Racial Tensions Erupt As Negroes Invade Restaurant

Mock Demos To Award \$90 For Prize Floats

"The Mock Democratic Convention is going to give away \$90 in prize money April 29," Bill Kellam, newly appointed parade manager for the Mock Democratic Convention, announced yesterday.

Cross Burned At University; Police Jail Four Participants

COLUMBIA, S. C. — Racial unrest near a Negro college was punctuated before dawn yesterday by a cross-burning, a scattered exchange of brickbats and the invasion by about 50 stick-swinging Negroes of a drive-in restaurant.

At least two cars at the white drive-in were battered by shouting, club-wielding Negroes. An unidentified white woman in one car reportedly was injured by flying glass.

Four Negro students at Allen University were arrested about 15 minutes after the drive-in incident at 3:45 a.m. They were released without charge about noon in custody of college officials.

Two patrons of Mac's Drive-In told police the invading Negroes shouted, "we're going to take over this place."

The ruckus lasted only a few minutes. The Negroes fled without entering the restaurant itself and no damage was done to drive-in property.

G. A. Toms, a newspaper composing room employee of the Columbia State, said he gunned his car away from the parking lot as soon as he saw the oncoming Negroes.

Eisenhower Trip South Dubbed Real Success

By STANFORD BRADSHAW. RAMEY AIR FORCE BASE, PUERTO RICO. — President Eisenhower's 15,560-mile South American tour was an unqualified success, U. S. officials said Sunday.

They said the tour of Brazil, Argentina, Chile and Uruguay created good will and understanding vital in settling specific problems in each country.

At the same time, they emphasized the tour was not tied in with specific loan projects, but that an increasing attitude of U. S. cooperation in achieving Latin-American aspirations could be expected.

Among the achievements of the trip they listed:

1. Chile's overriding interest in Latin-American arms limitations, proposed by Chilean President Jorge Alessandri, was not tied to any request to the United States to cut its sale of small arms.

2. Opportunity was provided for Eisenhower's National Advisory Council on Inter-American Affairs to come to direct grips with problems involved in improving U. S. Latin-American relations.

3. Interest was shown by nations visited in increasing trade opportunities. They were particularly concerned about U. S. protectionism as applied to raw materials they sell.

4. Approval was expressed for the U. S. policy of patience toward the revolutionary government of Cuba.

5. There was evidence the tour will help slow down and all-out Communist drive in Latin America.

6. U. S. officials said Uruguay presented a list of projects in which it is most interested, including electric power and transportation.

7. Argentina appeared anxious to take advantage of a wider exchange of persons, particularly in technical fields.

8. Out of the improved understanding, achieved in large part because of trust in and respect for the President, concrete measures to meet Latin-American needs could evolve.

WARM WEATHER APPROACHING — The Campus Chest Thermometer is rapidly climbing out of the snow and appears to be reaching for the goal of \$3,000 with the fund collection period half over.
