Building Request Cut

Gray Renews 500G Figure For Institute

By John Jamison

RALEIGH, Feb. 4-Gordon Gray and his Consolidated University colleagues came before the Legisature's Appropriations Committee here today wit ha compromised budget request for permanent improvements at Chapel Hill amounting to \$5,012,000, nearly \$2,000,000 less than the original request made in September.

Today's request included \$1,01,-000 termed "emergency items" and \$4.011.000 termed "bond issue items."

United Nations Is Only Way To World Peace, Mrs. FDR Tells Memorial Hall Crowd

Eleanor Recounts Tales Of Travels

By Alice Chapman

Eleanor Roosevelt yesterday afternoon charmed a Hill Hall audience of coeds and Chapel Hill women with personal experiences as a world-traveler and diplomat.

The past first lady told of her first year in the White House, and of the 300,000 letters she tried to answer personally. In looking up letters from Harrison's administration to that time she found that the president's wife answered all letters in the same style-whether accepting an elephant or a bouquet of flowers.

As wife of the president she felt that she should know as much about the country as travel would make possible. She was comparatively unknown then and could travel incognito.

"How little most of us know outside of our daily round of life," she said. To see places and situations she would never meet, Mrs Roosevelt took paid lecture

tours, although public opinion was against such a precedent.

In speaking of her trips abroad in the Near East and South America, she stressed the importance of learning the language of the people with whom you work. "People feel so much more friendly if you even attempt to speak their language," she added.

Traveling for the Point Four program and the United Nations, Mrs. Roosevelt had observed that often women are a symbol of what is happening in their country. The revolution of the Pakistan attitude toward their women is an indication of the larger change in that country, she stat-

She leveled a challenge at the group by saving that American women have the responsibility of being citizens in the greatest democracy in the world. "The curiosity about the United States is enormous," she explained. "And you paint the picture of democracy by the way you live."

Other Nations Look To U.S. For Vital Help

By Louis Kraar

Urbane Mrs. Eleanor Roosevelt last night told a capacity Memorial Hall audience about the "only machinery we have to try to build a more peaceful world"-the United

Vividly outlining the United State's part in the UN, Mrs. Roosevelt declared, "We have become the symbol of democracy to the whole world."

"The United States," she continued, "is like a strong member of a family to whom all the other members look for help," She urged that everyone ask themselves if they were "painting the true picture of democracy."

Recalling her visit to India recently, during which crowds of Indians greeted her in friendship, she told of an incident that "made them feel I was friendly." The act of friendship, she said, was simply bowing to the people in their own traditional manner of greeting. "They were perfectly delighted," she added.

Besides paying a large part of the entire United Nations budget for a long time, this country is a member of all the "specialized agencies of the UN," said the onetime first lady. "The Soviets do not belong to a single one," she added emphatically.

She termed the total UN cost to us as "infinitesimal in comparison with whart we spent for one day in World War II."

United Nations, she explained, is not the peace, but merely the "machinery to build peace."

"Peace depends upon the efforts of 60 sovereign nations working together," she said. "I believe that the United Nations is the place where the U. S. gives the lead that we really want better understanding for peoples of world."

"Although we are the leaders of the world, we live in uncertainty," declared the former U.N. delegate. "We want to live in a world with people who are our friends."

Working in the UN required more patience than "raising a family of individualists," she said smilingly. "But the UN is worth all the strain that we live under today."

"We must play our part with courage and faith in this generation of uncertainty. We must have both vision and faith," she concluded. A great ovation greeted the

smiling speaker, who Dean Fred Weaver introduced as "one of the great persons of our time." Folquestion and answer period. Weaver, in his introduction, said

that it was "not so much her greatness as her graciousness that she "inds welcome wherever she goes."

"We have a very heavy weight on our shoulders," she said in describing this country's place in the UN. "We are spearheading the light for democracy for free na-

For instance, one division of volunteers is the auxiliary's Pink Ladies. Marked by their cherry smocks, these workers can be found all over the hospital. One of their undertakings is the Hospitality Shop where

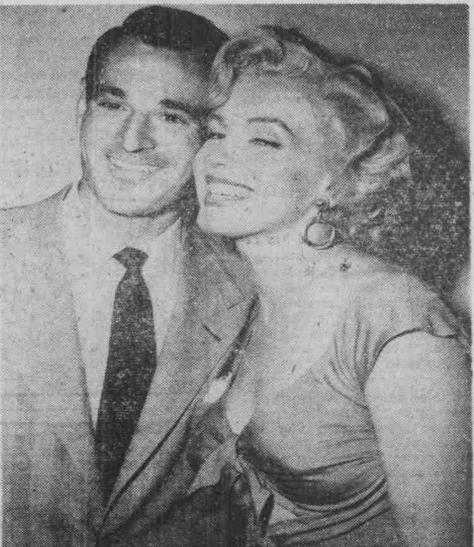

reading material, incidental

items and candy are sold. The shop also stocks a few inexpensive gifts such as talcum powder,

stationery and toys. A unique feature offered by the auxiliary is the cart service. This is for all patients. Carrying a sample of wares offered in the Hospitality Shop, the cart tours the patient floors in the hospital each day.

In addition to this work, the ladies in the cherry smocks help in the out-patient department by keeping an information desk and by assisting the patients to find their rooms. They also aid the hostess, especially over weekends, with the numerous hospital tours.

A brand-new undertaking, which went into operation last Friday, is the book cart, containing several hundred volumes. Started by the Community Club

GETTING IN A LITTLE SQUEEZE TIME with busty Marilyn Monroe is Ray Anthony, the young man who'll bring his horn and orchestra to Chapel Hill for the Winter Germans on Feb. 13 and 14. The schedule calls for a dance from 9 to 1 o'clock Friday night, a concert from 4 to 6 Saturday afternoon, and another dance from 8 to 12 o'clock Saturday evening. Marilyn? Well, she wen't be here for the Germans, but it's a pretty sexy picture, huh?

trips through the hospital twice a week.

Another group under the hospital auxiliary is the YWCA coeds, whose trade-mark are navy smocks, white blouses and plain skirts. Their duties from 5 to 6 p.m. are to carry food trays and to help feed the patients. For two hours every evening the girls do minor clerical work, run
