FOR WORK ON UNION:

Three GMAB Leaders Praise Jim Wallace

Don Fowler, Ed Borden and Bob Young, members of the Graham Memorial Board of Directors, had words of praise and commendation for the work of GM Director Jim Wallace and his staff in renovation and improvements made on the student union over the summer.

The Board of Directors was taken on a tour of the building by Wallace this week.

Don Fowler, president of the student body, said "I think that Graham Memorial is in the finest shape it has been in several years. There have been a lot of improvements made during the summer, and I hope the students will take advantage of their fine student union and its program. A lot of thinks are owed to Director Wallace and his staff for these improvements. Also a lot of thanks are owed to J. S. Bennett, supervisor of operations for the University," he said.

"I thought that a lot of improvements had been made during the summer and that the Graham Memorial Director and his staff certainly deserve commendation for their fine work over the past two years," said Interfraternity Council president Ed Borden after the tour.

Bob Young, chairman of GMAB, said. "I've been here two years and as far as I can see the building has improved 100 percent as far as physical

facilities are concerned. All facilities are new and practically all credit should go to Jimmy Wallace. Now our problem is to get the students to utilize these fine facilities."

Wallace began the tour in the barber shop. He said the two barbers now working serve more than 200 customers a week. Due to the increase in business, it is expected that another barber will have to be hired, he added.

Wallace pointed out the ceilings in the entire basement area have been covered with acoustical tile. The upper wall sections have been painted and the lower areas have been covered with plastic material.

Wallace then showed the board the renovations in the Rendezvous Room. In addition to the acoustical tile and paintwork there, the oak panelling has been refinished in a new light tone.

The ladies' lounge has also been renovated. The ceiling, which was formerly 16 feet high, has been moved down. The lounge has new wall paper and a perfume dispenser, which gives a squish of Tabu, My Sin or Chanel No. 5 for a dime.

The Roland Parker Lounge has been completely equipped with new folding chairs. According to Wallace, the new chairs possess qualities of style, comfort and economy which were not found in the old chairs.

Roundup: Bill Needed More 'Contemplation'

"contemplation," according to to. Chairman Jim Exum. One of the things Exum, also

University Party floorleader, dislikes about the bill is its representation clause. As the bill stands, 13 of the 52 convention delegates will be appointed by student body President Don Fowler.

Thus it is very likely that the number of Fowler-appointed representatives will have decreased when the bill gets out of Exum's committee. He has said that there will probably be "several" amendments tacked on the bill when it gets to the Legislature floor. The committee is composed of four UP members and three from the Student Party.

One of the bills introduced at the session Thursday night promises to be a controversial one. It an alumnus of Mercer Uni-

Bids Received

A list of the rushees who have been pledged to campus sororities was released early last night from the Dean of Women's Of-

There were 18 rushees receiving bids from Alpha Delta Pi, 21 from Alpha Gamma Delta, and 27 from Pi Beta Phi.

A complete list of the names of those who received bids will be published in Sunday's Daily Tar Heel.

Carolina's CU Beauties Ready For Judging Today

The University in Chapel Hill's three entries in the Miss Consolidated University beauty contest were ready for judging today. They'll represent the University in competition with girls from Woman's College and N. C. State this evening. Winner will be crowned Miss CU by State College Chancellor Bostain. From left to right, UNC's entries are Miss Harriet Watson, Eleanor Riggins and Ann Wrenn.

GM Calendar

The Graham Memorial Activities Board's calendar for the fall semester is now available. The calendar, which is printed in two colors, has been punched in order that it may be put either in a notebook or on a wall.

Students may pick up the calendar free of charge at the Graham Memorial Information Office or the GMAB on the top floor of Graham Memorial.

STUDENTS PROMOTED IN AFROTC

SAYS MED SCHOOL'S HEDGPETH:

Undergraduate Work Helps Medical Man

man of admissions of the university Medical School, told 250 prospective medical and dental students that a thorough grounding in an undergraduate school was one of the most important parts of a medical education.

Said Dr. Hedgpeth, "The premedical student should enrich his mind, soul and spirit as much as possible during his undergraduate years."

Dr. Hedgpeth spoke at a meeting of pre-medical and pre-dental students in Venable Hall Thursday night. The meeting was sponsored by the UNC Chapter of Alpha Epsilon Delta, a national honorary society for pre-medical students. Other speakers for the meeting were Dr. C. S. Jones, associate professor of zoology and advisor for the General College, and Dr. R. E. Sturdevant, chairman of admissions of the Dental School.

Dr. Hedgpeth said the medical school looks for "men who have had a good undergraduate background in the arts as well as the sciences, who are steadfast in purpose, willing to make sacrifices and above all, who have a keen sense of social consciousness."

"Medical education," added Dr. Hedgpeth, "is, like any education, a continuing process. If

Dr. E. McG. Hedgpeth, chair- you go into medicine, you will find yourself a medical student for the rest of your life."

Dr. Jones laid five pertinent questions before the students: (1) "Do you really want to study medicine or dentistry?" (2) "Why do you want to study medicine or dentistry?" (3)"What makes you think you ought to study medicine or dentistry?"

(4) "What else would you want to do if you didn't study medicine or dentistry?" (5) "How do you propose to go about studying for a profession in medicine or dentistry?" Dr. Jones pointed out that since the pre-medical curriculum is so specialized, a student should be sincere in his desire to study medicine before he begins this study.

Dr. Sturdevant lauded the UNC Dental School and reported a few statistics from the Dental School's 1955 Report. The statistics showed that more applications had been made to the UNC Dental School than to any other Dental School in the coun-

"Dentistry offers many opportunities." said Dr. Sturdevant. "In this state there is about one. dentist to every 3,500 persons. If you have service written on your heart, the dental field is open and the people are waiting
