as Chowan, as far southwest as Pamlico, and as far south as Columbus. Certain undergraduates at the University will welcome boys and girls from their respective counties, and elaborate.

Annual Report On Academic Standings Of Fraternities, Sororities On Campus Given

DERRY OBTAINED BY CPU TO SPEAK HERE NOVEMBER 3

Lecturer Will Make Address In Hill Music Hall

Dr. George H. Derry, prominent lecturer and director of the Department of Social Education of the Knights of Columbus, will speak in Hill Music hall the night of November 3 at 8:15 on "Communism in America," it was announced today. The lecture will be sponsored by the Carolina Political Union.

He will not only reveal the foundation and treacherous tactics of atheistic communism, but will suggest practical bulwarks against this menace which must be erected by the layman in our social and economic structure. Following his address he will answer questions on the problem.

Dr. Derry is an accomplished author and distinguished lecturer in seven languages. In the past year he has conducted 97 public lectures, speaking to more than 100,000 people, and has addressed the student bodies of several colleges. He is speaking in keeping with the Knights of Columbus crusade against communism.

PHI IS UNDECIDED ON BIRTH CONTROL

Bill Tabled For Debate Next Week

After heated discussion on the bill, Resolved: That the Phi Assembly approve the dissemination of information pertaining to birth control, at the weekly meeting last night in the Phi hall, New East, the assembly voted to table the bill for continued discussion next week.

Representatives Bennett and McLevelon questioned Edith Gutterman who, in reporting upon the bill, advocated its adoption. Representative Elmer Nance declared that the number of intelligent people was reducing in ratio to the increase of backward people. Speaker Rankin, granting the social and personal merits of the bill, asked the assembly to consider on what moral, ethical, or religious grounds birth control was based. Ben Dixon brought to the assembly's attention the perpetuation of the unfit. Sanford Stein proposed that every child brought into the world should be given the best of care and attention.

At the second initiation ceremony of the year, 31 new members were inducted into the assembly. They included: Austin Robbins, Huntley Gover, John Diffendal, Douglas Stuart, Thomas Wert, Tom Allen, Fred Brown, Harold Warsaw, Charles Cunningham, Henry Burgwyn, Armstead B. Smith, Hammond Bennett, Jack Tillman, Susie Fountain, North Hinkle, William A. Upton, Trent Re gland, Lucy Cary Easley, Jean McIndoe, John Chambliss.

George Coxhead, Tom Rogers, Ham Anthony, Cameron Murchison, James Hackler, Isham Britt, Bob Sloan, Lennox McClendon, Richard Earley, Roland Brown, and Leslie Tomlinson. Jack Fairley asked for dues and Bob Farris announced the Di-Phi football game tomorrow. A committee including Representatives Kibler, Rosen, and Bennett, was appointed to obtain speakers for the Phi. Speaker Rankin issued a call for volunteers for the Di-Phi freshman debate.

Bradshaw To Speak At Greensboro Meet

Dean F. F. Bradshaw will speak at the annual meeting of the North Carolina association of associate registrars to be held at Greensboro this morning at 11 o'clock. The subject of the Dean's talk will be "Additional Light on Education Standards." The address is to be based on part of the results of studies made by educational experts in Georgia and Pennsylvania.

Report Finds "C" Average For Year; Zeta Psi Leader

By LOUIS HARRIS

Statistics were received yesterday revealing the standing of the campus sororities and fraternities. Dr. G. K. G. Henry, assistant registrar, yesterday gave out the annual figures on how much work the Greek chapters were doing along scholastic lines.

In the report it was stated that the year average for 1937-38 was "C". Ten of the 26 fraternities and sororities then registered equaled or surpassed this general figure. The total number of men and women in secret societies rose from 470 in the fall quarter to 488 in the winter, and then to the grand total of 585 during the spring quarter. It was in the winter quarter that the best work was done, the general average being about a "C" plus.

System Of Marking

Dr. Henry used the following system in marking: "A" is the equivalent of 1.00; "B" equals 2.00; "C" is equal to 3.00; "D" is the same as 4.00; "E" equals 5.00; and "F" is the equivalent of 6.00.

Those fraternities and sororities which ranked above the average are: Zeta Psi, which maintained an even 2.60 throughout the year; Pi Beta Phi, which came back strongly with 2.74, after a first quarter 3.21; Alpha Tau Omega, also with 2.74; Phi Gamma Delta with a 2.85 average; Zeta Beta Tau close behind with 2.86; Sigma Alpha Epsilon which had a steady 2.95; Delta Psi, with 2.97; Chi Phi, just under the deadline with 2.99; and Chi Psi and Kappa Sigma with an even 3.00.

The rankings of other fraternities on the campus are: Sigma Nu, 3.05; Delta Kappa Epsilon, 3.06; Alpha Epsilon Pi, 3.06; Kappa Alpha, 3.07; Phi Delta Theta, 3.10; Pi Kappa Alpha, 3.18; Sigma Phi Epsilon, 3.31; Beta Theta Pi, 3.35; Sigma Chi, 3.38; Lambda Chi Alpha, 3.38; and Phi Alpha, unheard from.

An interesting sidelight on the statistics is the case of the Chi Omega girls who led the campus for the first two quarters and then failed to make a report for the third. Two fraternities, Theta Chi and Sigma Delta disbanded after the winter quarter.

Francis Fairley Speaks To Frosh

"Why did you come to college and what are you going to do about it," was the topic of Francis Fairley as he spoke to the Freshmen Friendship council Tuesday night. Fairley gave examples of several types of boys that entered the University and then he said, "I hope that you do not turn out to be an educated fool."

Plans for a picnic to be held in place of the regular meeting next Monday night have been made and a record breaking attendance is expected at this meeting. The program committee has arranged a variety program of fun and entertainment. Dr. Frank Graham will be present to make a short speech.

Other business included plans for the council's deputation teams and discussion of a trip to Greensboro on November 12 to be entertained by the freshmen at WCUNC.

Sunshine Girls Receive Fan Mail

The Sunshine girls of the second floor of Spencer hall were deeply touched yesterday when they received their first fan mail, a letter from the "misguided souls," Zeke and Hank, of Lizzard Guleh.

The two gentlemen enclosed a plug of tobacco as a token of their appreciation and requested that "Red River Valley" or "Maple on the Hill" be substituted for "Jesus Loves Me." The gift was greatly appreciated, but the girls can't decide exactly what to do with it—whether to chew it themselves or give it to Grace.

All said, though, the missive was gratefully received and will probably give new quality to the voices of the Sunshine girls when they give their next concert.
