Why won't your wife let you buy this wagon?

"It looks like a bus."
"I wouldn't be caught dead in it."
Do these sound familiar? Your wife is not alone. It is hard to convince some women what sense the VW Station Wagon makes.
Its chunky shape, for instance, allows it to hold more than the biggest conventional wagon. (Yet it is a good four feet shorter, and a lot less exasperating to park.)
Your wife might like the easy way it loads. The wide side doors give her almost 16 sq. ft. for supermarket bags. Or an open baby carriage. Or an antique chest, standing up. Or delicate trees from the nursery. Or even an open playpen.
She can take eight or more Scouts, with cook-out gear. She can give the family plenty of sun. (Why no other station wagon has a sun-roof remains a mystery.) She won't ever have to worry about the radiator boiling over. There's no radiator, no water. (The VW engine is air-cooled.)
And if she likes to see where she's going, the VW wagon has incredible visibility.
If these facts don't convince her, then you might as well give up gracefully. (But before you do, bring her in for a drive. And don't be surprised if she does let you buy one.)
