"The arts of power and its minions are the same in all countries and in all ages. It marks its victims; denounces it; and excites the public odium and the public hatred, to conceal its own abuses and encroachments."—Henry Clay.

The Mob Rides

The other night the mob rode high again, this time in Roxboro, and another miscarriage of justice almost came to pass. A Negro, indicted of rape, but surely not yet proven guilty, was assaulted by the shame of the South, a lynch mob.

In charging the grand jury which will investigate the attempted lynching, Judge Henry A. Grady of New Bern blasted the "misguided hoodlums and inconsequential nobodies" who led the vicious assault. His words were as clear a statement of the justice that must be dealt all undemocratic action, and an indictment in themselves of the injustices which linger still within the framework of the South.

"You and I are white men. As white men we make the laws of this state. The Negro hasn't anything to do with making laws. We as white men hold the Negro up to the same laws that white men observe. Yet, I blush to admit that there are white people in North Carolina who think the Negro should not have as fair a trial as the white man.

The disgrace to the region will be shorn from its roots by the courts of justice. They will continue to carry this liberty forward until the hearts of the "hoodlums and nobodies" change.

Knock-Out the "Knock-Downs"

The discovery early this week that at least two of the campus dormitory managers had been lining their pockets with dime fees charged for the use of the pass-key is just another in the long series of bad conditions existing in campus dormitories.

This incident alone might well serve as a starting point for an inert Interdormitory council. Almost all dormitory managers have served well. All of them have been paid well—free rooms, profits from dormitory stores and commissions on drycleaning. Their job has been to make life in dormitories as pleasant and convenient as possible.

The attempt by managers of Mangum dormitory to knock-down on a job where their duties are not heavy and for which they are amply paid amounts to nothing less than petty larceny. We believe that not only should the offenders be forced to return the money but that the case should be brought up for judgment of the Interdormitory council which has neglected its powers too long.

Square Deal to Khaki

Chapel Hill will be flooded with khaki again this week-end. As usual, everybody has left the entertainment up to Fish Worley, and as usual, he has planned an excellent program.

But it's going to take a lot more than the Worley ingenuity, a gridgraph and a Saturday night dance to provide adequate hospitality for the thousands of soldiers here this week-end.

Coeds might well volunteer their attendance at the dance. Students staying in Chapel Hill over the week-end could wipe away the last traces of condescension toward uniforms. Chapel Hill merchants might give the soldiers a fair price and a square deal.

In Passing

"World social integration has progressed far enough for mutual interdependence but not far enough to avoid destructive competition, so that we find ourselves in a transitional phase of human evolution in which the colossal mistakes of our politicians are matched only by our colossal ignorance of basic social mechanisms. One wonders whether blood, tears, and sweat are the only price to be paid. Social wars within the same species of insect society are practically non-existent." Dr. Alfred E. Emerson, University of Chicago zoologist, elaborates on a favorite poser: Bugs get along with their own kind. Why can't people learn?

"The first obligation of college students is to fit themselves for the highest type of service; they should not give up the chance to prepare for their unique service in order to render a service on a level which can be rendered by a much larger number of men and women."—John W. Studebaker, Commissioner, U. S. office of education.

Crossword Puzzle

By LARS MORRIS
ANSWER TO PREVIOUS PUZZLE
ACROSS
1-Common ailment
5-Range of view
10-Hit with flat of hand
14-Open space
15-Persons composing jury

35-European deer (pl.)
36-Ireland
37-Unusual
38-Killed
39-Female deer
40-Strong liquor

Friday's Child

By Marion Lippincott

Well here we go again... it's got to be a gossip column on account of we've thought and thought and can't think of anything to crusade about. It's not that we think things in Chapel Hill are perfect. It's just that we feel too much at one with the world today to start complaining.

Flash! Sara Sheppard and Ed Lashman were married a couple of days ago. Maybe it's just a rumor so far the real facts of the case consult your local newspaper.

Lee Graveley, the Prince Oblensky of local cafe society, has been getting in practice all week for Frank Dalton's wedding Saturday. And we do mean he ought to be in perfect shape by then.

The SAE's seem to be really crazy about Randy Jennings. In fact she's taken the place by storm. The girl really did pick a good house...

This is a note of apology; Wilson Turnipseed swears it's malicious rumors that are spreading around town about him and that not a word of it's the truth. We're sorry to have had anything to do with it.

Frog Carr makes news again. This time because he's so popular that South Building steps are practically impassable come 10:30 when he holds court. What's the secret of your success, Frog?

We note with interest the new addition to St. Anthony Hall, namely Jesse Nalle's station wagon. It's really a beauty as far as power goes, that's if you don't mind going 10 miles an hour. The Sigma Nu "Black Zooma" runs a close second in the race: maximum speed 9 miles an hour. The Zete's too are sporting new transportation equipment: their Cadillac, vintage 1924, makes a good 6 miles per hour. SA... WISH!

We understand that Luther Weddington and Carter Broad recently enjoyed a dismal evening tracking down the escort of a new coed of whom they are both enamored. It seems they saw her driving about with some strange male and being overcome with curiosity they followed the couple about for an evening trying to discover said male's identity.

Recently learned that the Phi Delta's have gotten a good crop of pledges. Congratulations to the house on the

Danger... Attention all U. S. Government agents... Fan mail of the type which Tarheel Columnist Jack Dube has been receiving of late deserves the attention of the F.B.I. The last words of a lengthy letter calling him a liar and threatening his life read: "I swear by my fraternity, that if you ever mention my lady-friend's name in that regard again, I'll tear your head off." Could this be a threatening letter? F.B.I... Please advise.

We were sitting in the tenth row, third and fourth seats on the aisle watching D. Lamour and J. Hall emote in the midst of the picture "Hurricane", when comes the hurricane scene. It seemed very realistic—too realistic: our ties were in our faces, faculty toupees were swept to the rear of the theater, chewing gum was torn from the floorboards. We were blown back ten rows, Tiny Hutton was blown
