### Women, Children Urged To Leave Winnipeg Area

WINNIPEG, Man., May 10—(AP)—A dramatic appeal was issued today to women and children to move out of Winnipeg to lighten the city's burdens in its fight against the still rising flood of the Red River.

Brig. R. E. A. Morton, flood relief controller, emphasized this was an appeal—not an order—but commented:

"Anybody who thinks this is going to be a job of a few days has another think coming. It's going to be a matter of weeks."

Flood waters from Minnesota, North Dakota and Southern Manitoba are still feeding into the Red River, which flows into Lake Winnipeg north of this prairie city. It was almost 11 feet above flood level here today.

The removal of women and children from this city, a grain and meat center and provincial capital of 350,000, will add to a great exodus over the 65 mile (See WOMEN, page 4)

## Truman Presents Plan For Boosting Incomes

ABOARD TRUMAN TRAIN, May 10—(AP)—President Truman outlined tonight an ambitious program of national development aimed at boosting the income of poorer working families to \$4,000 annually in 10 years.

In his busiest day of speech making since he left Washington Sunday on a 6,000 mile tour, the President, in a prepared Pendleton, Ore., speech:

1. Predicted that the income of those in the lower brackets can be doubled in "real" money and the nation's output of goods and services lifted to \$350,000,000,000 by 1960.

2. Forecast at Boise, Idaho, that Northwest, Northeast and Southwest power developments—linked with the TVA, Ohio, Mississippi and Missouri Valley projects—"will keep up the most powerful nation in the world."

3. Told smiling, hand-waving crowds at whistle stops across Idaho and Oregon that he will be back later in the year for some "politicking."

4. Avoided showing any signs of favoritism between Senator Taylor (D-Idaho) and former Senator D. Worth Clark, who may contest for the Democratic senatorial nomination in Idaho.

5. Dismissed as "silly nonsense" Republican charges that his "Fair Deal" program will lead to socialism.

Truman's voice showed only slight traces of hoarseness despite 16 scheduled speaking stops in Idaho and Oregon on his way to dedicate a power project at Grand Coulee Dam in Washington state tomorrow.

## By-Laws, Four Bills Face Solons Tonight

### Meeting To Be 'First Chance' At Law Making

#### Summer School Personnel Group To Be Considered

By Rolfe Neill

The Ninth Student Legislature tonight will get its first real taste of law making when it bites into a legislature fare consisting of four bills out of the Ways and Means Committee and an 18-page revision of the legislature by-laws.

The meeting will be held at 7:30 in the Di Hall of New West Building. Students are invited.

Two bills are authored by legislator Jim Lamm. They provide for the establishment of a summer school personnel committee for running student government, and Town Men's and Women's Associations' representation on the Dance Committee.

There are two major changes in the proposed by-laws. One would make a decided increase in the number of affirmative votes required to unseat a legislator for non-performance of duty. The other would create a standing judiciary committee.

Non-performance of duty is the name given to unexcused absences from legislature meetings. Those missing meetings are required to submit excuses within 10 school days after the session. After two unexcused meetings, the Rules Committee is supposed to originate an unseating motion. This requires a four fifths vote of the quorum. This would be 21 members as a quorum, being one more than half, is 26.

The new by-laws propose a two thirds affirmative vote of the entire legislature, or 33 members. Much opposition is expected to develop over this feature.

P. A. Transou and Arch Fort were declared unexcused from (See SOLONS, page 4)

## Rail Workers Freeze Lines With Strike

CHARLOTTE, May 10—(AP)—Passenger traffic ceased and freight movement dwindled to a bare trickle on lines of the Southern Railway in the Carolinas today.

A strike of firemen almost paralyzed this biggest railroad operating in the two states. Several hundred workers lost their jobs because of the shut-down. The system-wide layoff was estimated at 38,000.

Bus, truck and air lines felt an immediate bulge in their business.

The Southern spreads over western and central North Carolina west of Goldsboro, and over most of South Carolina except in the northeast. The system's setup in the Carolinas is a maze of connecting short lines which tie in with North-South double trunk lines which pass through the factory-thick Piedmont section.

Management spokesmen said they were making every effort to build up freight service. Emergency crews operated the few freight trains which did roll. Eastern Lines headquarters here said an ample number of trained men was available for operating switch engines at Charlotte and other Southeastern cities. The spokesman added that "quite a number of other employees, as well as regular fireman," responded to calls to operate freights tonight.
