Team Of US Students To Go To S. America

The United States National Student Association is looking for Spanish or Portuguese-speaking-students to take part in a summer program "designed to increase friendship and co-operation among the students of the Americas."

A team of U. S. students will be sent to Latin American countries to visit universities and student groups, work with students leaders on joining

programs and explain student life and attitude in this country.

The second part of the program will be arranging trips for Latin American student leaders to the United States, to visit factories, farms and universities and to attend student meetings.

Application are available in student government offices in Graham Memorial. No personal expenditure will be involved for the participants.

'Key' Student Suspended By Committee

Special to THE DAILY TAR HEEL
ITHACA, N. Y., April 28—Action was taken by the Faculty Committee on Student Conduct at Cornell University on a student who was found to be in possession of keys that would give him access to almost any building on the campus.

The upperclass student had keys which would admit him to professors' offices and the like. A committee spokesman said he believed the student never had any intent of larceny or entering a room for illegal purposes. The student was suspended.

The student obtained the keys by tracing the shape of the original keys or by removing the lock from the doors and cutting keys to fit them. He then cut the keys in his own dormitory room. Besides keys to individual rooms the student had master keys that would open every door in a particular building.

In Student Government

Workers Needed

From the executive desk of the Student Government offices in Graham Memorial yesterday came a plea for persons who would like to serve on the many office committees.

President Ham Horton in a request for volunteers said yesterday:

"There is a place here for everyone who is willing to devote time to the task of helping to run an efficient student government office, and any vol-

unteers will be gladly welcomed."

Horton also recently stated that the doors of the student government offices are "always open to interested persons who would like to make suggestions." The most important mechanical device we have in the office is the doorsiop with which we keep our door open to interested visitors," Horton said.

Lost Articles Up For Sale

What's one man's loss is another's gain—eventually, so the YMCA believes.

Yesterday the Y told plans for auctioning off a large part of the accumulation of lost articles that has been threatening to overflow the Y information office.

The articles up for sale have remained unclaimed for two quarters, and will be auctioned to the highest bidder tomorrow morning in the Y court from 10 to noon.
