Loans At South Building

Student Aid's Lanier Gives Out Scholarships, Part-Time Jobs

By Ann Pooley

Are you one of the many University students who feels the need to earn some extra cash, or is it becoming a necessity that you get some?

If you do need financial aid, the University has a service especially designed to help you. It is the Student Aid Office, 302 South Building.

Under the direction of Edwin S. Lanier and his assistant, Mrs. Caroline Simmons, the Student Aid office handles scholarships, loans and part-time jobs. The program is administered by the Student Aid Committee, which is appointed by Chancellor R. B. House, Dr. D. D. Carroll, former Dean of the School of Business Administration, is chairman of the committee.

Lanier said that although most of the part-time jobs have now been filled, "We are anxious for any student who feels he has a financial need to come to the office. The University will make every effort to help him."

Lanier pointed out that the part-time jobs fall into three classes. The first type is what is known as self-help jobs. This includes jobs on campus assigned by the Student Aid Committee. Into this category fall jobs in the dining halls, the library,

Segregation In Cafe Stopped; **Business Cut**

CHARLESTON, S. C., Oct. 21-(P)-Non-segregated dining in the civilian operated Naval shipyard cafeteria here ended its second day yesterday without a repeat of the first day's picketing by white em-

White employes, however, stayed away from the dining facility in large numbers. Fewer than 500 meals were served today, less than half the normal number.

Monday, white employes refused to enter the cafeteria after some 15 Negroes occupied single seats at 14 of the eight place tables in the hitherto white cafeteria. The Negro section of the cafeteria, occupying the lower floor of the two story building, received a normal number of customers for the mid-day lunch hour

one that requires some technical skill or special knowledge. The head of the department needing someone to fill one of these jobs usually has to select a person for it, but the Student Aid office is often called on to recommend someone. Tutoring, reading to blind students, typing, general office work and help for special projects fall into this class.

Jobs in downtown stores, restaurants, and other business firms make up the third type of position that the office fills. Though they have no control over the kind of job, they offer a service both to employers and students in recommending persons for such jobs.

Through the Student Aid Office a student may apply for an in-town job. When the office is called on to suggest someone to fill such a job, they will turn names over to the employer, or notify the student.

Scholarships, loans and parttime jobs are all given on the basis of a formal application. The Student Aid Committee then selects students who present a good academic record and also have an actual need for financial assistance to be able to continue in school.

The office is now compiling a complete report on the number and types of jobs available, salaries, and how jobs have been filled. It will be available soon.

Lanier emphasized that even though there are not many jobs open now, the office is always glad to assist and advise any student who needs their help.
