Space Traffic

WASHINGTON, Jan. 4 — Space traffic out of the Cape Canaveral, Fla., missiles test center may become heavy with Vanguard rockets by the end of March.

This prospect was raised in a statement today by Dr. John P. Hagen, director of the U. S. Scientific Satellite project Vanguard, who said the launching of a 200-pound baby moon is still planned for March.

A spokesman at Vanguard headquarters here said about four preliminary test firings of the three-stage rocket are scheduled before the major launching in March.

Present indications are that it will be the end of the second week in January at least before Vanguard scientists try again to launch a complete test rocket carrying a 3 1/2-pound sphere in its nose. They have been getting ready for a second attempt since their first rocket blew up Dec. 6.

East-West Pact

LONDON, Jan. 4 — Prime Minister Macmillan proposed tonight an East-West non-aggression pact and perhaps a summit meeting late. Both have been urged repeatedly by the Soviet Union.

Macmillan declared in a nationwide broadcast that Britain is ready to negotiate either within or outside the United Nations to test the sincerity of Russia's current peace offensive.

"We could start by a solemn pact of non-aggression," the Prime Minister declared. "This has been done before. It would do no harm. It might do good."

'Security Mania'

WASHINGTON, Jan. 4 — The Democratic Digest said today the 1954 "security mania" of Vice President Nixon, the late Sen. McCarthy (R-Wis.) and others helped to destroy the morale of the nation's scientists and retarded many scientific programs.

The Democratic National Committee's publication, in an article, "Nixon and Pals vs. the Scientists," said:

"There is little doubt that one of the reasons many of our scientific programs have been retarded is the fact that the handling of such men as Dr. Oppenheimer and Dr. Condon, and the attacks on such government research centers as Fort Monmouth (N.J.) caused a demoralization of the scientific community which in turn had a disastrous effect on our whole scientific research and development program."

Venezuela

VATICAN CITY, Jan. 3 — A well informed source today predicted:

(See NEWS BRIEFS, page 3)

IN THE INFIRMARY

Students in the infirmary yesterday included: Misses Hope Sparger, Lula Sue Ballentine and Beverly Ann Reutz and Raymond Smith, Joe Elder, Mason Morris, Wade Lefler, David Davies, Julian Smith, Walter Slater, Milburn Gibbs, Dewey Johnson, William Brigman and Charles Campbell.

GM's Slate

The following activities are scheduled for Graham Memorial today: Episcopal Church, 9:45 a.m., Rendezvous Room; Friends, 11 a.m., Grail Room; Student Party Advisory Board, 9:30-10:30 p.m., Woodhouse Conference Room.

The following activities are scheduled for Graham Memorial Monday: GMA, 4-6 p.m., Grail Room; Grail, 9-11 p.m., Grail Room; Dance Committee, 7-8 p.m., Grail Room; Student Party, 7-9:30 p.m., Roland Parker I; Student Party, 7-9:30 p.m., Roland Parker II; IFC, 2-5 p.m., Woodhouse Conference Room; IWC, 7-8 p.m., Woodhouse Conference Room; Traffic Committee, 8-10 p.m., Council Room; Bridge Club, 7-11 p.m., Rendezvous Room.

The Daily Tar Heel

EDITORSHIP

A discussion of how that top Daily Tar Heel post is filled is topic of editorial on page 2.

Banquet, Reception Set After Abba Eban Talk

A banquet at Carolina Inn and a reception at Graham Memorial have been planned in connection with the visit of Israeli Ambassador Abba Eban Wednesday.

Eban will deliver a speech in Hill Hall at 8 p.m. Wednesday. The banquet for the Ambassador will be held at 6:30 at Carolina Inn. After his speech, a reception in Graham Memorial has been scheduled.

The Carolina Forum is sponsoring his speech.

Eban became ambassador to the United States in September, 1950, while at the same time retaining his function as chief Israeli delegate to the United Nations.

His political work in Israel began 12 years ago when he went to Jerusalem as liaison officer of Allied headquarters with the Jewish population. Eban's task was to enlist participation of Jewish volunteers in special missions on behalf of the Allied forces in the Near East and Europe.

Later, he became chief instructor at the Middle East Arab Center in Jerusalem. During this period, Eban traveled widely in the countries of the Near East, frequently lecturing in Hebrew and Arabic to Jewish and Arab audiences and contributing to journals written in those languages.

After World War II, Eban served with the Jewish Agency in Jerusalem. In 1947 he participated on the staff of the Jewish Agency which secured the vote of the General Assembly of the United Nations to set up the state of Israel.

UNC Freshman Being Charged In Cobb Case

Philip M. Ordway, a UNC freshman from Chapel Hill, has been charged with malicious mischief in connection with vandalism in Cobb Dormitory, according to local police.

