6-Day Plan Will Be Talked; Umstead Asks For Pay Boost

New Governor Also Asks For Liquor Vote

RALEIGH, Jan. 8—Gov. William B. Umstead today advocated a 10 percent pay increase for teachers and state employees and asked that the increase be made retroactive to last July 1.

Although it would be "unwise and detrimental" to levy new taxes, Umstead suggested that the Legislature could reduce the number of exemptions to the sales tax if additional revenues are needed to provide essential services.

"I should like for all those who work for North Carolina, however humble their job may be, to be proud that they work for the state," Gov. Umstead said.

"I should like for them to feel that they are a part of the state government, and I seek their sympathetic understanding of the problems of our state, and their assistance in making it a better place in which to live," he continued.

"Due to the increase in the cost of living," Gov. Umstead said, "I have heretofore announced that I would favor a 10 percent increase in the salary and wages of all state employees, retroactive to July 1, 1952, and now recommend that this be done."

Gov. Umstead praised the institutions of higher learning in North Carolina and recommended that the General Assembly authorize a commission to be appointed by the Governor to study the matter of educational television and report its findings to this session of the state's lawmaking body.

"In this matter we shall be plowing in new ground, and it will require the talents, the time and the wisdom of able men and women to determine what course we should follow," he added.

Asserting that the liquor problem is not a financial one but "is a moral question," he called for a state-wide liquor referendum.

Gov. Umstead said, "Since the act was first passed legalizing the sale of intoxicating liquor in those counties in North Carolina voting in favor of it, there has existed a wide difference of opinion on this question."

"In the minds of many people it seems to have come to the question of revenue," he added. "Even though the amount of money collected in taxes from the sale of intoxicating liquor in North Carolina has come to constitute an important part of our revenue, the issue should not be disposed of on the basis of taxation."

"It is a moral question," he said, "and should be treated as such. Prior to 1948 and in that year and again in 1952, I publicly stated that I favored a referendum on the liquor question."

"I now favor it, and therefore, recommend," he continued, "that the General Assembly submit this issue to the people of North Carolina."

MRS MARY D. CAIN DISPLAYS the hack-saw she used to cut a government padlock from the door of her newspaper plant in Summit, Miss. Government agents seized the plant after Mrs. Cain refused to pay \$42 in social security taxes, declaring the tax to be "unconstitutional" and "confiscatory." Mrs. Cain has challenged the government to jail her so that she can get a court test of her case. —NEA Telephoto.

Faculty Group Then Reports To 2nd Body

By John Jamison
Members of a faculty Personnel Committee will assemble next week in answer to a "mandate from the Trustees to study ways and means of implementing Saturday classes," Dean Clifford P. Lyons said yesterday.

Asked if there would result a crystallization of faculty feeling about the six-day week, Dean Lyons said this was not the purpose of the meeting. The "mandate", it seems, is not to install Saturday classes, not to express opinions about their advisability.

The group scheduled to meet next week is known as the Committee on Instructional Personnel. Dr. Lyons is its chairman. Decisions made by this committee will be reported to the Faculty Council against the extra class day center this month.

Meanwhile, the student fight continues—at times, half-heartedly, President Ham Horton believes, getting students to report on their Horton says he is having difficulty holiday conferences with University Trustees.

When the Executive Committee dropped the Saturday-class bombshell, students reacted with immediate bitterness. They were joined shortly in their fighting efforts by Executive Trustees John W. Umstead and A. Hugh Harris.

Numerous other Trustees have expressed disapproval of any change in the University's schedule.

The full Board of Trustees will meet in February. It is within their power to reverse the order of the Executive Committee. However, there has been no authoritative indication that the subject will even be brought up.

The possibility of such a reversal, though, remains the inspiration behind student efforts.

The award-winning stories, and some of the runners-up, will be posted on the bulletin board in Bynum Hall.

'Cold War' Costs Both Sides, Has Northwestern Shivering

EVANSTON, Ill., Jan. 8—The students in Northwestern are up to their ears in hot water, and it is all due to cold weather.

It seems that the boys staged a two-night siege of snowball battles in the North quads and broke about 200 windows in the men's houses.

Now the incident has gone to a meeting of the executive board of the Inter-Fraternity Council and Men's Inter-House Council. No one has even tried to determine the property da-

mages. The most serious thing, according to the dean of men, is that in many instances the window breaking was deliberate.

The fellows at the Alpha Delta Phi house were counting on cutting cards to see who paid for the repairs, but the dean of men has different ideas. He says that everybody pays. The men, caught in the draft, soon got the same idea.

The SAE's and Phi Gam's got the biggest draft after the snow fight with a total loss of 47 win-

Rankin Hits Way Trustees Are Appointed

RALEIGH, Jan. 8—Senator R. Grady Rankin of Gaston County said yesterday he is opposed to the practice of naming legislators to the Board of Trustees of the Consolidated University.

"It's getting worse" from session to session, Rankin declared in a meeting of the State Senate Rules Committee, as he touched off the discussion.

Trustees are named by the Legislature and quite a few lawmakers get on the board as a result.

He recalled that several sessions ago he was nominated to the board while a prominent man from Gaston who had been a member was left off. Rankin withdrew then and succeeded in persuading the Assembly to put the other Gaston man back in his place.

But when the Gaston man came up for reappointment, he was knocked off the board in favor of a member of the Assembly.

Several members of the Rules Committee rose to say they agreed with Rankin on the matter.

GRAD GETS BRONZE STAR

Second Lt. Herbert Mitchell, USMC, has been awarded the Bronze Star for heroism in the Korean War.

He was wounded in August, 1952 in the action at Bunker Hill, but refused medical attention, and continued the assault in which his company was engaged. He is a former Carolina student and a member of the Chi Phi Fraternity.

The three men aboard were crew members.

MONTPELIER, Idaho—A nine-man ground party struggled through the wild, rocky mountain wilderness near here yesterday in a search for a C-46 commando transport plane missing with 40 men and one woman aboard. RALEIGH—Outgoing Governor Kerr Scott on Wednesday reduced the prison sentence of Raymond Hair, former Wake Forest College student, who was convicted in April, 1950, of second degree murder in the death of Roy Coble, 15-20 years. The original term was 25-30 years.

15 Fellowships Open To Coeds In Personnel

Fifteen \$650 full tuition fellowships will be offered for the first time for the academic year 1953-1954 by the Radcliffe College management training program.

The management training program is a one-year graduate course in personnel and business administration tailored for the specific needs of women.

The program, now in its 16th year, trains young women for junior administrative positions in business, industry, government departments, social service and educational institutions. The curriculum consists of two fulltime job assignments which are integrated into six months of classroom work at Radcliffe.

Academic instruction is based on cases which have been compiled by the Harvard Business School. These cases are descriptions of actual operating situations drawn from business organizations. Among the courses offered are human relations, management methods and practices, marketing, accounting, and the functions of a personnel department.

The instructors are for the most part members of the faculty of the Harvard Business School.
