Tells Story On Way To Jail: Fires Gave Emotional Relief

By Curtis Gans

Carolina's firebug scare, which had the University in an uproar and caused more than \$60,000 property damage, ended vesterday afternoon when Richard T. Satterwhite, 21, first year medical student from McCain, admitted setting some fires and to attempting to set two others.

Satterwhite admitted starting the fires while he was being taken from Chapel Hill jail to the Orange County jail in Hillsboro. Satter white described enough details, according to police, to give credence to his story.

Satterwhite said that on the night of Jan. 9, when six fires were reported, he had set these and watched several of them, including the major fire in Swain Hall. He said that he had felt a compulsion to set these fires.

Earlier yesterday, a shaky Satterwhite pleaded guilty to charges of breaking and entering the home of W. D. Carmichael, University vice-president, Thursday, and arson in connec-

> • tion with a fire at the residence of D. Allen MacPherson, Jan. 23. Recorder's Court judge William F. Stewart bound over Satterwhite to the late February session of Orange County Superior Court, and ordered him jailed without

bond on the arson charge, and with \$10,000 bail on the charge of breaking and entering.

hearing. Satterwhite broke down screaming on the court house steps when he saw his parents, who came from McCain to Chapel Hill, after being notified by the police of their son's arrest.

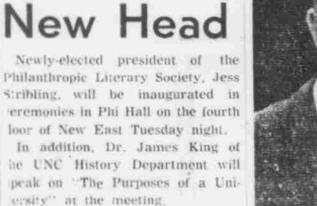

Satterwhite was arrested Friday night at 8 p.m., when police traced his car, after he had broken into

SATTERWHITE BURIES HEAD IN COURT Charged With Arson For Recent Rash Of UNC Fires

Before the Recorder's Court Bottle-Smashing Youth **Turns To Fire Setting**

Richard Satterwhite, who earlier in his life relieved built up tensions by breaking bottles and driving his car, turned lately to setting fires. Satterwhite was apprehended after he had broken into the home of W. D. Carmichael, UNC Vice-President, Mrs. Carmichael, returning home found Satterwhite's car in her driveway. She entered the house the Carmichael home on Thursandn found Satterwhite standing in the hall way. Mrs. Carmichael questioned Satterwhite, asking him his name and the reason for his presence in her house. Satterwhite said he thought it was the house of "Dr. Hayden," presumably Dr. Glen Hayden, chairman of the Music Dept. He also said that his name was Satterwhite. Satterwhite was leaving when Mrs. Carmichael asked again who he was, asked for some identification, and threatened to call the police. Satterwhite this time replied that his name was "Stevenson" and af-

A possibility of a mass strike by all members of the United Brotherhood of Groundhogs loomed early today. Union locals in all parts of North America were reported on alert for such a move.

A. Furry Woodchuck, president of Kenan Woods Local No. 496, in an exclusive Daily Tar Heel interview said, "We're fed up! For years people have been accusing us groundhogs of the lousy weather in February and March. We have nothing to do with it. and we're tired of taking the blame."

If a groundhog sees his shadow Feb. 2, six weeks of bad weather are supposed to follow. Good weather is alleged to result if a shadow is not seen.

"This time we may not come out of our burrows at all," continued Woodchuck. "If the other unions can have walkouts, we can have a stay-in. Let them blame the climate on the squirrels for a change."

Doubt was expressed by local observers as to whether groundhogs in this area, otherwise knonwn as woodchucks, could muster many union members since the animals are a rarity this far south.
