St. John's May Ruin State's Coliseum Tourney Record

RALEIGH, March 17—N. C. State's Southern Conference cage champions will lay a perfect North Carolina tournament record on the line Friday night when they face St. John's Redmen in the second game of the Eastern Regional NCAA playoffs.

State teams coached by Everett Case have won a string of 28 consecutive tournament games played within the boundaries of the Old North State. Case-coached teams at State have never been beaten in a tournament conducted in North Carolina.

There are about 4,000 tickets left for both night's play. The tickets are priced at \$1.00, \$2.00, and \$3.00 and may be obtained by mail or telegraphic money order.

St. John's will, however, be heavily favored over the Wolfpack and the odds will favor the breaking of the long victory string. The Redmen have one of the most impressive records in the nation, having won 21 of 25 games this year, including impressive victories over Dayton and St. Bonaventure, Indiana, Niagara, Purdue, and Brigham Young. Only losses suffered this

year came at the hands of Kentucky, Loyola of Chicago, Holy Cross and LaSalle.

State, however, is an improved team despite their 23-9 mark on the season, the poorest record of any of the entrants. Forward Bobby Speight with 505 points already scored this year will be State's big gun along with All-Southern Guard Lee Terrill.

St. John's will bank on All-America nominee Bob Zawoluk, a 6-6 center and hot-shooting Jack McMahon, a 6-2 guard. Both men have been scoring well all season. Zawoluk has averaged 19 points per game with 455 points in 24 games. McMahon has hit 386 points for a 15.5 average.

Mullis Writes On Student Government

Clyde E. (Pete) Mullis, Carolina professor of physical education and assistant basketball coach, is the author of an article in the March issue of North Carolina Education which has aroused widespread interest.

The article, entitled "Can Students Self Govern", discusses student self-government as it exists today.

Mullis contends that legally and educationally student self-government in reality is impossible, but it should be practiced as a "means of enabling pupils, intelligently guided, to practice the qualities of good citizens with results satisfying to themselves."

be held in Boulder, Colorado, on March 21-22, and the National AAU Championship Meet will be held on April 25-26 at Penn State College at State College, Pa.
