Federal Jobs Are Ready For Grads, Seniors

A new Federal Service Entrance Examination (FSEE) has been developed by the federal government primarily for college graduates and seniors, according to a recent U.S. Civil Service announcement.

Early in 1955, more than 100 examinations were being used to recruit "college-caliber people" for federal agencies, the notice declares. Most of these are now absorbed by FSEE. Open to all college seniors and graduates, regardless of their major or field of specialization, this new multipurpose examination "broadens career employment opportunities and streamlines civil service selection techniques," according to the announcement.

"The federal government has launched an extensive recruiting program directed primarily to the nations colleges. Its objective is not merely to fill today's needs, but to bring into the federal service highly qualified, career-minded people who have the potential to grow and develop within the service and become the career managers, technicians and professional leaders of tomorrow," the announcement states.

The FSEE will be open continuously, so that interested persons may apply at any time. According to the notice, there are more than 50,000 positions in government, starting at salaries of \$3,670 a year. They are found in general administration, economics, other social sciences, business analysis administration, organization and methods examining, personnel management, library science and statistics.

They may also include work in purchasing, inspection, institutional management, warehousing, claim examining, supply management, publications, transportation and hundreds of other areas ac-

Acceptance Is Topic Of Dean's Talk

In a talk to the Westminster Fellowship this week, Dean of Student Affairs Fred Weaver discussed a series of topics dealing in general with the theme of "The Nature of Man."

One of the discussion questions in the series, "What must I do to be accepted?" Weaver broke down into two parts. The first part dealt with "social acceptance" of the youth before, during and after college. He said these phases were important but were usually exaggerated in the minds of a person.

Secondly, Weaver said the student wants acceptance for purposes of exciting influence—getting ones point of view or opinion accepted with respect to issues, and leading questions of policy.

After the discussion of these two parts by the audience, Weaver made the following suggestions: 1. Accentuate the positive by working constructively to "build up" and not tear down. 2. Overcome fear of failure and timidity of ideas. 3. Base position on a clearly discerned principle.

For a fourth suggestion, Weaver said not to mistake self-righteousness and self-assurance for sheer egotism.

Student Government Fetes Foreign Student

Student government yesterday held a reception for Erhard Kantzenback, exchange student from Germany.

After the luncheon in Lenoir Hall, discussion was held on the future of the exchange program.

GOD'S PROTECTORS

"The editors think of themselves as God's protectors of justice," accused Sen. Reid. He said the newspaper needs more columnists with views opposing those of the editors and spoke of the "brainwashed staff members."

Sen. Holmes supported freedom of the press, adding that he enjoys reading The Daily Tar Heel even if just to laugh at it. He said it is a "much more cultural type of humor than that in the Tarnation."

37 FOREIGN STUDENTS' VISIT:

World's Going To Zebulon

The world is going to Zebulon this weekend. Thirty-seven students studying at UNC from foreign countries are leaving Friday to spend three days in the small North Carolina town.

A two fold project has been planned. The students will not only study American customs and habits, but they will tell the citizens of Zebulon something of their own countries. According to a Zebulon newspaper, the townspeople hope the project will allow a valuable and interesting exchange of ideas for both groups.

The program will begin Friday at 5 p.m. with a welcome at the Town Hall by mayor Walter Dehman. Next, the students will be escorted to homes in which

they will stay during the weekend.

A banquet has been planned for Friday night. North Carolina Secretary of State Thad Eure will speak to the group. Also Friday night, the townspeople have planned a square dance for the students in the local gym.

Saturday's schedule calls for a meeting at the Town Hall at 9 a.m. The student-guests will visit recorder's court, the volunteer fire department, the police department, post office, a printing office and a cotton gin. In the afternoon they will go to a typical farm, some Zebulon homes, a tobacco market and a tobacco warehouse. A mock auction will be staged at the market.

The visitors will attend a Southern chicken barbecue at the armory before presenting a program to the townspeople Saturday night. During this program, the students will tell of some of their countries customs, sing native songs and demonstrate dances familiar in their own countries.

Saturday morning plans call for the students to assume the teaching of Sunday School classes in the local churches. The visitors will also conduct the morning worship services at the churches.

The "World Comes to Zebulon" program will be concluded Sunday afternoon at 3 p.m. when the students return to Chapel Hill.
