## March Of Dimes Funds Sought In Polio Battle

North Carolina chapters of the National Foundation for Infantile Paralysis were asked yesterday to pool 50 percent of their March of Dimes funds for a centralized fight against polio in this state.

The request was made in a letter to the state's 100 National Foundation chapters by the recently formed "North Carolina Epidemic Fund Committee."

The committee consists of three chapter chairmen and is charged with the responsibilities "for receiving funds and for disbursing such funds to chapters needing financial assistance in carrying on the medical care program for infantile paralysis patients."

Philip S. Randolph, state epidemic coordinator for the National Foundation, will act as executive secretary for the committee.

"By this means," Randolph said, "the chapters will unite in coping with the current emergency. The chapters are the ones who raise our funds and they will also be the ones who spend them."

"North Carolina chapters have made tremendous progress since the disastrous epidemic of 1944. Their organization has reached a state where it is possible for them to take over complete responsibility for meeting an emergency of this sort."

The new fund will be administered by Paul Butler of the North Carolina Power and Light Company, Moore county chairman; Earl Franklin, U. S. Marshall, Burke county chairman, and Rex Edison, of the T. H. Bess Company, Gastonia, Gaston county chairman.

## Quiz Program Has \$52 Jackpot

If the jackpot at the University Veteran's Association's regular open house keeps building up it will soon rival the \$64 question on the "Take It or Leave It" program.

And just because it is the UVA's club house, and sponsored by the UVA doesn't mean that just vets are welcome. In fact, just the opposite is the rule. The open house is open to all students whether vet or not.

The quiz show tomorrow night (See UVA QUIZ, page 4)

## Measure to Establish Order of Ascendancy To President Passed

A hurriedly acting Student Legislature in a special session last Thursday night passed a bill to establish the order of ascendancy to the duties of president of the student body in the absence of both the president and vice-president.

### First in Line For Office

The secretary-treasurer of the student body was named first in line for the presidential duties by the new piece of legislation, as it was passed, with the parliamentarian of the Student Legislature second, the chairman of the Ways and Means committee of the Student Legislature third, and chairman of the Rules committee of the Legislature fourth.

As originally written the bill called for the speaker pro-tempore of the Legislature to be second in line for ascension to the high post, but this provision was struck out of the measure while it was in the hands of the Ways and Means committee. Another change made by the committee gave the officer acting in the president's position the power to veto. The bill when introduced, denied him this power.

### No Proxies Accepted

Guarding against the possibility that some person not elected by the student body should get the duties of president, the legislation stipulates that no proxy of one of the officers mentioned as presidential successors would be eligible for the position. The officer next in line will take the duties.

A de-glamourization article was attached to the end of the bill, stating that any person performing the duties of the top student officer will continue to use his own official title and not the title of president of the student body.

Also on the agenda for the rushed session was a bill appropriating \$40 to pay for the registration fees of five delegates to the National Student Association convention which is to be held in Madison, Wisconsin, August 23 through August 28.

### Cunningham Objects

The measure met strong objections from Tom Cunningham, who stated that a prior bill passed by the Student Legislature appropriated \$241 for the purpose of the University's joining the National Student Association and stipulated that only three delegates should be appointed by the president of the student body. His objections were brushed aside and the proponents of the measure, acting in rapid-fire order, shoved the bill through.

(A copy of the legislation to which Cunningham was referring was shown to the Daily Tar Heel yesterday by acting speaker of the Student Legislature George Rodman. The bill allows the president of the student body to appoint additional delegates if he chooses.)

## "All My Sons" in First Showing Tomorrow

### By Violet LaRue

The curtain will rise on the Carolina Playmaker production, "All My Sons", at 8:30 tomorrow night. After weeks of work and sweat the director and his cast and stage crew will present their audience with a first class production.

Much publicity and praise are given to the cast and to the director, but it is seldom that the hard-working, less glamorous workers on the production are given any thanks or appreciation for all the work which they have done. The stage crew and costumers are vital to the production and should be given as much praise as the actors.

The backstage crews have been working day and night in order

## Health Authority Says to Continue Usual Way of Life

### By Vestal C. Taylor

In an interview with this reporter last Friday Morning, Dr. O. D. Garvin, District Health Officer for the Orange, Person and Chatham county district, issued the following statement for publication, concerning the Poliomyelitis epidemic. "I strongly recommend and urge that everyone remain here unless it becomes absolutely necessary for them to go elsewhere. Do not invite persons from other sections of the state to come here for visits."

Dr. Garvin particularly directed this message to the residents of Victory Village and to all other married students with small children.

He went on to advise against sending children and wives home to parents or friends in other parts of the state, since the rate of polio in other sections is usually much higher than here in Chapel Hill, and the likelihood of exposure is much greater in the new surroundings. On the other hand, Dr. Garvin pointed out, anyone leaving this area and going to an area heretofore uninfected will be likely to carry the disease with him.

"Since the polio has struck us, we can't run away from it now," Dr. Garvin said, "It is much better to continue our normal way of life here."

Dr. Garvin urged all persons to treat all fevers not yet diagnosed as polio and go to bed, but not to take any medicine for protection. "There is no known spray, gargle or medicine for poliomyelitis," he said.

All of the scenery for the play was made from "odds and ends" of other sets. When you see the set, you may be looking at a bit of rejuvenated scenery from "Saint Joan" or "Enemy of the People". The awnings that you will see are bits of borrowed property painted a duller shade in order to keep the glare out of your eyes. Also you will see "ivy by moonlight"—this is one of Bob Eberle's pet inventions.
