Trustee Committee Backs Tuition Raise

—Staff photo by Mills

THE STAINLESS STEEL DOME of the Morehead planetarium will represent the heavens when the chamber begins actual demonstrations. The workman in the picture above is touching up the welded joints of the dome. When the building is open, the stars will be projected on the dome through the revolving instrument placed in the center of the floor.

Planetarium Will Be Run By Marshall

Has Experience From Adler, Fels

(Special to the Daily Tar Heel)
RALEIGH, Feb. 16—Dr. Roy K. Marshall, former director of the Fels planetarium in Philadelphia, was approved by the executive committee of the Board of Trustees yesterday as new director of the Morehead planetarium at the University of North Carolina.

A native of Illinois, Dr. Marshall graduated from Ohio Wesleyan university and in 1930 received his M.A. in astro-physics from the University of Michigan where he received his Ph. D. in astronomy in 1932. That year he accepted appointment as guest demonstrator-lecturer at the Alder planetarium in Chicago in the absence of the director.

Two years later he went to the Yerkes observatory at the University of Chicago to measure spectograms of Class A stars. The results of his work were published in Astrophysical Journal.

Young GOP Club To Meet Tonight

The Young Republicans club will hold a brief meeting in Roland Parker lounge 2 of Graham Memorial tonight at 7:30. President Bill Hipple announced yesterday.

The purpose of the meeting will be to adopt a program "by which the aims of the Republican party in North Carolina can be adequately and forcefully presented to the student body," Hipple said.

Plans for conducting public forums on current national and state political issues will be the major item on the agenda. The possibility of bringing a series of prominent Republican speakers to the campus will also be considered.

Speech by Avey Planned Tonight

"Where is Philosophy Leading Us?" will be the topic of a lecture to be given by Prof. Albert Avey, chairman of the department of philosophy at Ohio State university, tonight at 8 o'clock in Gerrard hall.

Prof. Avey will also address a seminar group of philosophy staff members and graduate students from the University and Duke tomorrow evening on "The Present Status of Idealism."

Education Meeting To Be Held Today

The Education department will present the first in a series of meetings this week at 4 o'clock this afternoon in the curriculum laboratory of Peabody hall.

The featured speaker will be authoress Betty Smith who will discuss her latest book Tomorrow Will Be Better.

Survey to Ascertain Local Interest In Thomas Wolfe Memorial Is Taken

A survey to find out if interest in Thomas Wolfe, famous writer and former University student, is sufficiently strong to warrant a memorial to Wolfe is now being conducted by a New York firm for the Thomas Wolfe Memorial association.

A representative of the firm, Leonard Wood, left Chapel Hill yesterday afternoon after a two-day visit here during which he spoke with many prominent Chapel Hill residents.

Questionnaires which Wood

LADDIE TERRELL (right), president of the Monogram club, presents a check for \$1,005 from the Monogram-wearers to E. Carrington Smith (left) for the March of Dimes. Smith accepted the check as chairman of the Orange county March of Dimes campaign. In the center, looking on, is Phillip S. Randolph, state representative for the National Foundation for the Prevention of Infantile Paralysis. Last summer Randolph served as epidemic coordinator for North Carolina during the worst polio epidemic in the state's history.

Legislature To Consider Eight Measures Tonight

The Student legislature will consider seven bills and one resolution at tonight's session in Di hall. The measures include three amendments to election laws, and one constitutional amendment.

Authorities Say Nylon-Destroyer Could Be Worse

JACKSONVILLE, Fla., Feb. 16—(UP)—An airborne irritant cost a few more Jacksonville lasses their nylons today but authorities said they were lucky they still have their health.

Dr. W. W. Rogers, city health officer, said that the conditions may be similar to those in Donora, Pa., recently when a "death fog" seared lungs and caused death in asthmatic victims.

The soot particles that apparently carry sulphurous, nylon-attacking acid here fortunately cannot be inhaled, Rogers said.

A certain degree of moisture in the air converts the sulphuric waste into acid in a rare combination of conditions such as that at Donora, he added.

"It probably won't happen again in a coon's age," Rogers said. "But if it does it won't be a tragedy because there is so much dilution here. But it ought to point out to people in a congested community to be careful about what they turn loose into the air."

The state board of Health's industrial hygiene division examined some of the shredded stockings under a microscope today and found a tiny soot particle at each hole in the texture.

Election law amendments include:

1. A bill providing for the location of six polling places, and outlining proper places for students to vote.

2. A bill to make the Elections board responsible for printing and proofreading election ballots.

3. A bill setting forth the responsibilities and duties of election monitors.

The constitutional law amendment provides that amendments will be added to the end of the constitution.

Other bills include appropriations to the Student Entertainment committee for \$1160.60 and to the National Students' association for \$227.

The resolution would put the legislature on record favoring soft drink vending machines in men's dormitories and providing for the appointment of a legislative committee to work on the project.

Two to One

Voluntary Subscription Bill Voted Down by Phi Assembly

A proposal to finance student publications by voluntary subscriptions in place of compulsory fees was voted down 12 to 6 in the Phi hall Tuesday night.

