# Wheeler Says Real Liberalism Must Be Basis For Democracy

### FDR Not After Third Term, Montana Senator Says Wheeler In Interview

By MARTHA LeFEVRE

"Franklin D. Roosevelt will not be a candidate in the next presidential race," Burton K. Wheeler, Democratic senator from Montana, stated in an interview yesterday. "I am violently opposed to third terms," he continued.

Wheeler, often mentioned as a dark-horse possibility for White House tenancy, said that Roosevelt realizes it would be dangerous to attain too much power while "a®

trend towards dictatorship exists all over the world."

If Roosevelt won a third term, the Westerner pointed out, he could then run for fourth and fifth terms. He said that it would be easy for a president today to nominate himself for the presidency, with all the power he controls in the executive departments, in the payrolls and in the relief rolls.

Wheeler recalled that he had helped pass a bill in 1928 calling for Senate opposition to third terms.

#### Wheeler Has Not Been Invited

When questioned concerning the rumor that Roosevelt wishes to confer with him when the president returns from Warm Springs, Wheeler claimed he had received no such invitation. "I can not imagine what Roosevelt would want with me for I am not going to run for vice-president of the United States with him or with anyone else as so many have asserted. I shall be running for the next Senate as only bald-headed stuffed shirts seek the vice-presidency."

Senators Charles L. McNary and Arthur Vandenburg would be, in Wheeler's opinion, the most logical Republican presidential nominees. He fears, however, that neither will (Continued on page 2, column 3)

### Large Crowd Hears In Memorial Hall

By Louis Harris

Speaking before a crowd of 1500 in a coast-to-coast CBS hook-up from Memorial hall, Senator Burton K. Wheeler, Montana's "dark horse" Democratic presidential hopeful, last night urged a return to the liberal ideal of "preserving civil rights, democracy, and parliamentary government at all costs," and the undertaking of a new farm program based on the same principle as the \* RFC in industry.

After attending a Carolina Political union banquet, tendered in the Carolina Inn by Julian Price, insurance magnate of Greensboro, at which approximately 100 persons, prominent in state and national life, were present. Senator Wheeler spoke from 9:30 to 10:15 to the nation over the Columbia Broadcasting System network. Liberalism Defined

"You and I are Americans. For your ancestors-and for mine-liberalism had only one meaning-democracy. They spilled their blood and sacrificed their all in 1776 that you and I might live in a Republic. To them, liberalism meant democracyand to my mind-in 1940-the very term irrevocably connotes democracy both political and economic. . . . Today, as then, a real liberal would resist and oppose concentration of wealth in the hands of the few.

"A liberal believes in a limitation of the power vested in any individual. Any deviation from this basic concept is destructive to democracy and the American way. The trend towards a greater and greater concentration of wealth necessitates greater and greater centralization of government a departure from democracy and (Continued on page 4, column 3)
