

# The Daily Tar Heel

THOUSANDS OF COAL CARS IDLED BY MINE WALKOUT  
STANDING EMPTY AND IDLE in the Columbus, Ohio, railroad yards are thousands of coal cars that normally are added to daily hauling their bituminous cargoes. Their numbers are added to daily as some 400,000 soft coal strikers stay away from their jobs following the recent walkout in dispute over pension benefits. (International)

## 'Planning and Reconstruction in Europe' To Be Subject of Noted Author's Speech

The opportunity to hear the views of the most distinguished European critic of socialistic economic planning will be provided in Chapel Hill in mid-April.

## Training Program Planned For Coeds

Plans are now under way for a Coed officers training program which will be held on April 14, 15, 16, following the announcement of the results of the general campus elections held yesterday.

The program is designed to give practical training to all newly elected coed officers and to impress upon them their responsibility in being a leader.

The program will be made up of a series of mass meetings, formal discussion groups, and a banquet at the Carolina Inn, climaxing the three-day occasion.

Members of the committee planning the program include the following: Ruth Evans, Bootsie McWilliams, Barbara Cashion, Betty Huston, Betty Long, Joyce Jones, Fernie Huges, Betsy Ann Barbee, and Sadie Pearson.

Those officers and social chairmen to be trained will consist of newly elected officers of Chi Delta Phi, CICA, Glee Club, Pan-Hellenic council, Stray Greeks, Theta Psi Epsilon, Town Girls Association, Woman's Athletic Association, Coed Senate, Honor Council, Inter-Dorm Council, and YWCA.

## President Graham Reiterates House's Stand, Says Whole Thing Is Matter of State Policy

By Roland Giduz

President Frank Graham yesterday reiterated the stand of Chancellor R. B. House regarding the application of three Negroes to graduate schools here.

"This involves a matter of state policy to which the state will give the answer," he stated. "The University does not make state policy. The applications will go to the Trustees who are agents of the State Legislature."

Names of the three applicants as released by the administration are: Dewey M. Clayton, Timberlake, applicant for the School of Medicine; and Harold Thomas Epps, Asheville, and James R. Walker, Statesville, both of whom are applying for transfers from the North Carolina College Law school at which they are now students, to the University Law school.

Though many requests for information have been made by Negroes, it is believed these are

the first formal applications to be filed since 1932. At that time Raymond Hocutt requested admission to the School of Pharmacy on the grounds he could not secure "separate but equal" training elsewhere in the state. Turned down in his plea for reasons of poor grades, Hocutt took the case to the Orange County Superior court where the verdict again went against him.

As far as could be discovered all three men are applying independently and with the backing of no special group. No stand on the matter is being taken by the students or administration in Chapel Hill, but authorities stated they have no facts to hide. They point to the fact that the State Constitution provides for two separate school systems, and thus they must abide by this until the State rules them to do otherwise.

Action the Executive Committee of the Board of Trustees would take in the matter was not

foreseen. They will merely receive the applications, at their meeting tentatively set May 17, and any further steps will be completely up to them or higher agents, it was explained.

Dean of the School of Medicine Walter Reece Berryhill said that around 800 applications have been received for the medical school in the class beginning next September and of these, 300 are state residents. The medical school faculty committee on admissions will accept no more than 56 of these. All applications are considered individually.

At present Clayton's medical school application stands incomplete. The only thing he has sent in is the filled-out application blank itself. A number of other papers are called for along with this. Directions on the blank state: "The School places the responsibility of completing an application for admission entirely upon the applicant."

# Dedmond Pulls Strong Lead As Trend Points To Run-Off With Long; Town Votes For Bonds

## Record 939 Votes Cast by Citizens On Bond Question

By R. W. Madry

Chapel Hill citizens gave the green light for a much-needed program of permanent improvements by an overwhelmingly favorable vote in today's \$260,000 bond election.

A record total of 939 votes for a municipal election were cast. Of these 760 voted for all of the four items requested, and only 33 voted against all of them.

### Ballot Breakdown

A breakdown of the four items showed that 876 voted for and 48 against enlargement and extension of the sanitary sewer system, including a new plant and improvement of the present plant, at an estimated cost of \$425,000, of which the University will pay \$225,000.

Favoring the street program, calling for construction of new streets and seal-coasting of others, were 818 against 86. Authorized for these items were \$35,000.

A total of 798 voted for and 92 against bonds for equipment for street improvement and maintenance and for garbage collection and disposal, calling for \$23,6000 in bonds, and 799 voted for and 93 against a \$1,400 item for other equipment for the labor force and town manager's office.

### To Get Underway

Town officials said the program would get underway as soon as possible. Bonds cannot be issued for 30 days. Construction of the new sewerage plant will require a year to 18 months. The street program should be carried out during the spring and summer.

