College Youth Favors McNutt In 1940 Presidential Race

Thomas E. Dewey Runs Close Second In Student Opinion Survey; Garner Third.

American college youth have picked a new number one presidential possibility in their own poll, the Student Opinion Surveys of America. He is Democrat Paul V. McNutt, 48-year-old high commissioner to the Philippines and former college professor, whose White House boom has been one of the first to get under way.

Running a close second in the favor of the nearly one and a half million college students was the even more youthful Thomas E. Dewey, the 37-year-old Republican district attorney of New York.

EXHIBIT FEATURES ENGEL PICTURES

Photographic Display Now Open In Library

Fifty-one photographs by Walter Engel, outstanding photographer, are included in an exhibit sponsored by the Photographic society of the University which is now open to the public in the central reserve room and the general college reading room of the library.

A special small exhibit of 15 photographs, together with a written lecture by Engel on how they were obtained, was received recently by the society, the lecture serving as a basis on which Russell T. Smith of the Art department based his own criticism of the photographs. In the lecture, Engel stated that it requires a mixture of psychology, patience, and hard work to make a posed photograph appear candid. He gave as an example a picture that he took for advertising purposes in which a girl in skiing clothes was made to appear as if she were standing on a mountain top when, in reality, she was on the top floor of a New York skyscraper.

Not yet 30 years old, Engel began to dabble with amateur photography at the age of 11. Through college and a business career, his interest in his hobby grew, and his work quickly created such a demand for his services that he left salaried employment to establish his own syndicate.

The exhibit, which is being put on display at various places in the country, was brought here from Salt Lake City, Utah. It will remain open to the public each day from 8:15 in the morning to 11 o'clock at night and from 2 until six o'clock on Sunday afternoon until May 15. Explanatory folders are available at the library.
