

# COACH TATUM'S REQUEST: More Men For Team

W. H. Bishop  
 UNC. Tatum offered, "I want the University of North Carolina football team to represent the University as well as the track teams and basketball teams do. I want the football squad to win more than one-half of its games. In the past couple of years the football teams have been far from winning half of their games. I want all the teams here to win fifty per cent of their games because the University of North Carolina is better than a 50-50 University, the students are better than 50-50 students, and the alumni are better than 50-50 alumni. It is my purpose, and the purpose of my staff, to help the football teams stand

stand up to the record of the University."  
 "Right now," continued the former Carolina football ace, "I would like to issue an invitation to every male student at the University who has ever held a football in his hands to come out for the team. There are plenty of men in this school who could help the team. Just the other day I received a letter from an alumnus which told me of a young man who was very good in high school but who did not go out for the team in college because he did not have a scholarship. That makes no difference to me. If he was good in high school, that warrants him a chance to try in college football."  
 "Carolina is falling behind in its number of players. The University of South Carolina has 87 players who will be eligible for varsity play next season, Maryland has 72 who will be eligible, but only 54 players will be eligible at Carolina. There should be more men than that out for the team. I'll say from personal experience that it does a coach more good to see a non-scholarship player make the team than anything else."  
 Coach Tatum and his staff are planning a meeting on Monday, February 6, for all men who might be interested in coming out for the team. The meeting will be in 304 Woollen Gymnasium. The time will be announced later. Anyone is invited to attend.

## Tar Heels, With Lennie, Meet Duke

Lennie Rosenbluth, Carolina's high-scoring All-American candidate, has recently been released from the hospital. Rosenbluth's illness was not serious, however, and the 6-5 ace worked out lightly yesterday afternoon.

Coaches Frank McGuire and Buck Freeman said Lennie worked out in yesterday's practice but did not scrimmage. Rosenbluth will definitely be ready for the Duke game Saturday night.

The Tar Heels will be undergoing another rough Big Four encounter in that Duke game Saturday night in Durham. The Tar Heels are currently leading the Atlantic Coast Conference race with an 8-1 record. Only a loss to Wake Forest mars the record of the Tar Heels.

After the Duke game Saturday night, the Tar Heels return home for a non-conference clash with William and Mary February 7.

### NOTRE DAME COACH PRAISES MCGUIRE

Carolina Coach Frank McGuire was paid one of the highest compliments one coach could pay another. Notre Dame basketball mentor Johnny Jordan said: "If I had a boy playing basketball in college I'd want him under Frank McGuire at NC."

## Lennie Still Leads ACC Scoring

Lanky Tar Heel star Lennie Rosenbluth continues to dominate scoring figures in the Atlantic Coast Conference this week. Coach Frank McGuire's slender ace tops all shooters in the ACC with an average of 23.9 points a game.

Grady Wallace, South Carolina's hotshot newcomer, remains hot on Rosenbluth's trail with a mark of 22.5 per contest. Bob McCarty of Virginia, Ron Mayer of Duke, and Lefty Davis of Wake Forest round out the top five individual scorers.

Clemson's race horse youngsters retained their team offense lead by a comfortable margin over the second place Carolina Tar Heels. The Tigers have poured points through the hoop at a rate of 85.9 per game while the Tar Heels have averaged 81.6 per contest.

Maryland's possession minded Terps continue their iron clad hold on the team defense leadership, giving up an average of only 62.6 a game. Duke's stingy Blue Devils are not far behind in second place with an average yield of 65.9 per game.

Writing you in appreciation of your patronage. I also give you an insight on things to come and present conditions.  
 Let's look into the future. Very soon I am to install larger and additional pumps. The installation of these and others require, upon completion, that I set my advertised price at 29 and 31.9. I promised I would keep my present low price. Therefore I will install a cash refund on sales: 1 per cent on \$2, 3 per cent on \$3, 4 per cent on \$4, and 5 per cent on \$5 or more. This refund on cash sales will at least pay for the raise.  
 Let's look at present conditions. Since I've contracted to do work, my competitors, after being located here for some time, without any decline, cut below my price. I hope that you, and others, will look back, at least once, and realize there had never been any decline on gas prices in this area, until I came.

### WHO'S AFRAID NOW!

Assume I close; will prices rise again? Will you be able to pay this level?  
 Write and see me.

Thank You,  
 Ben J. Whipple
