University Adopts Resolution Paying Tribute To Carmichael

The Consolidated University adopted a resolution Monday paying tribute to the late CU vice-president and finance officer, William D. Carmichael Jr.

The resolution stated that in the two decades between 1940 and 1960 Carmichael "was the point of continuity in University leadership."

He was at various times controller, vice-president and finance officer, and acting president of the CU. "His years of achievement were also the years of achievement of others," the resolution said. "He is what the years and others had in common." The expression of appreciation was directed by Gov. Terry Sanford. It was read before the full meeting of the Board of Trustees by J. Spencer Love of Greensboro, the chairman of the committee which prepared the resolution.

The resolution, written in large part by new CU Secretary Fred H. Weaver, traced the life and career of Carmichael. "As we saw him in our various perspectives we saw a man of many parts, incessant motion and myriad projects. But all parts, all motion, all projects worked to one absorbing purpose: to raise up the University in the service of the State."

Some of the projects which Carmichael worked toward the completion of, are: WUNC-TV; landscape work at the three colleges; Morehead Planetarium; the Good Health Movement... Of Carmichael, the resolution said: "Perhaps someday some-

one will neatly catalog his works by singling out from the multitude of things that he touched in some way those which deserve to bear his individual name and label.

"But let it be recorded here that his good works in the University are inestimable and all pervasive, and that his influence extended to everything that affected the welfare of his State."

The expression added, "We will not soon look upon the likes of him again. And so be it. His uniqueness is buried with him. His work remains. "With him there died for us a part of the University which we love, and something of ourselves died too. But he left a heritage for all who come after and countless yet unborn."

The resolution concluded, "His life passed like a single working day, and he forgot himself into immortality."

Katanga & Kasai Heads Sign Treaty

ELISABETHVILLE, The Congo (UPI)—Enemies of slain Patrice Lumumba threw their military forces into a single command yesterday in the battle to crush Lumumbist troops threatening to conquer two-thirds of the Congo.

Leaders of the Central Congo, Katanga and South Kasai governments signed a military treaty uniting their forces to meet "the tyranny of communism" posed by Red-trained Oriental Province leader Antoine Gizenga.

The agreement, which said United Nations peace efforts were "useless," was signed by Congolese Premier Joseph Ileo, Katanga President Moise Tshombe and South Kasai leader Albert Kalonji.

YWCA Positions Available Soon

There will be two meetings for any girls interested in trying out for YWCA executive or cabinet positions next year, today and Thursday at 4:30 in the Library Assembly Room.

All girls trying out for the positions should attend one of the two meetings.

This year's committee heads will be at each of these meetings and will discuss what their jobs entail.

After these talks there will be informal discussions, and refreshments will be served. Interviews for the executive positions will be Monday, March 6, through Friday, March 10, from 3 to 5 p.m. Girls may sign up for interviews in the YWCA office.

The new military grouping gave them a powerful numerical superiority over the Lumumbist forces. Kalonji claims 1,000 men, Tshombe 5,000 and the Ileo forces under Maj. Gen. Joseph Mobutu 17,000, although some estimates fix Mobutu's total at closer to 7,500 men. The Lumumbists are reported to have about 7,000 troops.

Soon after the signing, a band of 300 pro-Lumumba troops loyal to Gizenga, who proclaimed himself premier after Lumumba's death, were reported fleeing from Luluabourg, capital of Kasai Province.

There also were reports that a pro-Lumumba column of soldiers had advanced to Kikwit, a town in Leopoldville Province only about 280 miles from the capital city of Leopoldville. But these were believed to be the troops fleeing from Luluabourg.

Other unconfirmed reports said another column had reached Boende, 250 miles east of Colquihhatville, capital of Equatorial Province. If these reports are true, it would mean this column had covered more than half the distance from the town of Ikela near the border of the Gizenga stronghold to Colquihhatville.

IFC Elects Officers, Court Members

The Interfraternity Council Monday night chose four men to lead them through the 1961-62 academic year, and elected five more to serve on the body's judicial arm, the IFC court.

Succeeding Pete Austin as president of the council, which represents the 24 campus fraternities, was Bill Sullivan, a junior SAE from Knoxville,

Tenn. The second highest office will be filled by Billy Riley, a Phi Delta Theta from Chattanooga, Tenn. He will succeed George Campbell.

Filling the office of secretary will be Bob Madry, a Sigma Nu from Burlington. Madry is a sophomore and will succeed Jim Noyes in the position.

The body's new treasurer will be Joe Craver, Pi Kappa Alpha, a sophomore from Shelby.

As president and vice-president, Sullivan and Riley are automatically members of the seven-member IFC court, which handles infractions of IFC policy. The remaining five members are elected at large.

These include: Ralph Bender,

David Underwood, Bill Farrell, Duff Greene and Gib Carson.

80% Rule

Other business during the meeting included a discussion of the "80% rule" which provides that any lodge must maintain 80% of its membership above a "C" average or be deprived of rushing privileges until the average is attained. A committee report stated that the ruling was "too severe and impractical," and outlined some recommended changes which it deemed necessary.

Among these was a plan to attempt to get the percentage changed to a lower figure, or, failing this, to get the penalty changed to other than rushing probation.

The committee felt that academic difficulty was not an outcome of rushing practice and rushing probation would only place an unnecessary financial burden on houses, rather than solving the problem by hitting at the root of the problem.

Installation of officers will take place on March 13, at which time Austin will turn the reins over to Sullivan and the new slate of officers.
