

Covering The Campus

WESLEY CHOIR
The Wesley Choir will rehearse from 7 to 8 p. m. today at the University Methodist Church.

YOUNG ADULT GROUP
The Young Adult Group of the Chapel Hill Methodist Church will meet Tuesday at 8 p. m. at the church.

WUNC
Today's schedule for WUNC, the University's FM radio station:
7:00—Music in the Air.
7:30—By Heart.
7:45—Vistas of Israel.
8:00—Hill Hall Concert.
10:00—News.

Coffee Day Adds \$500 To March Of Dimes

Coffee toppers added \$500 to the March of Dimes Kitty last Wednesday when local eating establishments turned over all of their coffee receipts to the polo drive. Jesse West, chairman of the phase of the drive, said the Carolina Coffee Shop brought forth the biggest receipts, including a few pieces of folding money.

Cuban School To Offer Five Scholarships

The University of Havana, Cuba, will offer to U. S. citizens five tuition scholarships for its summer session of 1957. The Division of Education of the Pan American Union will select the scholarship candidates.

Eligibility requirements are: (1) U. S. citizenship; (2) possession of BA or BS or equivalent degree, as of June, 1957; (3) working knowledge of Spanish.

Deadline for receipt of application for the scholarships is May 15. Scholarships may be used for either the short session (July 15 to Aug. 9) or long session (July 15 to Aug. 23).

Application blanks and further information may be obtained from the Section of Education Interchange, Division of Education, Pan American Union, Washington, 6, D. C.

Have You Forgotten Something?

Pete the Tailor has loads of clothing that has been brought in for Pete's first class repairs and has been left.

Are You Guilty?

Pete surely would hate to have to sell these clothes. How about coming by and picking up yours now

11:30—Sign Off.
NCPA

The Phi Delta Kappa professional fraternity will present a program on "The Future of Pharmacy" at 8 p. m. tonight in Howell Hall.

2 International Schools Honor Statistics Prof

Dr. Harold Hotelling of the UNC Dept. of Mathematical Statistics has been honored by two universities in Australia and India.

The Indian institution requested personal information and a list of Hotelling's work to include in a display being planned for the university's centennial observance.

The University of Australia, which includes a big statistics dept., has written for a portrait of the UNC professor for placement in the department.

In 1940 Dr. Hotelling was president of the Indian Statistical Congress. He at that time was in India advising the government on statistical problems.

At UNC since 1946, Dr. Hotelling is associate director of the Institute of Statistics and professor of statistics. He formerly taught at Princeton, Stanford and Columbia universities.

Among his degrees are an honorary doctorate of laws from the University of Chicago, A.B. and M.S. degrees from the University of Washington; and a Ph. D. from Princeton.

AVAILABLE FOR NEXT YEAR

School Of Education Lists Scholarships, Fellowships

The UNC School of Education Sunday released a list of scholarships and fellowships now available for the 1957 summer session and the 1957-58 academic year.

The summer session scholarships available include 75 scholarships for high school science and mathematics teachers provided by the National Science Foundation. These are for \$450 each plus tuition, fees, and allowance for transportation and dependents.

GMAB Has Jam Session At GM Tonight

Graham Memorial Activities Board will sponsor its first Country-Style Jam Session in recent years tonight, according to the program's coordinator, Warren Miller.

Miller stated that 25 to 30 country-style entertainers are expected to be on hand for tonight's event, which begins at 8:30.

"The point that I want to get across is that this is not a dance or rehearsed show, but rather an informal session for all the folk and country singers and musicians at Carolina, which number somewhere over 50," Miller said.

All prospective participants

Further information on these scholarships may be obtained from the Institute of Natural Science at UNC.

Also available for the summer session are 30 scholarships for elementary and high school teachers worth \$100 each and five scholarships for school administrators for \$150 each. Recipients of the scholarships for elementary and high school teachers must be class room teachers. Recipients of the school administration scholarships must be actively engaged in that field.

The awards available for the 1957-58 academic year include 30 scholarships for high school science and math teachers worth \$3,000 each plus tuition, fees and allowance for dependents, travel and books. These are provided by the National Science Foundation,

and more information concerning them can be obtained from Prof. E. C. Markham of the Institute of Natural Science.

There are also two graduate non-service fellowships available in educational administration worth \$1500. In addition there are two du Pont fellowships for high school science and math teachers, worth \$1,200 each plus tuition and fees, and one graduate fellowship in education available for the 1957-58 academic year.

Traffic Count Conviction Arrested By High Court

Theodor M. Danziger, local restaurateur, has in effect won an appeal to the State Supreme Court of a local traffic violation conviction.

