people who should go away. Not

them.)

# Frankie and Nellie

Once upon a time there was a big boss man named Unie Carol. He was a big and powerful man, kind, amiable, and famous for his liberal views. Now the symbol of all of his views was Frankie, an enormous tar baby. Almost every time that Unie Carol's name was mentioned so was Frankie's. Frankie was a symbol. He stood for the rights of all men, a liberal education and the good things in life. Frankie, also, was like a mascot. He was carted around from place to place-to conventions, and places of activity. On several occasions he was carted even to the White House to inspire the President. There was a certain quality about Frankie that inspired people to get things done. When Frankie was around, people had a tendency to do some deep thinking. They thought of things, some more worthwhile than others. \*

But Frankie, like all people who create thinking and tend to make people realize their mistakes, had some enemies. It was unfortunate, but, nevertheless, true that some people hated the things Frankie symbolized, and despised his guts.

One day Frankie was placed in his usual place of inspiration to Unie Carol when a disturbance took place. There was nothing extraordinary about the disturbance. A dame named Nellie, who was hunting for a battle, and she thought that a little argument with Frankie would make good conversation around the bridge table. So she approached the tar baby, who symbolized all of the high and liberal ideals of Unie Carol. and began. "I hear your boss Unie Carol wears red flannel underwear on cold days. Why a man such as he should wear only silk union suits. Do you deny this?"

Naturally Nellie, who was hunting for a battle to relate to her bridge club that met each week, expected Frankie to stand up for his boss, and immediately enter into a heated discussion. Nellie was disappointed. Frankie kept his lips tightly closed and ignored the question.

Nellie became furious. Never before had her questions been treated with such unconcern. She gave the tar baby a hearty slap on the face. It didn't even faze Frankie, but surprisingly with these corrections, it has a very pertinent enough her hand stuck to his face, and try as

# Quiet, But a Good Job

Gerrard hall was relatively quiet last night a resolution, which was passed unanimously and pletely pointless if you hold space and classroom space that Sage and Sandy Sherard and his crew in a walk-away.

#### hard as she could she was unable to pull herself away.

Nellie, who was seeking a battle, realized that she would be the laughing stock of her bridge some choice gossip and had, instead, come to play bridge with tar-stained hands. So she asked her question again. Not even a sign of a getting his grinning face on the a university. tremble was evident on Frankie's lips. So Nel cover of this week's Time maglie swung again. This time her other hand was azine, Mr. Sproul is notable for another reason. He would like merged firmly in the tar.

Nellie's anger sprung from its bounds, and she to get rid of half of the studen's kicked first with one foot and then the other. at the University of California But before each kick she screamed the same agree, is a notable admission for in Berkley. That, you will words, "Does he wear red flannel underwear a university president to make. when it gets cold?" Not a word, Frankie utter-In Time this week Mr. Sproul ed. With one last frantic effort she butted the was quoted this way (he was tar baby in the stomach with the only free move- addressing new students: ". . . there are 10,000 too many of ment left in her body.
