Oppenheimer Guest Speaker For Annual McNair Lecture

J Robert Oppenheimer, once re- science and theology upon each ferred to as the "father of the other and to prove the existence and atom bomb", will deliver the annual attributes as far as may be, of McNair Lecture here next Thurs- God from nature." day, 8 p.m. in Memorial Hall.

Dr. Oppenheimer, chairman of the general advisory committee of the Atomic Energy Commission 1947-1953, was suspendel from the AEC after an investigation by a special personnel security board.

He is now professor of physics and a director of the Institute for Advanced Study at Princeton, N. J.

"Some Reflections on Science and Culture" is the subject of Dr. Oppenheimer's lecture which will be open to the public.

Born in New York in 1904, Dr. Oppenheimer was educated at Harvard University and at Gottingen University in Germany, receiving his A. B. and Ph. D. degrees.

From 1929 to 1947, he had the post of professor of physics at the University of California and the California Institute of Technology

He was Director of the top secret Los Alamos Science Laboratory at Los Alamos, N. M., from 1943 until 1945 where the

first atomic bomb was produced. He was chairman of the General Advisory Committee to the AEC, 1947-1953.

The McNair Lectureship on Science and Religion was founded by was delivered in 1908
