"fringe" area around it. The motion died without a second.
Following his censure by the board, Clark charged that a large number of Negro students from A&T college in Greensboro were using the facilities of the new Woman's College library.
"I understood that the library was built for students at WC," he said, "but now Negro students are just as free to go there as white students."
"The Negroes are on the campus at night," he asserted.
Clark then proposed that the library facilities at WC be restricted to students of WC.
Womans' College Chancellor Edward K. Graham explained that Negro students from neighboring colleges sometime use the library when desired texts are not available at their own library.
The A&T library has some technological books, but is inadequate. Funds for the construction of a new library have been appropriated, but because of current steel shortages no building has started.
Clark's motion was amended to be referred to the Executive Committee.

College book store and the student supply stores has gone beyond the bounds of student affairs, and has become a matter tees, has withdrawn the student petition calling for the allocation of all profits for the use of students. We heartily concur with Mr. Carmichael's recommendation that a committee be appointed to look into the system of the student supply stores of the Consolidated University.
