Cleans (Periodical Cept.) enlieved (rect to willers)

A Coke Machine For Nash

I am writing to express the protest and regret of the resident

of Miller and Nash Halls concerning the recent removal of Cora-

Cola dispensing machines from these two halls, by University

officials. At the same time, I would like to pass along another also

that has been in my mind since I saw a Coke dispenser installed

in Lenoir Hall for the workers. Certain uproar in the Write Away

column has delayed my saying that I think Coke machines shoul

be established in each dorm. Now the five days of having a Color

dispenser at hand has reaffirmed my conviction that they are very

handy to have around. Particularly were they convenient here

where the open living conditions prevent each person from keep

I do not know why the dispensers were taken away from these

two places. They were self-sufficient and certainly not so distur-

bing as the vendors who come around, parading nightly through

the bunks and at one time into the study hall. I suppose that per-

haps the profits weren't going where they should. This doesn't

matter to us. Whoever gets the paltry profit, WE WANT THE

COKE DISPENSERS BACK. It is my understanding that Cokes

and other items are sold in the women's dorms. I do not see how

the Coke dispensers were any more in violation of the Umstruct

I believe that if sufficient interest is shown in having the many

chines installed, or at least a reason given as to why they can not

be installed, we have Coca-Cola dispensers placed in every dome

Consider the convenience of just going down stairs and feeding

a nickel to a machine to get that "Pause that refreshes," and let

keep on talking until we get dispensers or know the reason why

Hope no one finds this letter "nauseating" or "contained

charges" just because Coke dispensers are red. Perhaps the "red

color was the reason the University officials removed the de-

Paint them blue if you wish, but they are a real convenience

and we deserve and want them.

Dear Editor:

Write Away

VE, 1945 And Today

Expeditionary Forces flashed the for nothing. and blondes.

At first there was a lot of talk about forgotten veterans. Memories of the bread lines from the first world war were revived. It didn't take long for the boys to realize that the living vets would be remembered, so they setttled down to cashing government checks and doing some forgetting of their own. In brief they forgot the fellows who didn't come back. The boys bought a piece of of goods which hasn't been delivered and from the looks of the

dog faces would say if they could pelled pogo stick. The time has come home and see what their come for the veterans to stand up buddies have bought for him. Do on his hind legs and say that he you suppose he would like our is tired of war and the damn USA today where a man has to fools with super egoes who start think twice before he speaks a them. The sands of time are runconviction lest he be put in the ning out and Atomic War I is "wrong" bracket of ism. He would coming closer. The vets have a probably go for this business of duty to do and the word failure condemning everyone who does will be spelled "Greetings". So not believe in the "right type of when and if the Greetings come one hundred percent American- don't look around for someone to ism", and he would no doubt blame it on, buddy, just take one join some of the "blue blooded long look in the nearest mirror. groups who know just the right That's right, fellow, he's the type of people to let into the cause of this damn war. Don't let country, as immigrants. Pit And The Pendulum

These Civil Rights

By Raney Stanford

It has been estimated that by this time over 60 per cent of the Southern people have heard of the report of the President's Committee on civil rights, but one wonders how many of us actually know what the report says, the facts the report is based on and the recommandations it makes. Too many of us are probably like Cotton-Eyed Joe who angrily dismisses the whole thing as "a bunch of dam' Yankee stuff (I believe that was the word he used), I'm agin it." and let it go at that.

This report was made by a 16-man group of civic leaders in accordance with a request by President Truman to recommend legislation to correct various descriminatory practices. The group, consisting of Charles E. Wilson, Sadie T. Alexander, John B. Carey, John S. Dickey, Morris L. Ernst, Roland B. Gittelsohn, Frank P. Graham, Rev. Francis J. Haas, Charles Luckman, Francis P. Matthews, Franklin D. Roosevelt, Jr., Rev. Henry Knox Sherrill, Boris Shishkin, Dorothy Tilly, and Channing Tobias, wrote a logical concise report that has been in the public eye more or less since its release early in the year.

We cannot begin to show in this brief space the details and dirty corners the Committee explores and exposes, it is only to be hoped that all will secure a copy of the report and see for themselves. (and we do not mean all interested, we mean all.) All we can hope to do is outline some of the more outstanding points in the work in an effort to give Committee Chairman Wilson the "fair hearing . . . and serious discussion" that he requests.

Starting from the basic premises that "all men are brothers, and each man is his brother's keeper" the Committee has divided the essential rights of a citizen into four categories; the right to safety and security of the person, the right to citizenship and its privileges, the right to freedom of conscience and expression, and the right to equality of opportunity. They explore the past record of the American people as to the treatment of peoples that are "different", present injustices, outlooks for the future, and then make suggestions to safeguard the four rights mentioned.

"A minority," says the Committee, "broadly defined, is a group which is treated or which regards itself as a people apart. It is distinguihed by cultural or physical characteristics, or both." Breaking this definition down one comes

By Bill Robertson

a translation of a report by Mao Tse-Tung,

Chinese Communist leader. In this report Mao

Tse-Tung makes a detailed analysis of the po-

litical, economic and military situation in China.

