At present the 48 hour work order will apply only to designated areas but it will be extended gradually as the need arises until it may become virtually nationwide.

Among some of the southern towns designated by McNutt to come under the order are: Hampton Roads, Va., Brunswick and Macon, Ga., Charleston, S. C., Mobile Ala., Panama City, Fla., Pascagoula, Miss., and Beaumont, Tex.

Legislature to Consider Bill For Filling Vacant Positions

Services Likely To Claim Many Campus Officers

A bill designed to establish a permanent systematic means of replacing vacancies occurring in student government offices will be considered by the student legislature at its meeting tonight at 8:30.

The proposed legislation states that "Should there be a vacancy in the offices of president, vice-president or secretary-treasurer of the student body, the vacancy or vacancies shall be filled temporarily by succession. The vacancies then shall be filled by a general campus election on a day to be set by the student legislature."

"Nominations," it adds, "shall be made from the floor of the legislature, by members of the legislature, and referred to a special investigation committee of legislators appointed by the speaker of the legislature. This committee shall submit to the student body within ten days, two nominees to be elected at a campus election on the decided date."

Honor Council Decisions Released by Bennett

EDITOR'S NOTE: The following report on Student Council cases and decisions has been released by Council Chairman Bert Bennett in an effort to remind students of their obligations to the Honor System and to inform them of the way in which the Council works.

CASE 1

Facts: A freshman was suspected of stealing by his roommates. One morning one of the boys noticed that \$10 was missing from his wallet; he informed his two roommates of his loss. They also said that money had been taken from them. Due to certain conclusive evidence, it was obvious that one of three boys had stolen it and not someone from the outside. After having all three of the boys up before the council and listening to their testimony, one of the suspects admitted taking the money after first lying for about an hour. It so happened that he got up about five o'clock and took money from his roommates' pockets and also from his own saying that he was in desperate need of funds due to a loss in a poker game.

Decision and opinion: He was suspended indefinitely from the University for violation of the honor code. This does not mean that he can never re-enter the University; he, the council thinks, will be considered favorably, when he petitions the council for readmission. This boy was a freshman and consequently he was brought before the council at the beginning of school and warned about lying, cheating, and stealing. The council is of the sincere opinion that every member of the first year class is well aware of the obligation he has, under the honor system.

Movement Against Germans In Norway Led by Speaker

Harald Land, Norwegian underground leader and fugitive from the Nazis, is expected to "tell all" in his address to "tell all" in his address to the campus tomorrow night at 8:30 in Hill hall under the sponsorship of the International Relations club.

As a result of his part, and that of others like him, in organizing Norwegian school teachers into a non-cooperative bloc against the Germans, the schools have been closed. Official Nazi excuse for the act is fuel shortage, but actually, Land has explained, it is because teachers refuse to accept and teach Nazi dogma. Last March, 1400 teachers were arrested and sent to prison for this offense, and the schools shut down. An attempt

Men to Move Immediately For Officers

Monday Deadline Set for Exodus

By Walter Damtoft

Carr dormitory will be turned over by the University to the Navy immediately, R. B. House, dean of administration, announced yesterday, and present occupants must vacate it by February 15.

The decision to let the Pre-Flight school have the dormitory was reached yesterday after it was ascertained that priorities would be granted for the construction of barracks-like dormitories to house at least the number of students forced to move from Carr.

The Navy had earlier put in a request for the building because of cramped facilities caused by the transfer of the Naval V-5 indoctrination school formerly located at Annapolis to Carolina. This school, which is run in conjunction with the Pre-Flight school, trains many of the officers who staff the various other Pre-Flight schools throughout the nation and any others who are assigned as physical instructors to any sort of Naval unit.

Students now residing in Carr are being asked to move immediately to other dormitories and fraternity houses as the building must be vacated by Monday, February 15. The University business
