student an ample feeling of individual responsibility. . ."

WRITERS

Casey writes that Chapel Hill "is on the way to being the refugeof famous writers." He notes that the village's residents include Pulitzer-prize winning playwright Paul Green, novelists Betty Smith, Noel Houston, Josefina Niggli and Daphne Athas, and that Chapel Hill was the home of the late novelist' James Street.

a stack of papers under his combination bed-settee-cabinet and set fire to them, according to officials.

> The patient, a boy, had been under close observation, according to hospital authorities. He was removed from his room in the psychiatric ward within a few moments after the blaze was set and discovered.

> Smoke from the fire permeated the six-story wing and necessitated immediate evacuation of 40 patients. Alarm call "36" was automatically sounded at t h e fire station downtown shortly after 6 p.m. when a switchboard operator in the hospital pulled the alarm box.

At the same time the coded fire gong in the hospital was sounded and all available personnel, knowing from the code where the fire was, went to the scene to fight the fire according to their instructions in previous drills.

Before the firemen arrived, nurses and others in the hospital had put out the flames, using a half-dozen hand extinguishers and an inch and one-half wall hydrant hose line.

Even after the fast-burning mattress and wooden cabinet had been put out, the billowing smoke continued to pour through the building.