In a decision handed down this past weekend the high court arrested the judgment of the Orange County Superior Court that Mr. Danziger be fined \$15 and court costs on charges, of failing to show his motor vehicle, operator's license.

Harold Edwards, Mr. Danziger's attorney, said that the Supreme Court in its decision declared "The law only requires the holder of a driver's license to exhibit his license when operating a motor vehicle, to an officer in uniform. . . The warrant in this case did not charge a crime and did not name the officer."

Mr. Danziger was charged on Jan. 10, 1956, with failing to show his operator's license to Carboro Patrolman A. L. Pendergrass, who also, charged him with passing a stop sign and failing to have an operator's license.

Recorder's Court Judge William S. Stewart found the defendant guilty of failing to show his operator's license to an officer in uniform and fined him the costs of court. Mr. Danziger was given a no pros on the no operator's license charge and found innocent of passing a stop sign.

Key point of the case was that Mr. Danziger would not surrender his license to the patrolman, but said he did exhibit it so that the officer could see it.

FOR WUNC-TV:

Television Scheduling Is Complicated Affair

By DORIS WEAVER
Four men met during the past week to work a puzzle.

The puzzle involved the WUNC-TV program schedule in view of a new semester at the Consolidated University of North Carolina, the convening of the State Legislature, and the coming of NBC exclusive live programming.

The men were Earl Wynn and John Young, director and assistant director of WUNC-TV's Chapel Hill studio; William Young director of the Greensboro studio; and Roy Johnston, director of the Raleigh studio. They met on the Chapel Hill campus.

A new program schedule is set up on Channel 4 at the beginning of each semester. This falls early in February.

Daily reports on happenings of the Legislature will bring additional programming to Channel 4 later in February.

NBC begins educational TV programming Mondays, Wednesdays and Fridays from 6:30 until 7:00 in mid-March.

A schedule of almost entire live programming has previously been set up by the three studios, including 2 hours and 40 minutes of college credit teaching. Enrollments are already being made with the Extension Divisions of Woman's College and the University at Chapel Hill.

The question before the group is how to keep times and programming consistent throughout the spring.

For instance, the four men who must juggle the programs from their respective studios to fall into a pattern that is both program "wise" and agreeable to all, meet conflicts like this: "6:30 Report", which has been telecast each evening for more than a year, will obviously have to be moved when or before NBC starts programming at this time in March. But what time is better for a "6:30 Report" than 6:30? It cannot become "7 o'clock Report", because this time is already filled each night with live programming. The same goes for 7:30, 8:00, 8:30. Anyone for a mid-night "6:30 Report"?

the Legislature, "6:30 Report" will also include the daily report from the Legislature, so the program must be moved, not cancelled.

It cannot be rolled back to 6 p.m. because the daily children's programs in this bloc cannot be moved back to 5:30, because "Solid Geometry" is scheduled to begin in February at this time. . . and so on.

Nevertheless, the puzzle is beginning to fall into place, and by the beginning of the new February program change, viewers may expect to see the same program each week at the same time.

Phi Not Meeting; Di Holds Executive Session
The Philanthropic Literary Society will not meet tonight while the Dialectic Senate will have an executive session for the election of new officers.

Orchestra To Receive Salutations

At the call of Governor Luther Hodges, North Carolinians are this week saluting their own Symphony period set aside as "North Carolina Symphony Week."

The orchestra staff makes headquarters the year around in Chapel Hill, but the orchestra from early February until late May tours the state from Banner Elk to Elizabeth City. Symphony Week is the state's gesture of appreciation to an organization which is dedicated to the purpose of bringing good music to all the people.

In the majority of the 44 towns and cities of the state in which the Symphony Orchestra will play concerts during the 1957 touring season of February 5 to May 22 special programs will be carried out in observance of Symphony Week.

Membership drives in the majority of these communities were concluded in the fall, but three, those of Smithfield, Kinston and Banner Elk, are running concurrently with Symphony Week, and Roxboro is holding mop-up operations. Raleigh will have its membership enrollment starting Jan. 21, and Rocky Mount, Salisbury and Kinston will have February drives to conclude this phase of Symphony operation.

Florida Girl Is Added To Music Dept. Staff

An addition to the UNC Music Dept. staff for this academic year has been announced by Dr. Glen Haydon, departmental chairman.

Miss Quillian White, a graduate of Randolph-Macon College in Lynchburg, Va., and for several years a student at the Mannes Music School in New York City, is now teaching here. Miss White is currently working toward an M.A. degree in musicology.

