UNC Alters Bookkeeping Setup Here

The University has changed some of its bookkeeping operations since state auditors recently reviewed the UNC procedures.

State Auditor Henry Bridges yesterday said in Raleigh that "operations have been tightened up" in inventory control. He also pointed out that the University-operated Carolina Inn no longer pays for meals served guests at Morehead Planetarium Building for special University occasions.

A state audit for the year ending June 30, 1951, showed an average of \$8,753.50. This was caused, Bridges explained, mostly by accumulating new stocks of supplies at higher costs, and then carrying the costs of old stocks on the books at the price of the newer ones.

The Carolina Inn's profits fell from \$25,270 to \$13,843, the audit showed. The profits would have increased an additional \$1,789 if the Inn had been paid for the Morehead Building's special meals, according to the audit.

Golden Fleece Tap Slated For Monday

Memorial Hall Ceremony Set For 7:30; Valkyrie Sing Follows Honor Selection

The 49th annual tapping ceremony of the Order of the Golden Fleece will be held in Memorial Hall Monday night at 7:30.

Founded in 1903 as an honorary organization to reward excellence in all fields, the Fleece now numbers 504 among its members, including such distinguished University figures as Gordon Gray, Frank P. Graham, R. B. House, Albert Coates, Henry Brandis, E. J. Woodhouse and Ed Lanier.

Doors to Memorial Hall will close at 7:30, and no one will be admitted after that time. The lights will go out and spots will illuminate the symbol of the Fleece upon the stage. Two spotlights will serve to outline the hooded figures who actually will walk among the members of the audience and select those who are to be taken into the organization.

The music of Siegfried's "Rhine Journey" will provide background for the event, and the story of the Golden Fleece, as told in Bulfinch's Mythology, will be read at the beginning of the program.

After the tappers have been selected, they will be brought to the stage and recognized as a group. The Jason, leader of the Fleece for the year, will be revealed, and this year, contrary to past practice, the old Fleece members in attendance will be recognized as a group.

Immediately after the tapping ceremony, all Fleece members will retire to the Carolina Inn for the annual Fleece banquet. The program in Memorial Hall will continue with the annual Valkyrie Sing.

The annual tapping ceremony is the only public function of the Fleece each year, but meetings of the group are held regularly throughout the school year. At these meetings, questions concerning campus life at the University are often discussed, and any action which might be agreed upon is carried out by individual members.

Rainbow, Halo Show Now On At Morehead

"Rainbows and Halos," which opened Tuesday at Morehead Planetarium, features man-made luminous phenomena and their occurrence in nature, Manager Anthony Jenzano said yesterday.

Most familiar of these phenomena is the rainbow, Jenzano said. Explaining the misconception that only the reflection of sunlight from drops of rain is responsible for this band of light, Jenzano said mere reflection alone could not produce the variety of colors in the bow.

Planetarium visitors will see a huge rainbow appear following a realistic thundershower and associated material will be used to explain how it is produced in nature and where to look for it. (See RAINBOW, page 8)
