We wish to start the column with an announcement of much importance and significance. New Woman's Dorm No. 2 (popularly known as Coble hall after its charming president) now has a first floor telephone - 7061. The second and third floors will soon have telephones also, and eager males are asked to please restrain their impatience.

CAROLINA BY JOHN ANDERSON

You have come to Carolina where you have to stand in lines for hours and hours at everything ... Where the dusty walks get under your skin Where the best of movies are hissed and booed, but still enjoyed . . . Where home life is sneered upon and a homecooked meal is a dim memory . . Where one of the nation's best indoor pools is found, but so slightly used Where the old battle cry, "Beat Duke." needs reshouting after being forgotten all summer . . . Where you can never find exactly what you want to buy . . . Where the coeds get the best dormitories, etc., and then have the face to be snooty, especially to freshmen and sophomores . . . Where the students have two ambitions; first, never to go to bed; and, second, if they do go to bed, never get up Where the campus' near-smallest man, Dr. Frank Graham, is one of the South's greatest . . . Where you must think about something else this fall besides football games and dances ... But I'll grant you, Carolina is all this.

Have You? ...

lative

Have you ever felt that you were standing alone in this world? ... Have you ever felt that you were walking where no one else dared to walk? ... Have you ever struggled along with the feeling that your fellow-man was on the right track and you on the wrong? . . . Were you ever bothered by this condition? . . . Well, get the hell off the grass!

We're all that way . . .

Yep, you've been assigned papers to write and books to review, but you'll wait until the quarter is about gone before getting around to them ... At times the noise in the dormi-

tories will get on your nerves . . . You'll keep putting off going to church . . . You'll invite hundreds down to see you at the football games, but you never see them . . . You'll think your bill at South building too high, but you won't complain . . . You'll want to know your professors personin the professional theater, and Lionel ally, yet you'll stay shy of them and Stander, well-known Hollywood com- keep on thinking they are stiff-necks edian. 3) The University administration is responsible to the board of trustees.

4) Frequently the administration must make explanations to the board.

These four items should be self-explanatory.

Out of yesterday's two-hour session comes an investigation designed to give sophomores individual pictures. A committee is to investigate possibilities of pictures without a fee-increase.

When this committee reports, the fee, should it be necessary, will probably be added to the class fee and collected on winter and spring quarter bills.

We endorse improvements ... among the best of University annuals, as it was in 1916.

> **MURALS ROLL ON** "Athletics For All" **Begin Another Year**

Year in and year out freshmen are informed by speakers galore that while obtaining an education they must not neglect their physical well being for mental improvement.

But it remains for the Physical Education department headed by Dr. O. K. Cornwell to actually put the statements into reality. The policy of "athletics for all" has long been the foundation for a department that has grown rapidly both in size and importance.
