The men appointed are Wallace Womble, Carrboro, as purchasing and stores officer of the hospital; Henry P. Leighton, Chapel Hill, as chief admitting office; Leon King, Chapel Hill, central supply supervisor, and Raymond Ingraham, Rochester, N. Y., as collections officer.

# UNC To Administer Law Admission Examinations

The testing service here has been designated as a center for the nationwide administrations of the Law School Admission Test on April 26 and August 9, Law School Dean Henry Brandis, Jr., announced yesterday.

The School of Law is one of 20-odd schools in the country requiring applicants to take this test. The tests are given here in Room 206, Phillips hall.

Depending upon the law schools to which they wish to make application, college seniors, juniors and in some instances sophomores are eligible to take the tests. Each applicant should find out from the law schools in which he is interested whether he should take the test and on what date, Dean Brandis said.

The Law School Admission Test is prepared and administered four times a year, in November, February, April and August, by

the Educational Testing Service, Princeton, N. J.

Application blanks and a bulletin of information describing registration procedures and containing sample test questions may be obtained from the School of Law, the U.N.C. Testing Service, or directly from the Law School Admission Test, Educational Testing Service, P. O. Box 592, Princeton, N. J.

Applications must be mailed so as to be received at the Princeton office not later than 10 days prior to the testing date chosen, Dean Brandis advised.

Scores on the Law School Admission Test are used in many law schools throughout the United States, along with previous scholastic record and other evidences of suitable personal characteristics, as a basis for admission of applicants.

# Off Campus

Today we live in a society which is dominated by the desire to speed through life without realizing what living actually entails. It is seldom we find a person who has the insight to live his own life and determine his own code of living. We do things because other people are doing them.

The stream is flowing in one direction. Most of us float or drift along with the current because living is easier that way. A few people buck the current in trying to go their own way, find themselves carried along by the on-rushing stream, and against their own desires are driven to accept the way of society.

The reformer of society today is the person who can have the insight to stand on the bank of the stream, watching the on-rushing current. In seeing the stream of public opinion and action rushing madly to its final destruction, the person on the bank may be able to use his intelligence to build dikes, dams and reservoirs.

In building these controls, the thoughtful person can mold the stream of society by changing its current into a stream which might benefit mankind and the civilization to come.

Why not be the person who stands aside considering and analyzing the direction the stream is taking? Seeing that society may be rushing headlong to its ultimate destruction, the pensive person may investigate the building of a dam or dike which could aid in preserving the profitable elements in our society.

As one Park Student phrases it:

It is endeavoring to make me one of the majority. The age is trying to place its stamp upon me.

It wants me to listen to blank radio commercials. To go TV mad. To try the latest Hadacol-type product.

To view the nearest car with longing.

To hate the Russians.

To absorb the Reader's Digest and Colliers and gospel.

To wave my flag above the boys in Korea.

I rebel. I want to run from it all.

There must be an escape, But am I capable of finding it?

Rodney McKnight of Charlotte, a mainstay on Carolina's golf team for the past few years, is a medical school student here now.

Jay Hall's 6-7 high jump here for the Florida team in the Southern Conference Indoor Games in March is the second best jump record nationally this year. It is only 1/4 inch off of Illinois' Ron Mitchell's best leap.

Farmers received an average of 25.7 cents a pound live weight for chickens in mid-February, compared with 25.1 cents a month earlier and 26.9 cents a year earlier. Poultry markets during the month were firm on roasters and irregular on other classes.
