Starts Sentence

RALEIGH, Feb. 18 (UP)—Mrs. Ruby Harris Robinson, former bank employe, today began two years probation under an 18-months suspended sentence for misapplying more than \$9,000 while working at the Union National bank at Oxford.

Scott's proposal was condemned by the Young Republicans club as a "betrayal of the youth of North Carolina" in a spirited session held Thursday night.

A resolution labelling the proposal as "reactionary" and a violation of the "clear intent of the State constitution" was adopted unanimously.

Gene Newton, president of the UVA sent a letter to Scott which said that "the veterans of this state who made sacrifices for it did not intend to preserve and protect our institutions for the benefit of the wealthy only."

In discussing Scott's proposal to raise tuition \$69, Newton's letter pointed out that the Congress of the United States had established an educational program under the G.I. bill to "help those who need help." Considering this, Newton said the club could find nothing to indicate Scott's good faith with the principles of progressive education.

Newton's letter said that the club was particularly disturbed by Scott's recent statement at Davidson college. At that time Scott said he advocated tuition changes in order to take the state university out of competition with denominational schools. "A statement of this nature, coming from the Governor of the state, can only serve to encourage those who seek to impede the over-all progress and growth of their public educational system."

Tuition should be going down instead of going up, the letter continued.

"We sincerely believe that the situation and the times demand that tuition fees at the three branches of the University be abolished completely for North Carolina students," the letter concluded.

Federal Judge Sterling Hutcheson declared both boards in contempt of court after Negro patrons complained that Negro children were facing discrimination. Hutcheson delayed sentence until April.

Stanley Gray, chairman of the Gloucester board, said the two new schools would be used for white and Negro students, and would have equal facilities.
