Soviets Threaten Use Of Rockets

Press Renews Charge Against U.S. Of 'Direct Military Intervention'

MOSCOW (UPI) - In an obvious warning on the Cuban crisis, the Soviet army newspaper Friday said the Soviet rocket types that hurled cosmonaut Yuri Gagarin into space could be used for military purposes "if necessary." The statement was coupled with charges that the United States was threatening Cuba with "direct military intervention."

It accused the United States of "saber rattling" and said another invasion of Cuba was planned. "The danger threatening Cuba has not passed

Castro Reports 400 Rebels Are Captured; Calls JFK 'Imbecile'

HAVANA (UPI) - Denouncing President Kennedy as an "imbecile," Fidel Castro's government Friday said it captured 400 invaders with its Red-supplied arms and has Russian rocket support against any U.S. "direct aggression."

Premier Castro was reported personally directing mop-up operations in the area of the invasion last Monday in southern Cuba, seeking to cut off survivors from joining other rebels in the Escambray Mountains.

Havana was an armed camp as arrests continued. Troops, militiamen and sandbags were everywhere. The state-controlled radios filled the airwayes with attacks on Kennedy and the United States and promised to produce live personally directed the battle ing a station wagon which had