The alleged incident occurred New Year's Eve when a party for Chapel Hill students turned into a fracas. A juke box was destroyed, several records were stolen and other acts of vandalism were reported.

Ordway will be given a hearing on the charge in Recorder's Court Tuesday morning.

To receive constructive criticism for the improvement of any phase of The Daily Tar Heel is the purpose of the first hearing set by the Newspaper Research Committee. The first hearing will be held Tuesday from 4 to 7 p.m. in Roland Parker II. A second public hearing has been scheduled for Jan. 13, at 2 p.m., in Roland Parker II.

Newspaper Hearing Set

To receive constructive criticism for the improvement of any phase of The Daily Tar Heel is the purpose of the first hearing set by the Newspaper Research Committee. The first hearing will be held Tuesday from 4 to 7 p.m. in Roland Parker II. A second public hearing has been scheduled for Jan. 13, at 2 p.m., in Roland Parker II.

Carolina Stops Wake Forest, 71-45, To Continue New Winning Streak

Brennan Hits 32 To Pace Tar Heel Win

By BILL KING

Senior forward Pete Brennan dropped in 32 points and hauled down 22 rebounds to chip in about the only excitement of the evening last night as his Tar Heel mates downed a hipless Wake Forest team to the tune of 71-45.

Brennan's point total was his all-time high, topping the 27 he scored against Duke in the Dixie Classic, and his rebound production was only three off the school record held by Lennie Rosenbluth at 25.

It was strictly no contest from the very beginning as the Tar Heels ran up a quick 17-7 lead after four minutes, led at the half, 37-21 and continued to add insult to injury in the final twenty minutes.

There was a sharp contrast between the Deacon team last night and the one which put on a terrific three-day performance in the Dixie Classic last week. The Tar Heels' effort, in fact, was slightly tarnished by the sluggish play of the Deacons.

In short, Wake Forest couldn't buy a basket and had little success grabbing rebounds against the tall, talented Tar Heels who threw up an impenetrable defense that had the visitors as jittery as Nervous Norkus by the time the second half began.

Brennan was hitting from all corners on his deadly jump shot. He took only 16 shots from the floor and hit 12. He was good for eight of nine from the charity line. Lee Shaffer and Tommy Kearns followed Brennan with 13 and 10 points respectively. Olin Broadway and George Ritchie had nine each for Wake Forest.

From the floor, the Tar Heels were good for a 56 percentage while the Deacons could muster but 27.

Public Health Seminar Set

A seminar on radiation and public health will be held at the UNC School of Public Health Jan. 27-29.

This is the fourth annual meeting of this kind and is being conducted by the UNC School of Public Health and the N. C. State Board of Health.

The State Board of Health has recently put into effect a radiological program under the direction of Dr. William Jeck.

Also, it was recently announced that the UNC School of Public Health was establishing a program to train North Carolina health workers to meet the health problems of living in the atomic age.

This program, which will get underway this month, was made possible by a grant from the Atomic Energy Commission.

Taking part in the seminar will be J. S. Ameen, N. C. State Board of Health; Dr. Donald R. Chadwick, Public Health Service; Washington, D. C.; Emil T. Chanlett, UNC School of Public Health; Dr. George O. Doak, UNC School of Public Health; Dr. Leon D. Freedman, UNC School of Public Health; Dr. Marvin L. Granstrom, UNC School of Public Health; John C. Lumsden, N. C. State Board of Health;

Dr. Daniel A. Okun, UNC School of Public Health; Dr. William N. C. State Board of Health; Aaron P. Sanders, Duke University;

Dr. Paul E. Shearin, UNC Department of Physics; E. Jack Stacy, N. C. State College and Richard L. Wittenki, Baptist Hospital, Winston-Salem.

AND AWAY WE GO — Pete Brennan (35) taps the ball away with a fingers-length edge over the palm of Wendell Carr (45). Brennan showed the same dominance of controlling the ball under the backboards by reaping in 22 rebounds. (Photo by Spoon)

Speaks Jan. 12

Mrs. Eleanor Roosevelt's Visit Here Now In Final Stages Of Planning

Mrs. Eleanor Roosevelt's visit here Jan. 12 is in the final stages of planning, according to an announcement yesterday by Bill Sugg, chairman of the UNC Collegiate Council for the United Nations Committee.

The CCUN and the Orange County chapter of the American Association for the United Nations are jointly sponsoring Mrs. Roosevelt's visit.

Mrs. Roosevelt's public address on Jan. 12 is the highlight of a conference being sponsored by the local CCUN. The conference is being held for representatives from 37 colleges and universities in the state in a move to organize CCUN organizations on other North Carolina campuses.

In a letter to the 37 colleges and universities, Sugg explained that the local CCUN Committee was interested in seeing other CCUN organizations formed in North Carolina because the United Nations is the only organization at this time that could achieve world peace.

