House Passes Greek-Turkish Loan Proposal Measure Approved By Vote of 287-107

Washington, May 9—(UP)—The House tonight passed the Greek-Turkish aid bill in substantially the form requested by President Truman and approved by the Senate.

The controversial legislation was approved by a roll call vote of 287 to 107, by a coalition of Republican and Southern Democrats. The majority shouted down the protests of the opposition that passage meant "a declaration of war on Russia."

One GOP congressman told the cheering law-makers, "If Russia thinks this is a declaration of war let her make the most of it."

Amendments Defeated

Before putting its final okay on the bill, the House beat down one restrictive amendment after another. The climax of the fight was reached with the defeat of an amendment by Wisconsin Republican Lawrence Smith that would have turned the whole Mediterranean problem over to the UN. However, like the Senate version, the House bill invites the world organization to take over the program whenever it votes to do so.

This measure does not appropriate the full \$400,000,000 requested to carry out the program to bulwark Greece and Turkey against Communism. It does authorize the Reconstruction Finance Corporation to set up an interim credit of \$100,000,000 to be used until the full amount is voted by Congress.

Second Trip to Chair Ends Life of Convict

Saint Martinsville, La., May 9—(UP)—Willie Francis's second trip to the electric chair went off without a hitch this afternoon and the 18-year-old negro paid the penalty for murder. Willie was electrocuted in the same chair which failed to work a year ago.

Senate Adopts Bill Introduced by Taft

Washington, May 9—(UP)—The Senate has appointed Senator Taft's labor-bill amendment to permit employees and other injured parties to sue unions for damages resulting from jurisdictional strikes, secondary boycotts and some organizations walk-outs. The vote was 65 to 26.

Truman Calls Meeting Of 7 Cabinet Members

Washington, May 9—(UP)—President Truman has called an unusual conference of seven cabinet members to talk over labor legislation and the portal pay bill. The conference came a short time after the White House announced that Mr. Truman will act soon on the portal-to-portal issue.

Speedup Is Indicated In Strike Settlement

Washington, May 9—(UP)—Speedup measures are being applied to final negotiations in the rest of the telephone strike. Federal conciliators may ask representatives of the Western Electric company and its 42,000 strikers to stay in session over the weekend. The government ordered the move when picket lines continued to hold up returning phone workers in many sections.

Renault Workers Vote To End Auto Walkout

Paris, May 9—(UP)—Striking workers at the Renault auto plant in France have voted nearly two to one to return to work. It was this walkout which touched off the recent political crisis. The Communist party backed the wage demands of the auto workers in defiance of the government's wage-freezing program.

Student Body President Blames Few For Losing Their Heads in Campaign

Whisper campaigns and accompanying smear tactics which have beleaguered the University reputation as they have rolled from undercover during the last few days, yesterday brought a ringing statement from Student Body President Dewey Dorsett.

Cracking the whip over the heads of the anonymous guilty parties, Dorsett, said, "a few . . . ardent supporters have lost their heads in their enthusiasm and allowed these irrelevant factors to enter into their campaign talks."

His complete statement follows: "Through the first part of this week the elections campaign had been conducted on a high plane of fairness on the part of all parties concerned. In the past few days, however, vicious whispering campaigns have been going on which reflect a great discredit to the people responsible and stand to do harm to the entire student body and the University.

"The main issues at stake have been beclouded by rumors of an anti-semitic and anti-racial nature. I feel confident that the candidates concerned are not responsible for the instigation of these whispering campaigns, but that a few of their ardent supporters have lost their heads in their enthusiasm and allowed these irrelevant factors to enter into their campaign talk.

"Certainly it is agreed by all that these rumors have no basis in fact. I feel sure that the students will not be hoodwinked into believing such talk as this and that they will do everything in their power to stop immediately and further spreading of such rumors. The candidates for president of the student body and editor of the Daily Tar Heel are well qualified and capable men. They should be voted upon in light of their records, not on the basis of malicious rumors.

"The coming year has great possibilities for the betterment of student government on our campus. Let us enhance the attainment of this goal now by fair play and tolerance on the part of all students and enter the new year with a unity of purpose which will not be shaken by hatred and distrust."
