Rodman Spells **Out Appellate Court Functions**

By PRINGLE PIPKIN State Associate Justice William

thropic Literary Society Tuesday ed last week by University Party night, on "The Proper Function of the Appellate Court." Before a crowd of about 35, Justice Rodman said, "I will express my views but no opinions on

any specific judicial questions." After expounding his views on the court, the speaker said the judges of the courts must do ther. best to make wise decisions, and the people of the United States

must respect the laws as handed down by the courts. Rodman defined the appellate court as the judicial booy that deals with average ordinary matheat the relationship of the judi-

The speaker explained how the scribing the court, the former Phi tact her for instructions member said shortly after the conlitution of Conn. was set up, the Chancellor Robert B. House will precedent of the court cannot pro-

> state and national levels. The lecturer said the gravest duty of judges was that of declaring amendments to the constitution or laws invalid, and he continued to say the judges must

> make interpretations of the laws

written words. He said the court should interpret the law in relation to the common law. Justice Rodman illustrated his point by describing a case against the United States concerning the gold standard and the impairment of an obligation. The court declared that the plaintiff should be paid in silver or currency as gold was a medium

Rodman said if the people did not like the laws it was up to them and their legislatures to change moved into a different house and terested in their share-the-work hand for optional breakfasts and the laws, not the court.
