Traffic Lights May Ease Med Center Jam

An acute problem of traffic regulation on the Pittsboro highway in front of the new medical center may be solved.

The town aldermen have studied the situation and ordered several lights to be placed at various intersections along that stretch of the road running from the Naval Armory to the Victory Village entrance.

There will be a standard stop-and-go light at the Victory Village-Pittsboro highway intersection.

At the triangle at the intersection of Raleigh Road and Columbia Street (Pittsboro highway) beside the Naval Armory, there will be three signal lights.

The speed limit along the stretch will be 20 miles an hour and no parking will be permitted on either side of the road.