Mayor R. W. Madry said the success of the election was due in large measure to the effective work of the Citizens Committee headed by Judge L. J. Phipps, the Community Council, headed by Mrs. U. T. Holmes, and the League of Women Voters, headed by Mrs. John Gillin.

## Playmakers Plan French Romance Of 16th Century

Alexander Dumas' "Henri III et Sa Cour," the first great success of the French romantic theatre, will be presented in the original French for the first time in America at the Playmaker Theatre on April 22 by Le Cercle Francais.

The cast for this dramatization of life at the dissolute French court of the late 16th century is composed of members of Le Cercle Francais. The play is being rehearsed daily under the direction of Walter D. Creech of the Romance Language department.

The members of the cast include Genevieve Fauther, Jean Riden, Elizabeth Thomas, Lib Savage, Dr. Urban T. Holmes, Otis Beeson, Joe Hutchinson, Phillip Kennedy, Robert Walker, Robert Ellington, Ed Duke, Bill Baskin, Robert Hooper, and Wesley Collier.

This historical melodrama was first produced in 1829 and had a great influence in popularizing the romantic trend in the theatre.

## Polgar Demonstrates Hypnotic Ability; Causes Students to Entertain Audience

By Sally Woodhull

Annie Ben Beale as a charming four year old was the star of the demonstration of hypnotism given Monday night by Dr. Franz Polgar in Memorial hall, under the sponsorship of the Student Entertainment committee.

Amid flying political propo-

ganda, and the rhythmic clapping of a large and eager audience, Polgar began his show with a memory feat which, though not completely successful, seemed to go over well with the audience. He claimed that the trick was done through memory and concentration, and that one of the most difficult parts was forgetting it after each performance.

### Finds His Check

For his demonstration of mental telepathy, Polgar found, by the use of mental directions from a student, his check for the performance, hidden in the shoe of coed Janet Crinkley. It was at the suggestion of members of the audience that the object hidden was the check, and if the stunt had proved unsuccessful, he was to have gone without pay for the show.

Polgar was unable to take the mental directions from his first collaborator, who was thinking in a foreign language, but on the second attempt he located the envelope containing the valuable paper fairly easily.

### Answers questions

Preceding his demonstration of hypnotism, Polgar opened the floor to questions from the audience. In answering a question he insisted that there is no mystery about hypnosis, that it is a scientific process used in medicine. He also stated that hypnosis could be used to influence a person to commit a crime, and that he believed it could be employed to re-

(See POLGAR, page 4)

## Peace Conference Will Hear Concluding Address Tonight

Dr. Ervin P. Hexner, legal advisor to the International Monetary fund and formerly professor of political science at the University, will speak tonight at 8:30 in Gerrard hall on "Peace Through Economic Recovery."

## Strain, Koehnline Chosen To Attend U N Seminar Meet

Ed Strain and Bill Koehnline have been selected by the YMCA to represent the University at the United Nations seminar to be held in New York and Lake Success today, Friday and Saturday.

Strain, junior commerce student, and Koehnline, special student in English, will visit the Security council and special committees of the UN, and will attend a tea at the headquarters of the National Student YMCA.

The seminar is the first of two which are scheduled for this year under the auspices of the National Intercollegiate Christian council. This group is a representative council authorized by the national board of the YWCA, the national council of Student YMCA's and by Regional Student Christian movement affiliated with the World's Student Christian federation.

To enable students to gain an understanding of world problems that can only be obtained on the scene of action is the purpose of the seminars. This aim will be fostered in discussions of the history and development of the UN and by constructive appraisal of the UN.

## European Eye Doctor Will Lecture Tonight

Dr. Frederick W. Stocker, eminent European specialist in eye diseases now practicing ophthalmology at McPherson's hospital in Durham, will present an illustrated lecture on the "Method and Significance of Transplanting Corneas" tomorrow evening at 8 o'clock in the Medical building auditorium.

The lecture is being sponsored by the Beta Iota chapter of the professional medical fraternity, Alpha Kappa Kappa, and is under the auspices of the Eye Bank for Sight Restoration.

Spokesmen for the medical fraternity said the lecture is being given to show the means by which the nation-wide system of eye banks are being used to restore the sight of those blind who have corneal defects. The lecture is open to all interested.

## Durham Pilot Spots Wreckage Of Monoplane Near Hillsboro

By United Press

Hillsboro, April 6 — Wreckage of a Cessna monoplane in which two Durham pilots vanished March 23 was reported found from the air today 10 miles southwest of here.

The wreckage was reported found from the air today by a Durham pilot who was flying over Orange county.

### Headed for Louisiana

Dan W. Bryan and Phillip Pearson disappeared March 23 after leaving on a flight for Monroe, La. They planned to refuel at Gainsville, Ga., but were not reported at either place.

Bryan, a veteran Durham pilot, was an air service operator. His companion, Pearson, was a GI

aviation trainee.

### Only Got 30 Miles

The wreckage of their plane was seen barely 30 miles from the start of their ill-fated flight. First reports say there is no sign of life at the wreckage, but ground searching parties haven't reached the site.

