Chemistry Professors Attending NSF Clinic

LOUNGING—Dawneda Fowler lounges by the side of Kessing Pool, basking in the sunlight. She's a junior history major from Grundy,

Va. Her hobby is painting. We think she makes a pretty picture herself.

The National Science Foundation 1960 Summer Institute for College Chemistry Teachers is now underway here. A grant of \$56,400 from the National Science Foundation has enabled the University to continue the program now in its third year.

Fifty-six participants have been selected for the Institute which will run through July 22. Each individual attending receives a stipend of \$450 plus traveling expenses. Twenty-five states are represented in this summer's Institute.

Director of the Institute, Dr. H. D. Crockford has assisted in planning and running the Institute by a committee composed of permanent members of the UNC faculty. They are the associate director Dr. Sam B. Knight, professor of organic chemistry; Dr. Carl Anderson, professor of biochemistry; Dr. R. G. Hiskey, assistant professor of organic chemistry; Dr. C. N. Rillee, associate professor of analytical chemistry; and S. Y. Tyree, professor of inorganic chemistry.

The primary objective of the Institute is to "increase the ability of teachers to interest students in making chemistry their career." Studies are designed to supplement each teacher's basic knowledge of his field, and to keep him informed of modern developments in chemistry.

Outstanding chemists who are lecturing to the Institute at various times include Dr. C. G. Overberger of the Polytechnic Institute of Brooklyn, Dr. J. G. Calvert from Ohio State University, Dr. Ralph L. Shriner of the State University of Iowa, Dr. David Hume of Massachusetts Institute of Technology, Dr. Sam Kirkwood from the University of Minnesota, Dr. Olaf Mickelsen of the National Institute of Health, and Dr. Gerhart Friedlander from the Brookhaven National Laboratory.

Dr. Kerro Knox of the Bell Telephone Laboratories at Murray Hill, N. J., formerly of the UNC faculty, will also be a guest lecturer.

University faculty members giving special lectures are Dr. Gordon Sharp, Dr. G. O. Doak, Dr. S. Y. Tyree, Dr. C. N. Rillee, Dr. J. P. Collman, and Dr. J. C. Morrow.

Participants in the Institute have visited the nuclear reactor at North Carolina State College and the Aluminum Company of

America plant at Baden, N. C. They have also been present at a glassblowing demonstration by D. G. Sampson and E. C. Schultz.

North Carolinians at the Institute are Wendell E. Dettie of Catawba College, Salisbury; Murrel K. Glover of Presbyterian Jr. College, Maxton; Ray C. Pruette of Louisburg College, Louisburg; Gertrude Verillion of Woman's College of UNC, Greensboro; Steve Latimer of Shaw University, Raleigh; and James Liston of Choevern College, Murfreesboro.

Extension Courses Offered

Students who will not be attending second session of summer school may earn college credit and quality points while at home.

Correspondence course may be selected from numerous departments for degree credit toward a bachelor's degree. Each student's work is given individual attention by a University of North Carolina faculty member. The minimum time allowed for the completion of a course is seven weeks; the maximum time, 13 months. Two courses may be taken concurrently. Assignments are submitted at the student's convenience as long as no more than four are submitted in a seven-day period.

The University accepts one full year's work by correspondence for a bachelor's degree but the last year's work must be taken in residence here. If suitable courses are available, a senior may take by correspondence, with the approval of his dean, the last two courses required for graduation.

Teachers may take correspondence work to renew certificates based on a bachelor's degree. Any course that does not duplicate a course previously taken and in the proper professional field (i.e. high school, elementary) is suitable.

Students now in residence may register for courses and should arrange to do so before leaving Chapel Hill. Information regarding courses may be obtained from the Bureau of Correspondence Instruction, 114 Abernethy Hall. Catalogues are available upon request.

EXAM Schedule

Here it is folks. It seems that the session has hardly begun, and yet the final exam schedule is already causing chills to run up and down the spines of overheated students.

The schedule is as follows:

Monday, July 18

Class	Exam
10:30	8-10 a.m.
2:00	11 p.m.
7:30	3-5 p.m.

Tuesday, July 19

9:00	8-10 a.m.
12:00	11-1 p.m.

P.M.'s and others not otherwise provided for will be held from 3-5 p.m. Tuesday.

No student may be excused from a scheduled examination except by the University Infirmary, in case of illness, or by his Dean, in case of any other emergency compelling his absence.

'Ordet' Seen As Free Flick

The story of a Danish village divided by religious trouble is told in this week's Free Flick, to be shown tonight at 7:30 in Carroll Hall.

The name of the film is "Ordet," a Danish film based on the play by Kaj Munk, and directed by Carl Theodor Dreyer.

"Life in Norway," a short subject, will also be shown.

The farmers and fishermen who live on the west coast of Jutland are magnificently portrayed by Dreyer's carefully selected cast.

In this drama of a farming patriarch and his sons, the women they love and the village minister and doctor, Dreyer deeply comprehends the larger drama of men's faith and the wonders it can bring to pass.

At the end, when a child's faith brings a dead woman to life, the audience is filled with artistic assent and the intense experience which Dreyer intended.

As in "Day of Wrath," style and subject are consummately matched. The mood is projected through slow, powerful, compelling scenes reminiscent of Flemish painting. The "revelatory" power of cinema is overwhelmingly clear.

"The Nation" Board of Review proclaimed "Ordet" the "Best foreign film of the year."

"Ordet" won the Golden Lion of St. Mark Grand Prize at the Venice Film Festival in 1955, and was honored at similar festivals at Edinburgh and Stratford (Ontario).

Next week's film will be "Dark River," from Argentina.

Semester Honor Roll Released By Johnson

The names of honor roll students in the University of North Carolina have been announced by Dean Cecil Johnson.

Freshmen and sophomores on the honor roll for the 1960 spring semester were enrolled for a minimum of 15 semester hours and received grades of B or higher.

Names and hometowns of the honor roll students follow:

Edwin H. Anderson, Hickory; Daniel M. Armstrong III, Rogersville, Tenn.; Charles Ronald Aycock, Wilson; Jerry Hicks Barnett, Tryon; Garry P. Bergeron Jr., Farmville; David P. Bland, Rutherfordton; Michael S. Blass, Atlanta, Ga.; Vestal I. Boyles Jr., Pilot Mt.; Thomas E. Brinkley, Mt. Airy; Richard L. Brown III, Albemarle; Wil-

liam H. Brown Jr., Greenville; David L. Cohen, Walterboro; Theodore J. Cohen, Indianapolis, Ind.;

Frederick H. Croom, Maxton; James A. Crouch Jr., Columbus, Ga.; Ann Marie Cummings, High Point; Robert E. Cunningham, Greensboro; William Enloe Cunningham, Kernersville; Walter E. Dellinger III, Charlotte; Gloria DiCostanzo, Chapel Hill; James D. Dinsmoor Jr., St. Marys, W. Va.; Clarence Neil Dixon Jr., Cherryville; Richard Lee Dunn, Chapel Hill; Douglas M. Fambrough, Chapel Hill;

Jonathan D. Fraley Jr., Le noir; Paul D. Freedle, Thomasville; James D. Fussell, Rose Hill; Ronald Lee Gabriel, (See SPRING HONOR ROLL, p. 4)