We should like to quote a sentence or two from

both the beginning and end in order to give

the reader the "flavor" of this report which

is very sweet and pleasant. The quotation

This is a turning-point in history . . . from

growth to extermination of the counter-revo-

lutionary rule of Chiang Kai-shek . . . This is

a great event . . . because it occurs in a country

of 450,000,000 people, and because it occurs in

the eastern part of the world where there is

a population totaling more than a billion (half

of mankind) suffering from the oppression of

And here is the quotation from the end of the

All viewpoints which overestimate the

strength of the enemy and underestimate the

strength of the people are erroneous. Together

with the democratic forces of the whole world

we need only exert our efforts and we can . . .

block a third world war so that it cannot take

place (emphasis ours, B. R.) overthrow the

oppression of all reactionaries, and win the vic-

Recently there has appeared in our country

This Changing World

to the various religious minorities the Catholics and Jews predominating. There are cultral minorities consisting of people with different ancestral backgrounds. And then there are racial differences, with the largest factor here being the American Negro. But the Committee also points out the four million Mexicans in the United States, the 400,000 Indians, the Chinese, Japanese, Filipinos, Puerto Ricans and Hispanos of New Mexico as groups often descriminated against in the various parts of the country wherein they reside, groups that are often more or less overlooked by people working on this pro-

In proposing legislation to correct the abuses. of what in many instances seem to be fundamental prejudices the Committee holds that the "achievement of full civil rights in law may do as much to end prejudice as the end of prejudice may do to achieve full civil rights." And laws can remove the visible monifastations of descrimination as well as inform and educate the

And it is up to the national government to assume the leadership in an American civil rights program "because there is much in the field of civil rights that it is squarely responsible for in its own direct dealings with millions

The Committee lists several important actions that can be taken legally to further the ends of their report; prominent among which are the restyling of the Civil Rights Section of the Department of Justice, the enactment of an an antilynching law, the abolition of poll taxes and other voting descriminations, removal of many citizenship handicaps, the passage of a federal Fair Employment Act and the elimination of segregation.

In speaking of segregation it is interesting to note the figures the Committee has gathered to show that the more different races know of each other, the less prejudice there is. "There is no adequate defense of segregation," the Committee states. They say that it is inconsistent with American ideals, that the "seperate but equal "solution" is bunk; the races are not equal, groups have less facilities than others and are branded as inferior. And finally there is "incontrovertible evidence that an environment favorable to civil rights is fostered whenever groups are permitted to live and work to-

to THEIR swan-songs!

Bourbons? Ain't it the truth?

In past articles we have more than hinted at

numerous inconveniences as a resident of Miller Hall, I was overjoyed, as were my 100 roommates, at the installation of a Cokemachine in Miller and Nash Halls. This was very convenient when you consider that Miller and Nash are probably the most remote of all University housing units. No longer did we have to trudge to the Scuttlebutt for a Coke. No longer when we were studying at night did we have to dress and walk uptown through the rain to pick up a midnight snack. Instead of the half-hour break in our studies we could be refreshed and back to our studies in less than

But now the University officials have taken it away, much to the sorrow of the occupants of Miller and Nash halls. If the University is afraid of the profit made by a private concern, why can't they install some of their own? The popularity of these machines has been proved by the fact that the machine has sold out each night. I think that some of the many officers we electe should investigate this situation and act to get coke machines not only for Miller and Nash, but for all dorms.

W. Norman Booker

Erie Cofield

(Editor's note: According to the Purchasing department, a university regulation prohibits the putting of vending machines of any kind in Men's Dorm. The Coke machines were placed in Miller and Nash without permission or sanction of South Building and had to be removed when they were discovered.

The machines in the Women's dorms are placed there by the YWCA and each machine is supervised by a coed. Profits from these machines go to the "Y".)

"Common-ism" --- Democracy

By C. Renyoz

"The free choice system of mate selection no longer works well," says an Ohio State University Professor. "In our mobile society it brings together in marriage couples who lack common background and are incompatible."

It is obvious to the thinking person of today that the old mating system, motivated solely by an animal urge which is a hold-over from the period of man's evolution, will have to go! The man of the future, when he decides he wants an heir, will simply take down his male order catalogue and fill out the blank, stating size and color, and whether or not he wishes to skirt the issue. Character traits will be rationed, but everyone will have the opportunity to get genes with the light brown hair.

In the atomic age, there will still be a few using the standard dodge, "He swore it was artificial respiration," but the majority of us will be singing, "It couldn't have been me!"

The America of tomorrow will have a fifth freedom, and already the propaganda campaign has begun to prepare us for the new Emancipation Proclamation. Freedom of Fear of Sterilization! Artificial insemination may prove the means of propagation to save the nation. If you want your yearly ration, state your name and occupation, and have your form filled out at the nearest station. (Or will they find a way to beat inflation?) Be sure to follow the regulations. This may prove the new sensation, but it'll sure play hell with race relations, but can modern man resist temptation for the good of the whole?

Anyway, it will give night baseball a new chance to replace sex!
