

# Not Guilty

I'm going to skip the usual buffoonery this morning to let you in on an extra-special bargain. Listen closely.

How would you like to stick a rusty harpoon into Moa Tse Tung without fear of getting hit back? How'd you like to project yourself onto the battlefields of Korea and at the same time enjoy the cozy security of the Y-Court? All this plus a wonderful feeling of accomplishment for absolutely free. Send no money. All we want is a pint of your blood.

A Red Cross mobile bank will visit Graham Memorial the one and two. Please arrange to make a deposit. Your credit is always good, you won't be overdrawn, and your compound interest lies in the satisfaction of knowing that somewhere in a frozen tent some GI's purple lips will begin to quiver once again as the warmth from your own body circulates through his tired veins.

Last year our nation managed to squeeze out only one third of the needed blood quota. Imagine the thoughts that run through the minds of a wounded marine who may die for want of blood just because a student at UNC was too busy, too afraid, or too unconcerned to let a Red Cross nurse scratch his right arm.

Our campus blood committee, led by Joel Fleishman, has been busier than a fiddler's elbow organizing the campaign, securing posters, circulating pledge sheets, and crying for claret.

by Barry Farber

These hemoglobin hustlers tell me that Carolina is all set to send the crimson flow clear over the dykes.

The boys in the Monogram Club announce their 100% support for the drive. Several fraternities are planning "blood binges" to give the brothers a chance to channel their surplus to the front lines. The Air and Naval ROTC outfits are expected to come across with mass contributions.

The Order of the Golden Bear has arranged for Bob Johnson and T-Mac Long, two stalwart citizens, to be jabbed simultaneously so that the good fellows of the Order can bet parimutually on which of these patriots will be the first to fill up a pint. (Smart money is on Long. I say T-Mac will have his jug overflowing before Johnson even begins to ooze.)

All blood donations are strictly voluntary. We aren't quite as cagey as our communist competitors; but we believe that the free peoples of the United States, without tapping a Trotskyite, draining a deviationist, or bleeding a child for plasma can keep the sterilized bottles brimming just as well as the vein vultures of Pinsk, Prague, and Peking.

Attention Campus Commandos! Dial 28811, make an appointment, roll up one sleeve, and fight communism with corpuscles. Forty five minutes of your time may add forty five years to the life of a fellow American.

by Ken Barton

# Platform

One of the planks of the platform that I will continue to place before the students during the next two weeks will be the continued need on this campus of the National Students Association. I feel that it is very important that we, the students of the University of North Carolina are a major part in this organization. My reason for feeling this way is due to the programs that N. S. A. sponsors.

First, on the international front, N. S. A. is one of the greatest organizations for combating totalitarianism and preserving freedom. American students have it in their power to clear up many false concepts that foreign students have of this country. It is essential today that this organization be given backing in fighting communism.

Secondly, we at Carolina have derived a great many benefits from the number of educational programs of the organization. Such things as the Campus Chest, the Orientation program, Honor System, Faculty evaluation, and Curriculum study have received constant aid from the organization. N. S. A. also is important to the students of this University in that it is the only student organization on a national scale that is represented at UNESCO, the American Association of Deans of Men, the American Council of Education, the American Association of University Presidents, and other such organizations that direct policy to the student level. It has been very influential in regard to UMT and played a major part in the recent draft deferments for college students.

Carolina has been instrumental in organizing this Association and has been a leading University in furthering its cause. With such local personalities over the past years as Jess Desmond, Bill Miller, Al Lowenstein, and Barry Farber we have been able to do a great deal of constructive work both in our own region and on the national scene.

It is because of the benefits that we, the students, receive, because of the chance we, the

# Off Campus

Prank of the year: A group of enterprising male students at a well-known junior college hoisted a large unkempt horse up to the third floor of one of the girls dorms on the freight elevator. This was accomplished while the females were attending a lecture on another part of the campus. When the coeds returned they were greeted by this huge equine galloping through the hall. The girls took it all fairly well, but when the house mother learned of the prank and met the "visitor" she passed out cold. Oh well, maybe we're not wild here after all.

A majority of West Point cadets would resign in protest if the 90 students discharged for cribbing were reinstated, a poll by the school's magazine indicated. According to the magazine, the ousted cadets are

"honor code violators" who "can find no sympathy from the men they knew best."
