An All-Day Sucker for You

After you scream, yell and holler about people getting out and voting, you are inclined to get a little weary of the subject. Yet, after you finish your yelling, you discover that out of a student body of nearly 7,000 students only a few over half have marked their ballots.

Why? First of all, it is a marked sign that the average student doesn't give a tinkers dam about his student government. Then, it is a sign that the leaders in student government have failed in their task of impressing the importance of voting on the student public.

Tuesday, the runoffs from the spring elections will be held. As a rule, the turnout for runoffs does not compare with the interest shown in major elections. This is unforunate, for in the runoffs, the final decisions are made as to who will officially take the reins in leading campus affairs next year.

It is not important who the individual student votes for. Any candidate who has ever run for office will willingly agree that they will bow to the majority of the voters-if it is a majority. There is no such effect obtained, however, when barely half of the student body votes.

It seems ridiculous to have to beg your fellow students to vote in elections. It is also definitely discouraging. From all obvious indications, it wouldn't do much good to beg anyway. Maybe, if the elections board offered an all-davsucker to each man or woman who turns out at the polling place, the response would be more gratifying. Until the legislature appropriates enough money for them, however we will still have to depend on the individual student to obtain-by one means or another-the interest or initiative to find his way to the polls and express his choice for his student leaders.

When three-fourths of the student body turns out for elections, then the leaders-and editorial writers-will change their favorite song for another tune. Until they do, however, we will continue screaming and yelling and hollering about more interest among the students.—B.B.

Got a communication from publicity-minded Crosley Motors the other day. One-track minds who sent it, wrote: Daily Car Heel.

With so much jockeying for the 1948 Republican nomination, and so many dark horses around, people must be really concerned about the possibility of a stable government. -ACP Business Review

Just Here

Busy Not Thyself In Matters...

By Larry Berry

Congratulations to you who have been elected, a prayer of Thanksgiving in memory of those who tried, and sweet dreams to those consigned to the run-off.

Last week I stressed the need of a tutorial system for the University and was gratified at the responses received. A letter to the Tar Heel gave the plan of a much better system than I had indicated. So far I have not been able to get any action going on a tutorial plan, but I am starting this week. I sincerely hope that all of you will help toward the goal of a college education for every Carolina graduate. This need not be as painful as it sounds to many degree seekers.

When Carolina returned to its peace-time function as a University, many problems began to manifest themselves for students and faculty alike; long lines, increased prices, and crowded classrooms were among them. Gradually they gained precedence over most of the other bits of matter in this state of flux roving in the brain, so that now many of us have become problems. I do not mean in the educational sense. but in a psychological one. Examples of this student for psychology's sake are as numerous

Dedmond Takes Lead in Poll

All good tennis players probably tended the meeting express the

By Pete Gerns

Run-off elections will be held next Tuesday at the same polling places where the student body voted last Tuesday.

Still in the presidency race are Jess Dedmond, CP-UP, and Charles Long, Ind; Childress, SP, and Kirby, UP, will be fighting it out for the secretary-treasurer, while Sper, SP and Stancell, UP are fighting for head cheerleader.

Campus forum again took a poll to find out how the vote will most likely go for these positions. The poll was taken at the Y and at Lenoir. One hundred students

were asked "How will you cast your vote on Tuesday?". Sixty-five per cent of the hundred students were questioned in the Y, the remaining 35 per cent were asked in Le-