A native of West Palm Beach, Fla., she plays the piano and the organ, and is presently studying the viola.

Although Miss White has done extensive soprano solo work and was in the Collegiate Chorale for two years under Robert Shaw, her aim is college teaching. "As a practical preparation for this goal," Dr. Haydon said, "she considers the position of graduate assistant in voice a stepping stone to larger responsibilities."

Her first teaching at UNC was done during the second term of summer session, 1956, and she has had a busy schedule of private lessons for the fall term.

Public Health Head Assumes National Post

Dr. B. G. Greenberg, professor and head of the Dept. of Biostatistics, UNC School of Public Health, has assumed the duties of chairman of the Statistics Section of the American Public Health Assn.

Dr. Greenberg was elected to this office at Atlantic City last November. The Statistics Section is one of the oldest sections in the American Public Health Assn.

Friday's Inauguration Is Set For May 8

RALEIGH—(AP)—Formal inauguration ceremonies for William C. Friday as President of the Consolidated University of North Carolina will be held on May 8.

This was decided yesterday by the Executive Committee of the Board of Trustees at a meeting held in Gov. Hodges' Office.

The Executive Committee also acted on a number of personnel changes at the three branches of the University—North Carolina State College, the University at Chapel Hill and Woman's College at Greensboro.

Missile Controls

The United States Monday proposed international controls of outer space missiles as part of a new five-year disarmament plan approved and blessed by President Eisenhower.

British Talks Start

BEIRUT, Lebanon — (AP) — The Lemeni legation said Monday it has received offers from Arab and Foreign volunteers "to fight against British aggression on Yemen."

The legation said the offers came from "Arab technicians and military men and from people of other nationalities" and were being considered by King Imam Ahmed.

LONDON—(AP)—Prime Minister Harold MacMillan's new government plunged Monday into talks ranging from the Suez Canal crisis to setting up a free trade market in Western Europe. The new cabinet was sworn in before Queen Elizabeth II at Buckingham Palace.

International News

(Continued from Page 1)

"evidence is accumulating" that the Communists are trying to take over the Middle East.

Appealing for Senate backing of President Eisenhower's request for standby military authority to cope with possible Red aggression, he said the Soviet threat to Middle East security is dangerous and real.

"I'd say that this is the most serious threat we have faced over a period of 10 years," Dulles told the Senate Foreign Relations and Armed Services Committees in joint session.

Anglo-Yemen Talks

LONDON — (AP) — Britain disclosed Monday it has initiated negotiations with Yemen aimed at peace talks to end the fighting along the wild, mountainous and ill-defined Aden-Yemen border. Britain administers by treaties the Aden protectorate on the southwest tip of the Arabian Peninsula dominating the vital Red Sea trade route between Europe and the East.

Soviet To Meet

CAIRO — (AP)—Yemen's minister to Egypt accused Britain Monday of new tank and jet plane attacks along the vaguely drawn frontier of the land where the Queen of Sheba once ruled. The minister, Abdel Rahman Abu Taleb, told reporters the British should stop their attacks before beginning discussions with Yemen to end fighting along the Aden-Yemen frontier. He challenged Britain to agree in the UN to a neutral commission to survey the disputed, damaged areas.

LATE DATE WITH A BIRTH RATE

JUNIOR'S driving the combine tonight. He's got a date with the 10,753 new Americans who'll be born by next sundown. A birth rate that has upped our population 30 million since 1940—while 2 million farmers have left the farm for other jobs.

How can 2 million fewer farmers feed 30 million more people? Machines—millions of them—are the answer. Today's farmer still has to work late when his crops are ready. But "hired hands" of steel enable him to produce more. Tractors do the work of 40 men. Grain combines reduce labor 85%.

Today's farm production depends on the trouble-free operation of these machines. That's why every make of farm tractor uses Timken® tapered roller bearings; why more and more implements are using them, too.

Timken bearings reduce breakdowns because they roll the load. They practically eliminate friction, require less maintenance, minimize wear to keep farm machinery on the go.

Keeping farm equipment rolling smoothly is just one example of how the Timken Company keeps America on the go. We work hand-in-hand—drawing-board-to-drawing-board—with all industry to increase speed and precision. Decrease wear and maintenance. Improve the machines that are improving your way of life.

This spirit of cooperation and progress has helped make "Timken" the best-known bearing in America. It's helped make us the world's largest manufacturer of tapered roller bearings.

And it's kept us moving up. If you want to keep moving up, you might be interested in what we can offer you. Write for our booklet, "Career Opportunities at the Timken Company". The Timken Roller Bearing Company, Canton 6, Ohio.
