

Oct. 15 Is Date For Fulbright Hopefuls

Competition for the 1953-54 Fulbright awards will be held October 15, Dr. Sturgis E. Leavitt, chairman of the local Fulbright Committee and Kenan

Professor of Spanish, said yesterday.

The awards, open to seniors and graduates, are for one year of foreign study and include transportation, tuition, books, and maintenance for the academic year.

Selection of the recipients is made on a national competitive basis, and the countries for which the awards are available are Australia, Austria, Belgium and Luxembourg, Burma, Denmark, Egypt, France, Greece, India, Iran, Iraq, Italy, Japan, Netherlands, New Zealand, Norway, Pakistan, Philippines, Thailand, Turkey, Union of South Africa and the United Kingdom.

Additional information and forms for application may be obtained from the local Fulbright Committee composed of John N. Crouch, Kenan Professor of Botany; Nicholas Jay Demerath, Professor of Sociology and Research Professor in the Institute for Research in Social Science and Dr. Leavitt.

Scholarships Are Listed By 2 Groups

Announcement was made yesterday of two scholarship funds open to interested students.

Eastman Kodak Co. will award 19 fellowships, each providing \$1,400 plus an allowance for tuition and fees, during the school year 1952-53. Twelve of the fellowships are in chemistry, four in chemical engineering and three in physics.

They are offered to 18 U. S. institutions, including the University of North Carolina, which will select a research student in the last year of study for his doctorate. Basis of selection will be the student's demonstrated ability in his major, a high degree of technical promise, soundness of character and personal traits, and financial need.

Graduate fellowships are available in 16 South American countries for the 1953-54 academic year. They are given under the terms of the Convention for Promotion of Inter-American Cultural Relations.

The convention provides for an annual exchange between the

United States and each of the signatory republics—Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru and Venezuela.

Further information may be obtained by writing to the International Education Programs Branch Office of Education, Federal Security Agency, Washington 25, D. C.

GOV. ADLAI STEVENSON presents son Adlai Jr. with his second lieutenant's commission at ceremonies at the U. S. Marine Base, Quantico, Va. One of 600 Marines who received bars, young Stevenson also accepted commissions for his platoon. The governor, Democratic presidential nominee made a major address that night in Richmond.

Planetarium's Show On Flying Saucers

"Flying Saucers" is being presented in Morehead Planetarium daily at 8:30 p.m., on Saturdays at 3, 4 and 8:30 p.m. and on Sundays at 2, 3, 4 and 8:30 p.m. through October 6.

This new presentation comes in response to many inquiries, and as a result of widespread public interest concerning mysterious objects seen in the sky during the past five years, manager Tony Jenzano says.

Region Post Given Nurse At Carolina

Miss Jean Rebentisch of the School of Public Health, has been named as Regional Vice-Chairman of the newly organized Nursing Fellowship Fund for this area.

At the same time Miss Rebentisch announced the appointment of Miss Barbara Landauer of the Veterans Administration Hospital in Oteen as State Chairman for North Carolina.

The Nursing Fellowship Fund was created last summer at the biennial nursing convention in Atlantic City by and for nurse educators to provide the opportunity for advanced education to qualified nurses who would otherwise not be able to avail themselves of such an educational experience. The country has been divided into six regions and funds raised from each region will revert to that area. The national committee will award as many \$2,000 fellowships as the amount raised will permit.

Beginning the middle of September, 18,000 nurse educators will be asked by mail to contribute to the fund. Candidates will study at the Division of Nursing Education of Teachers College, Columbia University in New York. This will mark the first time that nurses have organized themselves into a national fund raising committee for the advancement of their own professional training.

Although initially only nurse educators will be solicited, voluntary contributions from all are

Each adult visitor will receive a flying saucer "report sheet" to fill out and return should he sight a heavenly apparition—at some future date.

In this presentation, astronomical and physical phenomena, which have provided plausible explanation to many saucer reports, are taken into account. Special effects designed to reproduce such phenomena will be used throughout the performance. An official helium-inflated weather balloon eight to 10 feet in diameter, supporting an aluminum foil radar tracking device, will be sent aloft in the Planetarium chamber at each performance. Visitors will see meteors, a Bolide or fireball, a comet and reproductions of strange objects photographed by eye-witnesses in other parts of the country.

On August 13, Robert Gegner, Ronald Roy and Guy Davenport, all of Fort Bragg, spotted and tracked a strange star-like object in the sky. Ed Higgins, of radio station WDNC in Durham, has provided an exclusive-transcribed interview of their story which, with other narrations, will be included in every performance.

The principle used to create the fantastic light phenomenon in a Bell jar by Noel Scott, physicist at Fort Belvoir, Va., will be described with the visual aid of the Planetarium's 40 inch glass discharge tube conducting a potential of 4,000 volts through its low pressure area to produce the ionization effect.

welcome. Headquarters for the Nursing Fellowship Fund are at 525 West 120 Street, New York 27.

710 Drivers Lose Permits During August

Special to THE DAILY TAR HEEL. RALEIGH, Sept. 23.—For driving drunk 710 North Carolina motorists lost their legal driving privileges in August, the Department of Motor Vehicles reported today. Another 109 were convicted of the same offense for the second time.

The regular monthly summary of violations requiring the surrender of drivers' licenses contained 79 convictions for speeding over 75 mph; 73 for reckless driving; 71 for two offenses of speeding over 55 mph, and 59 for driving after license revoked.

Miscellaneous convictions included the following: two offenses of reckless driving, 35; transporting liquor, 45; unsatisfied judgment, 32; larceny of automobile, 35; driving after license suspended, 27; habitual violator, 14, and hit and run, 13.

During the month 117 persons lost their licenses for failing to maintain proof of financial responsibility.

Study Grants Being Offered By Mexico

The Mexican government, through a U. S.-Mexican agency, is offering 17 grants to American students for study in Mexico during the academic year beginning March 1, 1953.

Eleven scholarships are at the graduate level, paying tuition and 800 pesos monthly. Six undergraduate scholarships pay 700 per month. Preference will be given junior and senior year students in the awarding of the undergraduate scholarships.

Applications, which must be in by October 15, may be obtained from the Institute of International Education, 1 E. 67th St., New York 21, N. Y.

Poetry Anthology Asks Student Work

Original verse may now be submitted to the National Poetry Association for publication in the 10th Annual Anthology of College Poetry.

Manuscripts must be typed or written in ink on one side of a sheet. The student's name, school and address must appear on each manuscript.

Entries are to be sent to Na-

tional Poetry Association, 3210 Selby Avenue, Los Angeles.

Dr. Hammersley Will Talk Here Friday

Dr. John M. Hammersley of Oxford University will speak Friday at 4 p.m. in Phillips Hall on "Some Recent Developments in the Theory of a Random Variable."
