He said the qualifications for an effective Christian leader were:

What Should Schedule For BA Undergrads Be?

"Undergraduate Education as Preparation for a Business Career" will be the subject of an informal discussion led by four UNC professors in the Main Lounge of Graham Memorial at 8 p.m. tomorrow.

Drs. G. A. Barrett and A. M. Whitehill of the School of Business Administration and Drs. E. A. Cameron and W. S. Wells of the College of Arts and Sciences will head the discussion, according to John Raper and Juan West, co-chairman of the Student-Faculty Forum Committee of Graham Memorial Activities Board, which is sponsoring the event.

The program should be of special interest to all undergraduates who are interested in business careers," Raper said yesterday.

Two of the professors will probably take the view that four years in Arts and Sciences is better preparation for a business career. The other two are expected to contend that two years in the General College and two years in Business

Administration are better, according to Raper.

Associate professor of business law since 1947, Dr. Barrett has served on numerous federal and state arbitration and conciliation boards and is chairman of the BA School's committee on curriculum and instruction. He is also director of the school's Master of Business Administration program.

Before coming to North Carolina in 1949, Dr. Whitehill taught at Virginia and at Harvard. He has done research work in and written on a wide range of business and economic subjects.

In the BA School here he teaches courses in personnel relations, labor relations, human relations in business, industrial management, and business research and report writing.

Dr. Wells, who was appointed Kenan Professor of English in February, 1955, has been with the university since 1935. A teacher of 16th and 17th century English, Dr. Wells is general editor of Annual Renaissance Bibliography.

For five years prior to 1952 he was dean of the College of Arts and Sciences and for three years he was chairman of the General Faculty.

Dr. Cameron, who is head of the special freshman class program, is chairman of the faculty committee on provisions for superior students and is chairman of the committee on examinations and instruction. He has taught math here since 1929, and was director of freshman math, 1937-1949.

Dubliners Now On 5th Tour

The Dublin Players, now making their fifth coast-to-coast tour of the United States and Canada, will appear here March 7 under the auspices of the Recreation Committee of GMAA.

The group will present "Pygmalion" by George Bernard Shaw, at 8 p.m. in Memorial Hall.

Primarily drawn from the Abbey and Gate Theatres of Dublin, they play with the great skill and style characteristic of those two classic institutions, according to a representative of the group.

The group gives a new meaning to the great plays of several famous playwrights, the representative said. It has been called "one of the foremost acting companies of our time" by Eddie Dowling, famous producer-actor on Broadway.

W. D. Carmichael, state campaign chairman, said the total does not represent complete returns since reports have not been received from all localities.

However, Carmichael said, "compared to collections this time last year, we are running far ahead of the 1955 drive." The funds are used for research aimed at better methods of diagnosis, treatment, rehabilitation and ultimate prevention of heart disease.

The USNSA is a confederation of student body groups of over 300 American colleges. Part

of its program is "to promote international understanding and friendship."

Under this program, Miss Sigmund's job is "to make the American student aware of the world in which he lives and the responsibilities which will confront him," according to a USNSA publication describing her

work as a campus international administrator.

In performing her duties, Miss Sigmund "interprets the overseas work of the USNSA to the member campuses and acquaints

them with the world student community," the publication said.

Three former students at UNC—Jim Wallace, Al Lowenstein and Dick Murphy—represented Carolina at the first meeting of USNSA and helped found it, Miss Sigmund said.

Miss Sigmund spoke with officers of several UNC clubs and organizations which promote better relations between the U. S. and foreign countries while she was here Tuesday.

She attended Mt. St. Vincent College, N. Y. She has traveled to Europe twice under the USNSA's non-profit tour program for college students.