The Orange county coroner and sheriff's deputies have gone to the scene, 10 miles south of Hillsboro where the wreckage of a missing plane has been reported.

Army Air Rescue planes and Civil Air Patrol craft searched thousands of square miles along the supposed route of the flight without finding a trace of the missing silver Cessna.

## Total Vote Unofficially Set at 3,238 While Tabulations Come in Slowly

By Chuck Hauser

Jess Dedmond was pushing a majority for the presidency of the student body last night, with Charlie Long crowding into second place and Mike Rubish and Dick Manning dropping behind at even intervals.

The ballot-counting, taking place on the second floor of Graham Memorial, was going extremely slowly for the major offices, with only Alderman and Ruffin polling places complete, a few returns in from Aycock, and Gerrard hall tabulations looking farther away every minute.

Unofficial sources released the total vote as 3,238, with Gerrard hall accounting for 1,866, Alderman dormitory for 273, Aycock dorm for 733 and Ruffin dorm for 396.

Latest tabulations shortly after midnight gave Dedmond (CP-UP) 443 votes, Long (Ind.) 248, Mike Rubish (SP) 138 and Dick Manning (Ind.) 93. Dedmond and Long took first and second places, respectively, at each of the polls counted, incomplete returns being in from Ruffin, Aycock, and Alderman. Rubish led Manning in Ruffin and Aycock, but the independent candidate pulled away from him in Alderman.

In the vice-presidential race, Jim Godwin (CP-SP) was ahead of Johnny Clappitt (UP) by a vote of 170 to 121, with no town votes having been tabulated yet.

Bob Kirby (UP) was leading in the secretary-treasurer running with 362 over Gran Childress (SP) 320 and Earl Fitzgerald (CP) 195. The race between Ed Joyner, the triply endorsed CP-SP-UP candidate, was closer than expected, with the total hitting 439 to 203. Joyner took 209 votes at the Ruffin polls while Melton pulled down 162. In Alderman Joyner triumphed with a trouncing 230 ballots to Melton's 41.

Gene Blake, nominee of the Student and Campus parties, was holding a lead over UP-backed Bill Duncan in the Ruffin balloting, with a vote of 176 to 156. The editorship of Tarnation pointed to a run-off between Charlie Gibson (CP) and the Tom Wharton-Bob Smith UP combination, if the Ruffin balloting was at all indicative of the final results. Gibson held a strong majority in Alderman. The Ruffin count was 123 for Gibson, 157 for Wharton-Smith, 50 for Tom Kerr (SP) and 33 for Fred Burgess. In Alderman the tabulations said 103 for Gibson, 83 for Wharton-Smith, 59 for Kerr and 14 for Burgess. Totals: Gibson—226, Wharton-Smith—240, Kerr—109, Burgess—47.

With only Ruffin polls ballots being counted, Norm Sper on the Student party ticket led the cheerleader with 204 votes to Charlie Stancell's 137 on UP and Jerry Pence's 29 independent votes.

Legislative authority would go to a senate composed of two representatives from each member nation and to an assembly with its membership based upon population. This legislature would set up a court system to enforce its own laws and elect a Premier as chief executive of the union.

Edith Knight, junior coed from New Orleans, La., received an invitation yesterday from the College Board Editor of Mademoiselle to attend the Fifth Annual College Forum in New York City on April 24.

Edie is one of 50 outstanding students throughout the United States to be chosen for this honor. The topic for the forum will be the European Recovery Program, and the convention will be held in the Hotel Commodore.

A major in South American affairs, Edie attended Smith college for two years, and since coming to Carolina has been active in campus affairs here.

She is chairman of the CCUN, member of the Alpha Delta Pi, YWCA junior council, Di Senate, Finance committee of the World Peace forum to be held today, and representative to the Pan-Hellenic council for next year.

She is a member of the Student Legislature, chairman of its Coed affairs committee, and on the elections committee. Edie is also a member of the Canterbury club and on the Student Vestry of the Episcopal church.

Students and townspeople are invited to attend the course which will be non-competitive in nature and is directed, primarily, toward acquainting students with enough knowledge of parliamentary procedure to enable them to conduct meetings efficiently.

Efforts will be made to terminate the lectures after approximately one hour of instruction at each meeting.

## Parliamentary Course Will Start Tomorrow

The Political Science department will inaugurate a non-credit course in Parliamentary Procedure on Thursday night at 7 o'clock in Room 105 Caldwell.

The course will be taught by Mr. R. H. Gleicher of the Political Science department and is designed to acquaint students with parliamentary practice and problems.

Students and townspeople are invited to attend the course which will be non-competitive in nature and is directed, primarily, toward acquainting students with enough knowledge of parliamentary procedure to enable them to conduct meetings efficiently.

Efforts will be made to terminate the lectures after approximately one hour of instruction at each meeting.
