## MISS ROWLAND SPEAKS TO YWCA

### Six Good Features Are Pointed Out

Enumerating six characteristics of a good Christian association, Miss Billie Rowland of the Woman's College made a talk to the YWCA last night listing points which might prove helpful to the local cabinet.

She pointed out that at the center of the YWCA should be a group of devoted and courageous individuals who should be well acquainted with the organization's work. Second, the YWCA should be inclusive and not exclusive and should not be made up of little groups or cliques. Third, the organization should be democratic; fourth, it should meet the needs of the campus; fifth, its program should be well rounded; and sixth, the YWCA should feel itself a part of a great international movement and not a local organization.

### OTHER POINTS

Miss Eleanor Hinson, chairman of the worship committee of the Woman's college YWCA, also brought out some points which had been used effectively by that organization. She told of the peace movement, Far Eastern student fund, and a convention held recently

## New Differentials For Out-Of-State Students Planned

By JIMMY DUMBELL

A new, modified reciprocal plan of charging tuition on a "quarter-hour" basis, designed to raise \$75,000 additional revenue ordered by the state legislature, and a new method of establishing out-of-state differentials to go into operation in September, was announced yesterday by the administration.

The new system consists of charging for the actual quarter hours for which the student registers and establishes the differential fees according to the tuition rates of similar institutions in each of the six regional districts of the country.

Under this practice, state resident students will be charged \$1.65 for each quarter hour. On the basis of 48 required hours, omitting physical education and hygiene, next year's North Carolina freshman will pay \$79.20 tuition for the year.

### DIVISIONS

Six standard divisions of the nation, which have been set aside by economists and sociologists, were used as a basis on which to group state universities throughout the United States. Students from the following states will be charged a tuition-plus-differential fee of \$6.00 per quarter: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont. This will average \$279 per year.

For students in all other states except the above, and the state of North Carolina, the tuition-plus-differential charge will be \$3.65 per quarter hour. This will average \$169.72 annually. All students from foreign countries will be charged \$6.00 per quarter hour bringing their annual tuition-plus-differential expenses to \$279.

The above rates were set after conference
