

Athlete Of The Week!

Krepp Captured Firsts In 100 And 200 Back; Winning Relay Team

By BOB COLBERT

Charlie Krepp, sophomore star of the Tar Heel swimming team, again has been selected by The Daily Tar Heel sports staff as "Athlete of the Week."

Runners-up to Krepp were teammate Phil Drake, who missed breaking the world record in the 200-yard butterfly breast-stroke by three-tenths of a second, and Gordon Hudson, who took first place in the side horse competition at the Southern Gymnastic Championships held in Atlanta last weekend.

Krepp set new Atlantic Coast Conference records in both the 100 and 200-yard backstroke events in

the ACC Championships held here last weekend. His time in the 200-yard event was 2:08.7. There have been only two swimmers to do faster than 2:07 for the course. Krepp will run into both of them next week at the NCAA Championships in Oxford, Ohio. They are Oyakawa and Wiggins of Ohio State. Oyakawa has been the 200-yard backstroke champion for three years and holds the intercollegiate record with 2:05.1. Wiggins had gone the distance in 2:06.

Krepp's fastest time in the 200-yard backstroke was against Michigan here on February 3.2. He set a new pool and University record, going the distance in 2:07.8. This was after he had led-off the 300-yard medley relay team consisting of himself, Drake, and Dick Baker which broke the intercollegiate record.

BROTHERS RALPH and Willis Casey, who rarely agree on many things, both think that Charlie will develop into the best back-stroker in the country. Said Willis, coach of N. C. State's ACC champions: "Man, they're going to have a hard time beating him in the 200 at the Nationals." Ralph, after the meet, added, "It will be interesting to see how well he'll do against great competition in the Nationals."

Krepp is just a sophomore and calls Baltimore, Md., his home town. He is 19 years old and is majoring in Business Administration.

HE BROKE HIS own record of 2:09.4 in the 200-yard event Friday night going 2:08.7. Saturday afternoon, he broke the record held by State's Tom Dunlap of 60.0 by going 58.4 in the trials. In the finals, he was paced by State's Bill Sonner. Sonner had Krepp after 75 yards, but Krepp poured it on and finished first by two-tenths of a second, breaking the record he set in the afternoon by nine-tenths of a second. His new record is now 57.5.

Charlie also was lead-off man on the winning 300-yard medley relay team. This is the same team that holds the intercollegiate record. This gave Krepp three firsts in the meet.

COACH RALPH Casey is now pointing toward the NCAA Championships to be held at Miami University, Oxford, Ohio March 24-26 and the National AAU meet to be held in New Haven, Conn., on April 1-3.

No sweat. Do it what comes naturally

Freshman Track Schedule Boasts Five Meets

By RAY LINKER

All candidates for the freshman track team have been asked to meet Coach Joe Hilton in 304 Woolen Gym at 4 o'clock this afternoon to discuss this year's schedule and to fill out eligibility blanks.

Many boys who were on the indoor team as well as several others have already started working out daily on Fetzer Field. Hilton would be glad to have more students come out for the team, however.

Five meets have been carded so far, and a few more may be added to the schedule. The Tar Babies will open with State here on April 2. One night meet, also with State, is planned for April 16 in Raleigh.

Cage Semifinal Slated Today

At 5 o'clock this afternoon in Woolen Gym the Town Mens Association will meet Battle-Vance-Pettigrew and the Medical School will take on the Dental School in the semifinal round of the dormitory championships in intramural basketball. The winners of the two games will tangle at 7 o'clock Friday night to vie for the dorm trophy.

In the fraternity division the Dekes play the Sigma Nus at 5 o'clock and at 7 the defending champions, Phi Gam, tangle with the SAEs. Friday evening at 8 o'clock the two winners will meet for the fraternity crown.

The quarter-final round Monday saw Med School stage a comeback drive to defeat Joyner-1, 53-50, in an overtime battle. Lineberger had 19 points for the winners but Arlis Denny of the losers turned out to be the day's top scorer with 27 points. BVP edged Law School in a mild upset, 32-25. TMA had too much class for Joyner-2 and ran up a 32-9 halftime lead to win going away 63-22. Gene Smith had 20 points for the winners. In the fourth game in the dorm league Dental School dropped Alexander 51-42.

Duke Will Hold Football Clinic

DURHAM, March 16. — Coach Bill Murray and members of the Duke University football staff will hold a spring clinic for coaches here Friday and Saturday as the Duke gridgers complete the 20 allotted days of off-season drills.

This informal event was started three years ago and has attracted high school and prep school coaches from all parts of the south and east.

Duke will furnish the opposition on two occasions, in Durham on April 22 and in Chapel Hill on May 7. Durham High School will pay the Tar Babies a visit on April 28.

A meet with Greensboro High is being discussed at present. The UNC frosh may meet a team composed of runners from two nearby high schools.

A small nucleus is forming around a few talented trackclads, with the distance men showing up well in practice. Three boys who were outstanding in cross country and indoor track have just about secured the top spots in each of the distance runs. Ben Williams in the 890-yard run, Everett Whatley in the mile, and Richard Riggsbee in the two-mile are the top runners.

