Rosenbluth-Wilkinson Scoring Duel In Order

North Carolina can throw the Atlantic Coast Conference baskerball race into a four way tie by beating Virginia in Greensboro tonight.

A victory for the Tar Heels would match the 8-2 conference shared by Marvland, Duke and North Carolina State.

The four teams are battling for the No. 1 seeding going into the conference tournament opening at Raleigh three weeks from today.

Frank McGuire's Tar Heels held the top rung for more than two weeks following their 84-80 upset of North Carolina State Jan. 18. Duke knocked North Carolina out of first place with a 9-68 drubbing last Friday night, allowing idle Maryland to slip into first place.

Then, North Carolina State, on a three-game century mark rampage came along to tie Maryland by trimming Clemson and Virginia, Duke muscled into a three-way tie for the lead last night by shading Wake Forest, 75-73.

Although the teurnament decides the conference title, there is much to be gained by finishing first the tournament's first round nine first places. Clemson, loser of all 10 conference iste.

North Carolina State and Wake will travel to Norfolk, Virginia, day's intramural games:

Manager Ray New explains the importance of good service to one of his assistants

His "individual training" paid off

When Ray New-Business Administration, Buffalo, '51started with New York Telephone Company, he never suspected his work would face him with problems of this sort-

66My job as business office manager is to see that the customer gets the best possible service. One of my assignments took me into a section of Manhattan that had a large Puerto Rican population.

66 Frequently our people would get somebody on the line who couldn't speak a word of English. So I saw to it that each of my representatives learned a few standard Spanish phrases-enough to get somebody to the telephone who could speak English.

66 There are no two days alike in this

work, with new problems coming up all the time. The best part of it is that the training program here is tailor-made to the job. First you get a general background in the business, then you go into what I call 'individual training.' That's where your own special abilities are developed and you're encouraged to think out new ways to solve everyday problems - like the one I just described.

66 Right now I'm Business Manager in charge of an office doing \$250,000 worth of business a month, "5

You'll find these things true of college men, like Ray New, who go into telephone work. They've been well trained, they enjoy their present jobs, and they're headed for responsibilities and greater rewards. If you'd be interested in a similar opportunity with a Bell telephone operating company, or with Sandia Corporation, Bell Telephone Laboratories or Western Electric, see your Placement Officer for full details.
