Quarterly To Hold Organizational Meeting

The Carolina Quarterly will hold its first organizing meeting in the GM Television Lounge, Monday at 7:30 p.m.

Richard Rickert, editor of the Quarterly, announced that the staff is already well-organized. However, there are gaps in some areas, Rickert stated, and more supplementary assistance is needed. A large number of students have already begun work on the first issue.

The staff of the Quarterly does the critical reading and correspondence with campus authors, as well as with writers who submit work from around the country. "Students are often under the impression," the editor said, "that this requires monumental intelligence or scholarship, or that one must write in order to be admitted to the staff. It is a fact that final editing is often meticulous, and that many students who have published in the Quarterly are also on the staff. But the majority of the staff are students who learn how to edit well by doing the elementary reading which often results in a simple 'Yes' or 'No' to a story. Others simply do the clerical work of getting the magazine ready for printing."

Students will be able to read manuscripts of short fiction, critical articles and poems. The staff is in particular need of a competent reader of contemporary poetry, and especially clerical help for publicity, subscription sales, advertising, and assistance in business administration.
