A student called before the Council is first contacted by a Council member and presented with a summons citing the date of appearance, nature of the violation, and a statement of general Council procedure. After the case is tried, a stu-

dent may receive one of four sentences: 1-suspension for an indefinite period (usually one semester), 2-suspension with a recommendation that the student not be allowed to return, 3-probation for an indefinite period (usually one semester), or 4-a Council reprimand. Students may appeal sentences to the newly-formed Faculty-Student Appeal Board, which is composed of three faculty and three Council representatives. Right to appeal before this board must be secured through the Chancellor's office, however. Last year, 157 students came before the Council for Honor and Campus Code violations. Of

this number, 30 received indefinite_suspensions, 56 were exonerated, 22 received indefinite probations, 15 were reprimanded, 13 were restored to eligibility, and 11 were reinstated. Two cases were dismissed, reinstatement denied two, and removal from probation denied to only one.
