Mine Seizure Seen Possible By President

Other Statements Given at White House

Washington, May 2.—President Truman told a news conference today that the coal strike might become so serious as to constitute a strike against the government. Mr. Truman told reporters that he regarded the coal situation as very serious.

Mr. Truman was reminded that when the late President Roosevelt seized the coal mines, the United Mine Workers would not return to the pits. Asked what he was doing about this possibility, the Chief Executive said this situation would be met when it arose.

However, the President left little doubt in the minds of many listeners—though he never said so directly—that he would seize the mines if the strike continues much longer.

Asked how long the coal strike would have to continue before he ordered seizure, the President told reporters that his guess was as good as that of anyone else.

As for other disclosures at his press conference, the President said: one, that he is in no hurry to announce his supreme court appointments; two, he does not construe yesterday's testimony by Navy Secretary Forrestal as opposition to merger of the armed forces; three, he does not believe it will be necessary for him to step into the threatened rail strike; and four, he sees no prospect of a need for food rationing unless this country should suffer a disastrous crop failure.

Government Orders Cut In Railroad Service

Washington, May 2.—The government tonight ordered a sharp cut in railroad passenger service and complete elimination of non-essential freight, effective May 10th, because of the coal shortage.

Pannill Says No Promises Made to SP

Pannill, Heath Issue Differing Statements

By Bill Rutledge

The Student Party nominating committee last night broke up in confusion when it learned that Pete Pully, already nominated by the University Party for Student Body President, and also the leading candidate for the SP nomination, would have declined the SP bid if offered.

SP chairman Chuck Heath disclosed midway of the meeting that Pully had accepted the same nomination from the University Party, and "had gone back on his

word." Heath charged that "the hand that shook my hand has now stabbed me in the back."

Heath stated to the Party convention that he "wanted to apologize to the SP for being the instrument that conveyed Pully's promise to you."

Allan Pannill, chairman of the University Party, said late last night, "Pully concretely assured me that he had made no previous commitments to any other party." Pannill added, "I regret that Heath so obligated himself to his party that it was

Roy Armstrong, director of admissions, announced yesterday that the Housing committee of the University had formulated the plan for assignment of housing units after meetings with the present occupants of Alexander, Whitehead and Abernethy dorms and representatives of veteran organizations on the campus in which an effort to determine the fairest distribution possible, the Housing Committee adopted the following priority system:

Voting For First Day Indicates Constitution May Not Be Ratified

Early and incomplete returns of yesterday's first day of balloting on the proposed constitution indicated that the required two thirds approval would not be reached if the present trend continued.

According to Jack Hester, chairman of the elections committee, the vote in the YMCA yesterday was 374 in favor and 264 against, which, although a majority, lacks several votes of being the required two-thirds.

Returns from the women's dormitories and from Lenoir Hall have not as yet been tabulated but are expected to approximate the Y vote.

Today, the last day for voting, ballot boxes will be placed in the Y from 9 a. m. to 5 p. m. and at Stacy Dorm from 11 a. m.-2 p. m. and 5-7 p. m.