A substitute resolution by Jonathan Marshall which would have provided that the student legislature appropriate no more than 50 per cent of the publications' funds was defeated 18 to 1.

Bill Duncan, editor of Yackety Yack, favored voluntary subscriptions. He contended that money passing through South Building had a taint of socialism.

Tom Wharton, co-editor of Tarnation, speaking of the difficulties of soliciting advertisements, expressed the opinion that his magazine would either have to get as "dirty" as State's Wau-taughan or pass out of existence if denied appropriations.

Board's Executive Group Casts Vote Unanimously

Resolution Looks Forward to Time When Conditions Will Permit Drop

(Special to the Daily Tar Heel)

RALEIGH, Feb. 16—The Executive committee of the Board of Trustees today unanimously went on record as favoring an increase in tuition rates at the three branches of the Greater University of North Carolina.

Debaters Hold Meet at Duke; Georgia Today

Squad Schedules Elon College Next

Following up a non-decision debate with Duke university yesterday afternoon, the varsity debate squad will meet the University of Georgia at 7:30 tonight in Phi hall in New East building.

Tomorrow the squad will go to Elon college, accompanied by the junior varsity and freshman debate teams.

The varsity squad is composed of Herbert Yates and Dave Pittman (affirmative) and Herb Mitchell and Paul Roth (negative). Emily Baker substituted for Mitchell in yesterday's tangle with Duke.

Chairman Earl Fitzgerald of the debate council yesterday announced an innovation in inter-collegiate debating with the selection of a faculty panel of judges to sit at varsity debates.

The permanent council consisting of 24 heads of departments and leading professors from those departments was picked with an eye toward "outstanding debating interests and abilities," Fitzgerald said.

The permanent panel members, and their departments are: Dean C. P. Spruill, economics; Dean Fred Weaver, general administration, Dean Robert Wet-tach, Law school and Dean E. L. Mackie, mathematics.

Dr. A. G. Engstrom, french; Roy Armstrong and C. E. Teague, general administration; Dr. C. B. Robson and Donald White-head, political science; Dr. C. C. Dr. A. G. Engstrom, French; Earl Wynn, radio; N. W. Mattis, speech; Drs. W. C. Ryan and Guy Phillips, education.

The entire force of the Institute of government also is included. Dr. Albert Coates, W. M. Cochrane, George H. Esser, Donald B. Hayman, Henry B. Lewis, Donald W. McCoy, J. A. McMahon, David G. Monroe, Clifford Pace and J. Dickson Phillips.

The 12-man committee chair-manned by Gov. Kerr Scott, met in the governor's office here. The resolution to support the tuition hike recommended by the Advisory Budget commission was introduced by Mrs. Laura Cone.

Mrs. Cone's resolution read: "Moved that it having become apparent that in order to maintain the standard of excellence of instruction at the three branches of the University than an increase in tuition as recommended by the commission is necessary, this committee goes on record as favoring the increase recommended by the commission."

Dr. Clarence Poe introduced an amendment to the bill which was accepted by the committee. It read:

"This action is taken by the Executive committee with the belief that this increase represents no greater increase than the increase during recent years in the value of hours of labor and the prices of produce. We look forward to the time when economic conditions will permit a return to the present tuition rates."

The only member of the Executive committee who could not be present at today's meeting was Judge John J. Parker of Charlotte.

Immediate comments were not available from administration or student leaders at Chapel Hill, but the action of the committee was denounced by those members of the student body who heard the report of the trustees' meeting.

Lecture Slated On Jurisprudence

The first of two lectures in the field of historical jurisprudence will be delivered tonight at 8 o'clock in the auditorium of Bingham hall by Dr. Jerome Hall, professor at Indiana University.

"The Value Problem in Jurisprudence" will be the topic of Hall's speech. Tomorrow at noon, in 105 Caldwell hall, he will speak on "Law as a Cultural Fact."

During his visit here, he will be the special guest of the political science department.

Holding degrees from Chicago, Columbia, and Harvard, Dr. Hall served the law faculties at North Dakota and Louisiana State university, and has since 1939 been professor of law at Indiana university.

Richard Lyman To Talk Tonight

Dr. Richard S. Lyman, chief of the neuropsychiatric service of Duke hospital and professor of psychiatry at Duke School of Medicine, will speak tonight at 8 o'clock in New West under the sponsorship of Alpha Psi Delta psychological fraternity. President Al Branca announced yesterday.

Nash to Address Freshman Council

Dr. Arnold Nash, head of the University's department of religion, will speak to the YMCA freshman council tonight at 7 o'clock in the Y building. His topic will be the "Place of Religion in Life."

Letter Is Sent To Kerr Scott On Tuition Hike

President Condemns Stand on Tuition

Student body President Jess Dedmond said yesterday that he has sent a letter to Gov. Kerr Scott protesting the tuition raise which Scott said last week he would "ask and insist" of the Board of Trustees.

Dedmond's letter said, "In view of this statement I must express, in the name of the students at the University of North Carolina, my disagreement with your stated position."