James Varnum (100 and 220) and Ronnie Austell (220 and 440) have been outstanding in the shorter distances, although Varnum is in spring football practice at the present. Cledith Oakley in the javelin and Gene Drury in the hurdles have also been impressive in practice.

Virginia's Buzz Takes Point Title With 32.1; Rosenbluth Makes 25.5

GREENSBORO, March 15 —(AP)— North Carolina State won the championship, but all but one individual or team statistics crown for the 1954-55 basketball season went to the Wolfpack's Atlantic Coast Conference challengers.

Virginia's Buzz Wilkinson claimed the big individual scoring average title with a 32.1 mark.

Wilkinson also won the individual total points crown with 898, giving his Cavaliers a big assist as they won the team scoring title with an average of 89.8 points per game.

N. C. State, according to final ACC Service Bureau figures for the season, placed second in scoring at 88.7 and won its only ACC statistics honor by averaging 58.2 rebounds per game.

The other major title, for team defense, went to Maryland without a close challenge. The Terps' average yield for the season was only 61.8 as compared to 72.7 for second place Duke.

Wake Forest's Dick Hemric, although he set a national major college scoring record at 2,687 points, wound up third in the final ACC individual scoring race. Clemson's Bill Yarborough gaining second with a 28.3 average to Hemric's final 27.6. North Carolina's Len Rosenbluth at 25.6 and N. C. State's Ron Shavlik at 22.1 rounded out the first five scorers for the season.

The individual field goal shooting crown went to Virginia's Bob McCarty, who hit 236 of 444 shots for a 53.1 accuracy percentage. Wake Forest's Jackie Murdock won the free throw title with an 83.5 per cent accuracy mark on 101 free throws made in 121 attempts. A minimum of 100 field goals and 73 free throws scored was required for title contention. Hemric won individual rebound honors with an average of 19 per game. Shavlik was second with 18.1.

Wake Forest claimed both team efficiency crowns, posting a 46 per cent figure in field goal shooting and 75.6 per cent from the foul line. Virginia was second in

The Majors!

"New" Alston Expects Bums To Be Better

MIAMI, Fla., March 11 —(AP)— Sophomore Skipper Walter Alston today cited several reasons why his runnerup Brooklyn Dodgers will be better this season, not the least important reason being that he expects to be a better manager.

"I think it will be easier for me this year," said the man who was criticized in some quarters last year for being indecisive, "because I know my own club much better and because I am more familiar with the rest of the league."

Already they're calling the quiet, scholarly gentleman from Oxford, Ohio, the "new Alston" because of the way he has taken charge in camp here. A year ago at this time he was a man groping in strange surroundings, undecided just how to deal with such established stars as Jackie Robinson, Peeewe Reese, Gil Hodges, Roy Campanella, Duke Snider, Carl Furillo and the rest. Today, he is giving signs of becoming a take-charge manager. The players have felt it, too. As a result, the team appears in shape to open the season right now despite the unusually late spring training start.

field goal accuracy with 44.2 per cent, also second at charity row with 72.8. Wake Forest, with its 75.6 per cent free throw shooting average, led the nation for the second straight season.

BOB and MONK of TOWN & CAMPUS

SALUTE

CHARLIE KREPP

for his outstanding performance this past week-end in the Atlantic Coast Conference Swimming Tournament. Krepp took firsts in the 100-yard and 200-yard backstrokes and was a member of the winning medley relay team.

We want him to drop by TOWN & CAMPUS and pick out a shirt to his liking—compliments of the house

We want the old and young alike of Chapel Hill to make TOWN & CAMPUS their headquarters for the finest in men's clothing. Drop in today.

What young people are doing at General Electric

Young engineer is responsible for design analysis of \$3,000,000 turbine-generators

The average large steam turbine-generator costs \$3,000,000 and takes two years to build. It is one of the biggest pieces of electrical equipment made. Yet its thousands of parts are put together as carefully as a fine watch. Even a small change in design can affect the stresses and vibration of the turbine, and the way it performs. At General Electric, several men share the responsibility of predicting those effects before the turbine is built. One of them is 29-year-old E. E. Zwicky, Jr.

His job: analytical engineer

Here's what Ted Zwicky does. He takes a proposed mechanical design feature, describes it mathematically, breaks it down into digestible bits, modifies it, and feeds it to electronic computers. (It may take two months to set up a problem; the computers usually solve it in twenty minutes.) Then Zwicky takes the answers from the computers, translates and interprets them so they can be followed by design engineers.

23,000 college graduates at General Electric

This is a responsible job. Zwicky was reared for it in a careful program of development. Like Zwicky, each of our 23,000 college-graduate employees is given a chance to find the work he does best and to realize his full potential. For General Electric believes this: When young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

TED ZWICKY, B. S. in EE from the University of New Mexico, Class of 1945, joined General Electric after a year in the Navy, completed our Advanced Engineering Program in 1950.

Progress Is Our Most Important Product