The CCUN was set up as an educational organization to promote an understanding of the United Nations and the relationship of the United States to the UN.

The traveling secretary for the CCUN, Miss Connie Currie, will

meet tonight with members of local CCUN committee to map out details for the conference.

In a letter from Mrs. Roosevelt's secretary recently, the tentative schedule for her schedule here was confirmed. The public address, "Let's get on with it," will be at 2:45 p.m. the same which will be carried by WUNC day.

Symphony Orchestra Of UNC Conducts Poll

By BILL FREE

We live in the era of the public opinion poll. We Americans are vitally interested in the tastes and opinions of our neighbors and fellow citizens. In almost every newspaper and magazine we find the results of surveys indicating America's favorite tooth paste, movie star, political candidate or television show. Statistics tell us our habits in every phase of life.

In keeping with this spirit of inquiry about ourselves, the North Carolina Symphony has made a poll of its own: to determine North Carolina's favorite symphonic music.

Ballots were sent to members of the North Carolina Symphony in various parts of the State, asking them to vote for their favorite composition.

The primary reason for the poll is to provide information to guide Dr. Benjamin Swalin, Symphony director, in the selection of future programs, but the survey is also interesting from another standpoint.

Thirty-five composers and 60 compositions are represented in results. From the point of time, these range from old masters such as Handel, who was born in 1685, to contemporaries like Leroy Anderson, who is still producing his most popular music.

The music is equally varied in form and type. From the symphonic works of Beethoven and Brahms to the musical comedy of Sigmund Romberg, all types are present. The piano works of Chopin, waltzes of Strauss, the modern symphonies of Sibelius, jazz rhythms of Gershwin's Rhapsody in Blue, exotic melodies of Rimsky-Korsakov's Scheherazade, folk tunes of Liszt's Hungarian Rhapsodies, and the spiritual reverence of Schubert's Ave Maria.

This variety does not signify a few isolated quirks. Of the 57 dorks designated, 56 received a

number of votes so similar as to prove their widespread popularity. When one Symphony or composer does stand out from the rest, it is usually in terms of concentrated popularity, not in latest support.

The outstanding choice is the perennial favorite, Beethoven. Six of the nine Beethoven Symphonies were named, as was his Concerto No. 5 in E-flat major. The Fifth Symphony received the largest number of votes of any composition designated.

In addition to Beethoven, Tchaikovsky and Brahms received a large number of votes. Tchaikovsky's Fifth and Sixth Symphonies, as well as his most popular composition and Brahms' First Symphony, received many votes.

Second most popular composition was Dvorak's New World Symphony. Other works receiving numerous votes are Franck's D minor Symphony, Beethoven's Ninth, Schubert's Unfinished Symphony, Schubert's Unfinished Symphony, Sibelius' Finlandia, the Strauss Waltzes, and Rossini's William Tell Overture.

The position of Sibelius, the Finnish composer who died in 1957, is unique. He is the only contemporary composer who is represented by four or more compositions in the poll. North Carolina seems to add her second to the world-wide nomination of Sibelius as the most significant modern master.

The only other composers listing four or more compositions are Beethoven, Brahms, Tchaikovsky and Liszt.

The results of this poll are a compliment to the diversity of tastes and the knowledge to the literature of music demonstrated by the people of North Carolina. It is reassuring proof that the people of the State are equipped to enjoy and appreciate a wide range of symphonic music and some of the greatest music ever written.

Peanuts Is Entertaining Even At The South Pole

Readers of "Peanuts," the popular comic strip that appears in The Daily Tar Heel, will be glad to know that Charlie Brown, Lucy, Schroeder, Linus, Snoopy the dog, and all the other little people in the world are doing their bit with the U. S. Navy's farthest station in the icy wastes of the Antarctic continent.

This is attested by Rolla Crick,

reporter on the Oregon Journal, who recently returned from a Navy-sponsored visit to Antarctica.

On what was intended to be an "overnight" flight to the Amundsen Scott Station, within a few hundred yards of what the scientists have determined to be the South Pole, the plane broke down and couldn't be repaired in the -60 degree temperatures, so "Bud" Crick found himself marooned for 21 days with the 13 men of this most remote colony.

In the huts, on bulletin boards or anywhere within shelter where a thumbtack or nail would hold, Crick found clippings of "Peanuts" comic strips tacked up. One of the men had brought a considerable number of them in with them, and "rationed" them out, one each day, for the others to enjoy.

Of all the reading matter—pictures, books and magazines—that these men have for entertainment, "Peanuts" was the favorite, and the subject matter of the strips was an unfailing topic of talk.

A few days after his return to

the main base, Crick was told that the supply of "Peanuts" strips at the polar colony was running out, and he reported this to the Oregon Journal.

Fred McNeil, executive news editor, wrote to United Feature Syndicate, which distributes the comic strip, pointing out that the 13-man
