# Budget Criticism Intensifies

By DAVE JONES "The governor and the Budget Bureau don't realize what a great University we have here in Chapel Hill," said Dr. B. L. Ullman, Kenan professor and head of the Department of Classics, when asked to comment on the Advisory Bud get Commission's recommendation for the 1959-61 Biennium.

"Our University is one of the greatest in the country and we ought to sacrifice to keep it up," he said. "Our department stands high and we must continue to do our share to uphold the integrity of the Univesrity."

Dr. Ullman listed three areas in which he felt the University must not be neglected or forced to retrogress. They are: "faculty salaries, for without increases we can't hold or attract people; new appointments, for without them we can't increase; and library, for it has to be a good library, and ours is
