We hear from the drug stores that the sale of No Doze tablets have increased considerably this week. Could it be that there are a few industrious souls at summer school who are putting business before pleasure?

Another Presbyterian Church Wanted Here

A group of 20 local Presbyterians have begun plans for a new church in Chapel Hill. The group which includes Town Manager and former elder Tom Rose, originally sent a petition to the Orange Presbytery in March. Bernard Boyd, University professor of Religion is also among the group.

Early this month the Presbytery met in Burlington to hear a report on petition. A 10 man commission was established and instructed to organize and install the officers of the new church. At the request of the present congregation, the commission was to work with representatives of both churches for better understanding.

The group, which includes no students and which has few present church members in its make-up, desires a new church and a second ordained minister in Chapel Hill for theological and pastoral reasons.

There is no opposition from the present church staff or congregation. The congregation has agreed not to oppose, but to work with the new organization.

The present church, whose minister is Rev. Charles Jones, and whose assistant is George Worth, is a popular religious center for students as well as townspeople.

Faculty Texts Displayed At Morehead

The two most prominent texts are "The Field of Social Work" by Fink, and "Practical Business Statistics" by Croxton and Cowden. These are nationally known and used by colleges.

Lightning Strikes Twice At Chi Psi; Kindles Slight Blaze

The thunderstorm that hit here last Monday afternoon might have brought relief to the majority of people on the Hill, but to the members of Chi Psi Fraternity, on W. Franklin St., it brought quite a scare.

Two bolts of lightning, both striking within fifteen minutes of each other, hit two Great Oaks right outside a window of the house where six of the boys were sitting. The first bolt hit a tree by the rear driveway and split it completely in half, and the tree fell, blocking the driveway; the second bolt hit a 75-foot tree in the front yard, shaving the bark off one side in an eruption of sparks, and started a fire in the hollow trunk. The fire department was summoned to extinguish the blaze.

No casualties were sustained by anyone from the storm, but one of the brothers, Dick Proctor, who was walking downstairs from the third floor when the

second blast hit, was so astonished that he lost his footing and fell most of the way to the first floor.