In his message to Scott, Dedmond pointed out that the recommendation does not "appear consistent with your go-forward" program.

The letter continued, "It is at the same time, it seems to me, a desertion of the stated principle of the North Carolina constitution and the basic principles of public education.

"Is not the purpose of public higher educational institutions to make educational opportunities available to all the qualified youth of the state? Is it not possible, in line with your apparent stand, that the youth of the state will be sacrificed for the state's private schools?"

"Here at Chapel Hill we like to feel that the sons of the farmers and of the common men, whose cause you have espoused, have an opportunity for training to serve their state and nation.

"We feel that any increase in tuition tends to close the door which should be opened wider for all the state's qualified youth."

THE WORLD IN BRIEF

Pope Appeals
VATICAN CITY, Feb. 16—(UP)—Pope Pius XII, taking official notice of the conviction of Joseph Cardinal Mindszenty for the fifth time in a week, appealed today for an end of hatred and discord in a torn world.

Denies Statement
WASHINGTON, Feb. 16—(UP)—Army Secretary Kenneth C. Royall denied emphatically today that he told American reporters in Tokyo the United States might pull out of Japan in event of war.

Motorists Attacked
PHILADELPHIA, Feb. 16—(UP)—Gangs roamed the city today and attacked three motorists in the first acts of violence since the transportation system was throttled by striking transit workers and taxi drivers.

Clay Gets Rough
FRANKFURT, Germany, Feb. 16—(UP)—Gen. Lucius D. Clay, ignoring a top-level Soviet protest, today ordered the eight-man Russian repatriation mission to get out of the U. S. occupation zone by March 1.

Mitchum Is Trustee
HOLLYWOOD, Feb. 16—(UP)—Robert Mitchum, assistant trustee of the "high-power" tank at county jail, today reluctantly left his post for the sheriff's honor farm at Castaic.

Meat Goes Up
CHICAGO, Feb. 16—(UP)—Wholesale meat prices advanced another notch today in a general upturn of food prices at the wholesale level.

Curtain of Stars

Planetarium Chamber Holds Many Wonders

(Ed. note: This is the third in a series of articles on the Morehead planetarium and art gallery. The fourth article, which will take the reader on a tour through the other high spots of the building, will appear in tomorrow morning's Daily Tar Heel.)

By Herb Nachman

An actual demonstration in the Morehead planetarium chamber will be an experience never to be forgotten.

You buy your ticket and enter through one of the "blind corridors" leading from the entrance lobby to the interior of the chamber. You take one of the 500 plush covered seats ar-

ranged in circles about the room and wait for the show to begin. A soft purple light prevails in the chamber giving the effect of early twilight. The first thing you notice about the room is the huge mass of machinery resting in the absolute center of the room under the apex of the dome.

Although not visible at first, the dome itself is made of stainless steel plates welded together. To the left and behind the dome as you enter the room is a large stage which will be used in some phase of the demonstration.

Directly opposite the stage on the northwest side of the room, there is a series of peepholes below the "horizon line." Behind these holes is the control room which is equipped with turntables and recording machines for use during the demonstration.

Finally, to the right center of the room is a semi-circular, raised pulpit affair called the "control panel." This board contains all the operational controls that will be used in the demonstration.

The man who will conduct the demonstration mounts the pulpit.

He goes at once into the preliminaries of the demonstration. "Here are the facts on this room. I am speaking to you through speakers in the apex of the dome. The dome is 68 feet in diameter and 34 feet high from the horizon line which is nine feet, ten inches from the floor.

"The dome is 10 percent perforated and is made of stainless steel throughout. There are approximately 25,000,000 perforations in the dome, which costs \$115,000. It is within 1/4 inch of the perfora, or only 1/4 inch from being perfectly symmetrical.

"This demonstration will be projected on the dome with perforated metal plates inside the revolving \$75,000 instrument. In actual definition, a planetarium is essentially a multiple projector with which it is possible to reproduce the appearance of the sky for any moment of the past, present, or future, as seen from any spot on the earth's surface.

"The phenomena is not a movie. (See MOREHEAD, page 4)

NORTH STATE ROUNDUP

Workers' Bill
RALEIGH, Feb. 16—(UP)—A bill requiring every worker in North Carolina to be paid by the week was introduced in the General assembly today.

Win Postponement
ASHEVILLE, Feb. 16—(UP)—Vaughn Cannon and 19 other defendants in a series of gambling cases here today won postponements of their police court hearings until Feb. 22.

Body Found
WILMINGTON, Feb. 16—(UP)—Workmen sifting through the ruins of a hotel fire found a body which Coroner Gordon tentatively identified as that of J. R. Mallard, 70, missing since the blaze Jan. 21.

Johnston in Wreck
MOORESVILLE, Feb. 16—(UP)—Sen. Olin D. Johnston (D-S.C.) and his wife suffered slight injuries today when their auto crashed head-on into another car.

Restraining Order
LINCOLNTON, Feb. 16—(UP)—The Lincoln county Board of Elections today held up certification of a sweeping dry victory in a recent countywide beer-wine election after wet forces obtained a restraining order against them.
