HEART ATTACK AFTER GAME OF GOLF

DENVER, Sept, 24 (A) - A heart attack struck President Eisenhower today and sent him to a hospital at a time of top political interest in his health. He was taken to Fitzsimmons Army Hospital.

The President's physician said tonight the chief executive "is resting well in the hospital and his condition is good." Eisenhower will be 65 on Oct. 14.

Murray Snyder, assistant White House secretary, told newsmen he didn't know whether Eisenhower had been placed under an oxygen tent.

Snyder added he could not say how long the President might be confined to the hospital or how long his convalescence might take.

An illness described as a "digestive upset" confined Eisenhower to bed in the home of his mother-in-law, Mrs. John S. Doud, last night and this morning. He suffered the heart attack at 2:45 a.m., MST. can do with a lot more clarity and

> Only a few hours before he became ill, the President, smiling, suntanned and looking the picture of health, had finished playing 27 holes of golf.

> The White House physician, Maj. Howard M. Snyder, sent word to newsmen about noon today that the President had indigestion and that his condition was "not serious."

> About two and one-half hours later, Snyder summoned newsmen to a special conference and told them the President had suffered a heart attack and had been hospitalized.

| suburb, and about seven miles from the Doug residentce.

The President made the trip to the hospital in his official car with Dr. Snyder. Mrs. Eisenhower remained at the residence with her mother, but later went to the hospital. The President walked from the house to the car.

A White House source said the President's attack was a mild coronary thrombosis. A hospital doctor explained a thrombosis is caused by a blood clot in a branch of the arteries supplying blood to the heart muscles.

The attack suffered by Eisenhower was the more stunning be- ites by 6-0. In the second half the cause of the fact he had played 27 holes of golf-more than most play-for-fun golfers shoot in a usual round-at Cherry Hills Country Club yesterday and had just finished a four-day fishing outing at a Rocky Mountain ranch.

The press secretary replied "no comment" when newsmen asked him for an explanation of:

1. Why the White House this morning announced that Eisen- tussle when junior tackle John hower had "suffered a digestive upset during the night," if Dr. Snyder knew or suspected several hours earlier that Eisenhower had been stricken with a heart attack.

2. Why there was no announcement of the President's heart attack until mid afternoon when it occurred at 2:45 a.m. EST.

One possible answer was that the physician suspected a heart attack very early this morning but wanted to confirm his thinking
